SENATE IS FOR SAN FRANCISCO

LETTERS OF POPE IN COURT

New York Attorney Tells of Transactions When Former Miss Ashley Was Paid for Note

Mrs. Turnbull Kept Copies of Missives, Lawyer Declares; Receipts Are Produced

LOS ANGELES, Feb 8—Letters from Colonel Albert A. Pope to Lillian A. Ashley, now Mrs. Turnbull, and receipts for numerous sums of money, averaging about $200 a month, paid to her by Colonel Pope's attorney, were the features of the Baldwin case today.

William A. Redding, a New York lawyer, counsel for Colonel Pope and the Pope corporations from 1885 to the present time, took the witness stand today and told of his financial transactions with Miss Ashley on behalf of Colonel Pope.

His first interview with her, he said, was at Jamaica Plains, a suburb of Boston, on September 14, 1892. He told Miss Ashley at that time, so he testified, that it was necessary for him to have certain letters which Colonel Pope had written her. He offered her $200 for their surrender and she finally accepted and agreed to go to New York the next day and turn them over to Colonel Pope.

HANDS OVER LETTERS.

He paid over the $200, he said, and she met Colonel Pope in the witness' office in New York the next day and gave the letters to the colonel in his presence. Colonel Pope handed the letters to him, Redding testified, and he tore them up and threw them in the waste basket. Later, thinking they might be of future value, the witness said, he pieced the letters together and filed them away. The receipt for the $200, signed by Miss Ashley, was produced by Redding and offered in evidence.

A month later, at Winchester, another Boston suburb, Redding said he saw Miss Ashley again and here she demanded $200 more. The discussion was very unpleasant, the witness said.

SUBJECT CLOSED.

He understood, he told her, that the subject was closed with her surrender of the letters. Miss Ashley responded that it was not closed, and that she had kept copies of the letters. At this point Redding produced another receipt for $200 signed by Miss Ashley.

Thereafter, as shown by the receipts produced by Redding, Miss Ashley received $200 a month from Colonel Pope, an exception being one month when she was visiting at Cynthiania, Ky, and had no traveling expenses, as Redding stated in the letter which he wrote enclosing a draft for $100 which he thought ought to do her for that month. Redding was still on the stand when court adjourned for noon recess.

Three-Year-Old Boy Aviates With Father

Youngest Birdman Enjoys Four-Minute Flight and Cries for More.

CAMDEN CITY, N. Y., Feb. 8.—Robert Lawson, three years old, has the distinction of being the youngest aviator in the world. He will make his second flight as a passenger in his father's biplane here on Saturday.

He took his first trip aloft yesterday over the snow-covered aviation field here. The trip lasted about four minutes, covering three miles. The baby sat in his father's lap and appeared to enjoy the ride, crying lustily for more when the machine descended.

Lyncher Is Given 20 Years' Sentence

Shoemaker's Appeal Set Aside and He Must Pay the Penalty.

NEWARK, O., Feb. 8—Judge Weygandt overruled today the motion for a new trial of William McKinley, a shopkeeper who was found guilty of manslaughter for complicity in the lynching of Carl Etherington, a "dry" detective, in this city last July, and sentenced McKinley to twenty years in the penitentiary. McKinley was the second man convicted in connection with the lynching of Etherington, Manuel Botha, a negro, having been sentenced to life imprisonment.

PRESIDENT LOVETT PLANS INSPECTION OF SYSTEM

Harriman Head to Take Long Journey

Double Tracking Will Be Discussed With Officials

NEW YORK, Feb. 8.—It was news in railroad circles here today that Robert S. Lovett, president of the Union Pacific and Southern Pacific roads, is to start soon on an extended inspection trip of the Harriman lines.

The principal object of his proposed trip is to take up with the operating officials the double tracking and other improvements recently authorized by the executive committee.

The cost of double tracking the system from the Missouri river to the Pacific coast will be upwards of $75,00,000, and is to be distributed over a period of five years.

In addition to this sum the Harriman lines are figuring on spending at least as much more within the next six years on other improvements and extensions.

ROBERT S. LOVETT, president of Harriman system, to inspect roads.

Oakland Girl Steals March on Friends

Miss Edna Tyler Kindelon and Curtis Rice Get Married Before Time Set.

BOSTON, Feb 8—Miss Edna Tyler Kindelon of Oakland, Cal., and Harry Curtis Rice of Cleveland, O., who were to have been married yesterday at the home of the groom's mother in Lynn, stole a march on the wedding guests gathered at the Rice home and secretly leaving the house, went to the home of Rev. Arthur W. Harriman, where they were married.

A large number of guests responded to the invitations which had been sent out for the wedding. When they began to speculate as to the whereabouts of the couple Mr. and Mrs. Rice appeared and announced the ceremony had been performed. Following a reception the couple left for an extended honeymoon trip through the South and West.

Powers to Replenish Behring Seal Herd

President Taft Succeeds in Concluding Agreement to Benefit Fisheries.

WASHINGTON, Feb 8—After prolonged efforts the President has been able to obtain the assent of the maritime powers whose subjects are engaged in the seal fisheries to an agreement for the regulation of those fisheries, calculated to replenish the seal herd in the Behring Sea.

Murderer Leahy Meets Death on the Gallows

SACRAMENTO, Feb. 8—With a cool indifference that has marked his actions since his arrest for the slaying of J. M. Chateau at Roseville last May, Michael Leahy this morning met his death upon the gallows in Folsom prison.

Exactly at the hour of 10:30 the trap was sprung and nine minutes later Leahy was pronounced dead by the physicians, the quickest death any murderer has met on the gallows at Folsom, at least since Warden John Reilly has been in charge.

Leahy took his hanging as a matter of fact.

Last night he passed his time in telling stories of his experience as a brakeman on the railroad with the death warden. After a night of quiet sleep he awoke in fine spirits and joked this morning with Warden Reilly and others.

He walked unassisted to his position over the trap.

The condemned man had nothing to say of his crime or any request to make. Neither did he desire to speak to the newspaper men present.

The killing of Chateau was cold blooded. Leahy was infatuated with Mrs. Chateau and wanted her to elope. When she refused he decided to kill Chateau in order to win her. He lay in wait for Chateau in a woodshed all night and shot him down when he went to get wood in the morning.

To Increase Rates on Periodicals of Country

WASHINGTON, Feb 8.—It is reported that the committee on Postoffices and Post Roads will adopt today an amendment to the postoffice appropriation bill to increase the second-class rates on advertising matter in periodicals. The amendment was agreed on at the White House today at a conference of President Taft, Vice-President Sherman, Postmaster General Hitchcock and Senators Carter and Crane.

Extra Session, Says Taft, If Congress Doesn't Vote

WASHINGTON, Feb 8—President Taft served notice on Congress today, through Senators Crane and Carter, that there must be a vote on the reciprocity agreement with Canada or he would call Congress in extra session after March 4.

German Missionary Killed by Savages

Massacre On Island of Penope in the Caroline Group.

VICTORIA, B. C., Feb 8—The Zelandia brought further reports of the revolution suppressed by German warships on Penape Island in the Carolines. The rising started from the punishment of a native working on the road and the Germans in charge had to take flight and shelter in a Catholic mission which the natives placed under siege. The defenders, nine in number, were killed.

Father Gebhard, the missionary, was killed when seeking to leave the mission, and the road superintendents, Holbern and Hoffner, were hacked to pieces after a gallant fight against odds at the beach where they sought to launch a boat.

Pass Resolution for Direct Senatorial Vote

Assembly Petition Calling for Action by Congress Unanimously Approved.

SACRAMENTO, Feb 8.—The assembly joint resolution petitioning congress to pass legislation providing for the election of United States senators by a direct vote of the people was passed by a unanimous vote today.

Kansas Senate to Let Women Vote

TOPEKA, Feb. 8.—The Kansas senate passed today, 27 to 12, the resolution to submit an amendment to the constitution given women the right to vote in all elections. The resolution had previously passed the House.

OROZCO'S ARMY WAITING TO ATTACK

Rumor That Federals of Juarez May Go Out and Hunt Him.

Insurgent Delay Is Due to Desire for Reinforcements.

EL PASO, Tex, Feb 8—Pascual Orozco and his revolutionists still occupied their position across the river from the smelter three miles west of here this morning. The junta on this side is experiencing little difficulty in sending him provisions.

About Juarez it was rumored that the federals might make an attack on him today, but this could not be confirmed officially. General Blanco, with 300 insurgents, whose coming Orozco awaits, had not appeared, nor had the detachment reported on its way from Ojinaga.

Mexican Central officials said today that the line would be repaired to Rancheria, 60 miles south of here, by tomorrow, and that trains could run through to Chihuahua within five days.

FIGHTING AT MULATO.

PRESIDIO, Tex, Feb 8—Mexican soldiers made a desperate attack on Mulato today. The federals were repulsed by the insurgents. Troop H of the Third cavalry viewed the fight from the American banks. The Mexican soldiers are drawing in and another battle is expected to be fought tomorrow.

INSURGENTS CAPTURED.

EL PASO, Feb. 8.—United States troops captured six insurgents and a wagonload of provisions near the El Paso smelter early today. They are now holding them at the El Paso custom house.

Insurrecto General Jose Perfecto Lomeli, who commanded at the battle of Ojinaga, was among the prisoners taken when United States troops captured the provision wagon today. General Lomeli was formerly a Mexican army colonel.

Nine armed insurrectos were arrested at Pelea, N. M.

Nothing has been heard in Juarez of General Navarro, who is said to be coming to the relief of Juarez.

TEMPORARY FORTIFICATION.

About 100 of the insurgents who had been left in camp back in the mountains when Orozco marched to the river yesterday arrived today. The insurgents have thrown up temporary fortifications where they are now. Much wigwagging of small flags goes on from rifle pit to rifle pit.

IN LOWER CALIFORNIA.

SAN DIEGO, Feb 8—Two Mexican insurgents were killed at Japan, fifteen miles southeast of Campo, in a fight between scouting parties of the rebel force and Mexican regulars, is the report received in San Diego at noon from Campo. The correspondent of the Union telephones that fighting is in progress between scouting parties near La Junta, eight miles southeast of Campo, and that Governor Vega and his men have not yet been surrounded. The casualties in the engagement at La Junta are not known. The correspondent says indications are that the main bodies are making no movement against each other and that the rebels are confining themselves to guerrilla warfare. Governor Vega has made no attempt since reaching Campo to force the issue.

Buffalo Bill Wins in Race With Death

Colonel Cody Impresses Horses, Stage, Train and Auto to Reach Sister.

PASADENA, Feb 8—Traveling by horseback, stage, train and automobile at the fastest speed he could make, Colonel William F. Cody (Buffalo Bill) today won a race with death when he arrived from Arizona at the bedside of his dying sister, Mrs Helen Cody Wetmore. Mrs Wetmore has been at the point of death for days from cerebral hemorrhages.

When she was first taken ill telegrams were sent to Colonel Cody in Arizona and he was finally located at a mine many miles from any railroad. The message reached Colonel Cody shortly before midnight.

Stopping only to hurry into his clothes, he mounted a horse and rode at breakneck speed for Agua Caliente. Arriving there early yesterday morning, he found that the river was unfordable from recent heavy rains. He then chartered a stage, and paid a big bonus to the driver to break all records over the hills and rocks, through gullies and sands to reach Sentinel, on the main line of the Southern Pacific. Here he caught a fast train for this city.

When Colonel Cody arrived at the bedside of his sister, she was unconscious.

COMMITTEE IS A UNIT IN VOTE REGARDING THE BIG EXPOSITION

Californians Win Final Victory in the Hard-Fought Battle Against New Orleans

WASHINGTON, Feb. 8.—San Francisco today won the unanimous vote of the Senate committee on Industrial Expositions for the Panama canal exposition.

The resolution declaring for San Francisco was ordered reported in the form in which it passed the House. By a vote of 8 to 5 the committee rejected an amendment offered by Senator Swanson providing for the rendezvous at Hampton Roads of the fleets of the world and a reception of foreign representatives in Washington. Senator Swanson announced that he would renew this amendment when the bill was taken up in the Senate.

San Francisco Rejoices

SAN FRANCISCO, Feb. 8.—The glad tidings of the vote of the Senate committee brought joy to the hearts of the fighters of the reserve forces in the Merchants' Exchange building in this city this morning, and the news that the last lap in the race had been run was received with cheers by all. Preparations were immediately begun for a gigantic demonstration to celebrate the victory which only needs the perfunctory vote in the Senate itself to be made final.

The several committees immediately went into session to plan for this celebration, which will be on a tremendous scale, and will include merrymaking in Golden Gate Park and a monster parade through the streets of the city.

Plan Monster Celebration

The plans as outlined at noon today were but tentative, the committees having not concluded their deliberation. The celebration will not take place until the return of California's heroes from the capital. An effort will be made to have them reach San Francisco in a body, and their landing at the ferry will be the signal for the opening of the festivities.

The date for this outburst of the public enthusiasm is therefore somewhat indefinite. Just when the labors of the Congressmen and the loyal citizens of the Golden West will be completed will have to be figured and an appropriate time set when all can be on hand to enjoy to the fullest the intoxicating reality of the victory which is ours.

ACTION WILL BE QUICK.

WASHINGTON, Feb 8—San Francisco today won the unanimous endorsement of the Senate Committee on Industrial Exhibitions and her path to the Panama-Pacific Exposition for 1915 has been virtually cleared. Little debate attended the passage of the resolution, New Orleans having given up the fight.

It now remains for the Senate to

Cyclone Damage on Reunion Island Not Yet Estimated

PARIS, Feb 8—Advices received today by the ministry of the colonies from Reunion, state that the island was struck by a cyclone that continued for three days. The damage is heavy but it is impossible to estimate it, as communication between the different places is cut off. The official dispatches do not state whether there was loss of life.

Reunion is an island of the Mascarene group in the Indian Ocean, forming a French colony. Its area is 790 square miles, and it has a population of about 175,000. Its capital is Saint Denis. The chief products are sugar, coffee and tobacco.

Teacher's Error Caused the Death of Ambitious Pupil

ORANGE, N. J., Feb. 8—Morris Henkel, a 13-year-old school boy, is dead at his home here of grief over his supposed failure to pass his final examination in the eighth grade class. The lad was one of the best pupils in his grade and when his teachers announced through a mistake that he had failed to pass his examination, he collapsed and died a few hours later.

The principal of the school, knowing the boy's record as a scholar, had his papers looked over again and found that young Henkel had passed the examination but that an error had been made.

Hayti Revolution Leader And Five Others Executed

CAPE HAYTIEN, Hayti, Feb. 8.—General Millionaird, the head of the Revolutionary forces, and five other rebel generals, were taken from the prison at Trou and shot to death at 11 o'clock last night.

General Millionaird was arrested soon after the uprising and remained in confinement until his execution was ordered by the goverment. He belonged in the department of Vallieres.

MEXICO MAY OBJECT TO AIR SCOUT

Proposed Treaty Regulating Use of Airships May Be Put in Effect.

Federals and Insurgents Clash; Baca's Aide Said to Be Dead.

WASHINGTON, Feb. 8.—Possibly it was with an appreciation of what is just coming to pass on the Texas border that Senor De La Barra, the Mexican ambassador, proposed to Secretary Knox some time ago the negotiations of a treaty to regulate the flight of aeroplanes between the United States and Mexico.

Secretary Knox was willing to entertain the proposition and as a result a treaty has been drafted which has received the approval of the Mexican government and is now before the State Department for its action.

TO STOP SMUGGLING.

The ostensible purpose of the Mexican government was to prevent smuggling which could be carried on in the case of small and exceedingly valuable commodities such as jewels, laces, opium and the like almost with impunity and with great profit, by aeroplanes, in the absence of regulations.

But another very important use of aeroplanes was evidently in mind and that was its possible employment by revolutionists in conveying information of the movements of government troops endeavoring to capture rebel forces.

Mexico would not object to the employment of aeroplanes by the United States army as proposed, but would not like the appearance on the border of a number of aeroplanes, such as would be drawn to the proposed exhibition at El Paso, if these machines were to operate over Mexican territory without responsibility to the military authorities. Therefore it is probable that a protest will be made by the Mexican government against any such unregulated flights.

EL PASO, Feb. 8.—Mail advices to the Herald from Parral, Chihuahua, Mex., tell of a fight between federals and insurgents at Olita, in that district, and the killing by the federals of Pedro T. Gomez, aid to Guillermo Baca, the rebel leaders of that region. Gomez and Baca were leaders who captured Parral on the opening day of the revolt last November.

Further information from Parral is that G. Garsa has been arrested and is being held for ransom by bandits near Ortiz.

CARS COLLIDE WITHOUT INJURY TO PASSENGERS

SAN FRANCISCO, Feb. 8.—Traffic on the Mission street line was interrupted at the busiest period of the day and a score of people escaped injury as though by a miracle when an inbound car crashed into a coach of the Ocean Shore Railway at the intersection of Twelfth street at 8 a. m.

The railroad people were switching a train when the car, coming at considerable speed, could not be stopped to prevent the crash. Passengers screamed and one woman fainted, but fortunately there were no fatalities.

SOCIETY STRIVES TO HONOR THE HON. MRS. JOHN WARD

THE HON. MRS. JOHN WARD, only daughter of Whitelaw Reid, who is now visiting California and will be extensively entertained by the smart set in the bay cities.

SAN FRANCISCO, Feb. 8.—The Honorable Mrs. John Ward, only daughter of Whitelaw Reid, who has been the American ambassador to England since 1905, is to be the motif for many fashionable affairs in and about San Francisco and San Mateo county during the brief two weeks that she is here.

Notwithstanding the fact that she and her husband arrived from England only Sunday afternoon in company with her parents, Mr. and Mrs. Whitelaw Reid, a number of social events are already being planned in her honor.

Mrs. Ward married the Honorable John Ward, who is a brother of Lord Dudley, two years ago, and they have one little child, born about a year ago.

The Reids and Wards are at Millbrae, in San Mateo county, the home of Mrs. Reid's father, the late D. O. Mills, who died about a year ago. The ambassador, who has not been in California for more than two years, intends taking a much-needed rest during his brief vacation here.

After the two weeks spent at Millbrae, the party will return to New York in their private car, the Mayflower, reaching London about the middle of March, where the ambassador will again take up his manifold duties as the representative of the United States government.

LAST TRIBUTE PAID TO DEAD PIONEER AND WIFE

Scores Honor Memory of Mr. and Mrs. J. F. W. Sohst; Floral Pieces Are Numerous and Beautiful

Private services over the remains of Mr. and Mrs. J. F. W. Sohst were held at the residence, 136 Telegraph avenue, at 10 o'clock this morning, Rev. Father Bashford officiating. Only the relatives and intimate friends of the family were present at the short Catholic service over the bodies of the aged couple who died within a few hours of each other on Monday afternoon. Mrs. Sohst was an adherent of the Catholic faith.

Episcopal services were held this afternoon at the undertaking establishment, Rev. Clifton Macon of the Telegraph Avenue Episcopal church having charge of the last rites. There was no music at the service, which was extremely simple.

A large attendance of friends of the old-time Oakland resident and his wife were present at the afternoon services to testify to the respect and esteem in which both were held by their wide circle of friends. Flowers were heaped about the walls and the two caskets, tributes of affection and sympathy to the dead and to the sorrowing family which has been so suddenly doubly bereaved.

PALL-BEARERS.

The pall-bearers, who were selected by the Elks, of which organization Sohst was a charter member in Oakland, were

M. A. Whidden
Theodore Gier
Julius Seulberger
Max Schultz
Wilber Walker
Albert Curlen
F. Sanderliter Sr.
John Martens
Albert Kayser
Chas. L. Ingler
Chas. W. Wilkins
J. A. C. Macdonald

The unusual number of 12 pall-bearers was necessitated by the double funeral. The interment at Mountain View cemetery was private, only the members of the family being present.

Among the beautiful and monumental floral pieces which were sent to the house and to the undertaking parlors were stars of violets; carnations and lilies, anchors of white chrysanthemums, Easter lilies, violets and pale pink carnations, crosses of delicate pink and white roses, violets and carnations, wreaths of violets, rosebuds, maidenhair fern and autumn leaves; a sickle of violets and ferns; and sprays of violets, heliotrope, white and pink carnations, lilies of the valley, calla lilies, roses and chrysanthemums.

MANY SEND FLOWERS.

The German societies of which Sohst was an active and valued member sent several handsome pieces, as did the employes of several business firms in Oakland. Among those who sent expressions of sympathy and regard in floral form were

RESOLUTION OF SYMPATHY.

A resolution was passed of sympathy and regret by the Oakland Merchants' Exchange last night and copies were sent to the family this morning. The resolution is as follows:

"Resolved by the Merchants' Exchange of Oakland, That in the passing from our midst of Director J. F. W. Sohst, the Merchants' Exchange loses one of its most faithful and useful members, and the city of Oakland one of its most trustworthy, energetic and patriotic citizens.

"Resolved, That we bear testimony to his steadfast devotion to principle and progress, and take pride in his constant efforts, both in public and private capacity, to assist in the development of the city of Oakland, the county of Alameda and the state of California.

"Resolved, That we tender our sincere sympathy to the family and order these resolutions spread in full on the records of the exchange.

"At a meeting of the Merchants' Exchange of Oakland, held February 7, 1911, the foregoing resolutions were adopted.
"E. A. YOUNG, President;
"WILBER WALKER, Sec."

FEAR BLUNDER WILL STOP ELECTION

Ratification of Oakland's New Charter Must Be Made by March 7.

Further Delay May Mean Instrument Will Become Organic Law Too Late.

Fear that blundering of the State Printing office in making errors in printing Oakland's new charter may delay the ratification of that instrument until March 7, when all petitions and declarations of candidacy must be on file with the Oakland city clerk, has resulted in a message being dispatched to the Oakland delegation at Sacramento to hasten the work on the charter. These petitions can be filed only under the provisions of the new charter, and hence cannot be sworn to until it is ratified by the legislature and signed by Governor Johnson.

Should the State Printer make more errors and so delay the charter again it is possible that the instrument will become organic law too late to make possible the election this spring. It is already too late to hold primaries under the old charter, and a condition of unparalleled chaos threatens in political and administrative circles in this city, contingent upon the ratification of the freeholders' charter.

HOLD OFFICE UNTIL JULY 1.

The present city officials hold office until July 1, or until their successors shall have been elected. The charter, which goes into full effect July 1, is to become operative for purposes of election upon its ratification by the Legislature. If this is not done soon, it will be impossible to hold an election under its specific provisions for that purpose, and the present city administration will have to continue in office.

Should the charter be ratified too late for election purposes, but ratified in time to go into effect for all other purposes July 1, the anomalous situation would be presented of eleven city councilmen trying to fit themselves into jobs as four commissioners. The machinery of the new instrument would be in operation with the excessive number of operators of the old charter, with results difficult to forecast.

The danger of such a situation arising has been pointed out by Harrison S. Robinson, a member of the board of freeholders. He calls attention to the fact that thirty days have been consumed by the Legislature in getting ready to ratify the charter, but that the actual ratification is almost as far away today as it was at the opening of the session. If the present tactics are continued, he says, it will be several weeks before the charter is ratified, as it has again been returned to the State Printer to have several errors corrected.

Candidates for office under the new charter are impatient to file their petitions and declarations, and to start their verification deputies to work obtaining signatures. The time for obtaining signatures to the nominating petitions is limited under the charter, and as the primary election is April 18, and a considerable time is allowed before that for the printing and making ready of the ballots and the campaigning, the situation is serious.

SCORE FILE DECLARATIONS.

Almost a score of candidates, believing the charter had been ratified, have filed declarations of candidacy with City Clerk Thompson, but this will have to be done over again, as it is invalid until the charter is made law. Among those who have erroneously filed declarations are F. C. Turner, Edwin Meese, William . Baccus, Eugene Stachler, R. C. Vose, Harold Everhart, Philip Reilly, J. . Naegle, R. D. Holmes, P. C. Frederickson, D. L. Beever, Frank E. Covert, W. S. Angwin, and F. L. Gordon.

Christian Liedecker, a Fruitvale editor, has signified his intention of declaring himself a candidate for mayor as soon as that is legally possible. It is rumored that R. H. Chamberlain may come out in the mayoralty fight.

BAD SPELLING LEADS MAN TO PRISON CELL

NEW YORK, Feb. 8.—A man who misspelled the words "written" and "above" passed the regents' examination, according to the records, but Magistrate Barlow held him in the Tombs court in $1000 bail on a charge of violating the education law.

A. J. Barth, a barber of No. 47 East Third street, was charged with the same offense, and Vincentio Cappello of 346 East Thirteenth street, the poor speller, admitted he had paid $10 to a "ringer" to pass the examination that might admit him to the practice of a profession. Cappello confessed after misspelling the two words in court.

MAYOR M'CARTHY IS ILL WITH TONSILITIS

SAN FRANCISCO, Feb. 8.—Mayor P. H. McCarthy, who has been fighting against a threatened attack of tonsilitis for several days, finally was compelled to yield to the orders of his physician today and take to his bed.

Since returning from Washington, where he labored incessantly for the exposition for San Francisco, the mayor has had trouble with his throat, but owing to the great pressure of matters demanding his attention at his office he stuck to his desk.

It is believed that he will be able to return to his duties by the end of the week. Meantime Secretary Elmore Leffingwell is conducting affairs at the mayor's office.

HONOR DEGREES FOR THREE COLLEGE SUBJECTS

Three subjects have been announced by the faculty of St. Mary's college as the themes upon which honor degrees may be obtained by members of the senior class. They are literature, language and philosophy, and the amount of work necessary for the student in preparation will depend upon the subject chosen.

DILL COMING IN 'LONESOME TOWN' FOR FIVE NIGHTS

BOBBY BARRY, who is coming with "The Girl in the Taxi."

Direct from his recent notable San Francisco engagement of 100 nights, Max Dill, the great German comedian, late of Kolb and Dill, will apepar at the Macdonough Theater for five nights on Wednesday. "Lonesome Town," the famous musical comedy from the pen of the late Judson C. Brusie, will be the attraction in which Dill will be seen in his happiest characterization, that of Bakersfield Bill, a Teutonic knight of the road. "Lonesome Town" is essentially a show of novelties. The spirit of originality dominates everything from the work of the star to the veriest detail of the production.

"GIRL IN TAXI."

No play of the season has been looked forward to with as much pleasure as "The Girl in the Taxi," probably because its visit has been so long deferred. This tardiness, however, cannot be blamed on the piece unless it is criticised for being so good that the Eastern cities held it in their midst for over two seasons to the exclusion of all other sections of this country. America was compelled to wait two years before "The Girl and the Taxi" was presented, owing to its phenomenal success in Paris and Berlin, in which two cities it scored immensely and broke all records for attendance and box-office receipts.

Interpolated possibly as a means of relief to the audience, who while following the numerous complications and uproarously funny situations which are maintained at a rapid-fire pace, are almost breathless soon after the rise of the first curtain, is to be found some clever musical specialties. This is the first instance of a farce with musical trimmings and the innovation has resulted in one of the biggest hits recorded in modern theatricals.

SEEK BEAUTY AS A HOME WRECKER

Miss Maybelle Ewing Charged With Breaking Family Ties.

SAN FRANCISCO, Feb. 8.—Attorneys today began a hunt for beautiful Miss Maybelle Ewing, 24 years old, who recently worked in a photographic studio in this city and who formerly lived at 816 Fell street, in the family of a woman who has sued her husband for divorce in Los Angeles, offering as evidence a confession which the alleged erring man is supposed to have made in which he named Miss Ewing as his "soulmate."

The alluring girl photographer is said to be in ignorance of the confession which involved her name and if the attorneys find her she is due for a severe shock.

Mrs. Dell Norton, who says that her husband is engaged in business in San Francisco, appeared before Judge Conrey in Los Angeles yesterday and asked for a divorce from her husband, stating that she had wrung from him a confession that he centered all of his love on the pretty girl who lived for some time as a boarder in the Norton family.

When the court learned that Miss Maybelle Norton, who was featured in the suit as a home wrecker, was unaware of the charge made by the plaintiff in the divorce action, the court denied the petition for divorce on the ground that the co-respondent should have been informed of the action and be able to defend herself.

Court Calendar Changed Daily and Other Important Matters.

The legal practitioners of Oakland and vicinity readily recognize the importance of ready reference for all matters pertaining to the courts of Alameda county.

Another source of information that appeals not only to lawyers, but to contractors, builders, architects and money lenders, as well as the individual citizen that is anxious to secure information concerning the transfer of properties in the county, is the Record of Transcripts.

Notwithstanding the great amount of news of a legal nature, and the happenings each day of the courts of Alameda county, THE TRIBUNE will each day print the Court Calendar, and henceforth every day attorneys and private citizens will find this valuable information

Stomach Trouble

Mrs. E. W. Foster found great relief by taking Duffy's Pure Malt Whiskey for an aggravating stomach trouble.
Now she recommends it to her neighbors, and is making many new friends for this wonderful tonic-stimulant.

Eastondale, Mass.

"I started using Duffy's Pure Malt Whiskey four years ago for stomach trouble (the gastric nerve of the stomach), and I have been very much benefited by its use. Ever since I have taken it as a general tonic, although my stomach is very, very much better, thanks to Duffy's Pure Malt Whiskey. I have recommended it to a great many of my friends. One of them, Mrs. Stillmand Lincoln, of Easton, an elderly lady, found great help by its use."

Yours sincerely,
MRS. EDWIN W. FOSTER.

For more than half a century Duffy's Pure Malt Whiskey has been before the public, and today it is better known and more widely used than ever before. This is due to its great curative qualities and to the friends it is continually making of those who after years of suffering and misery have been made strong and vigorous and who tell their friends and neighbors of their good fortune. Professional men, business men and men and women everywhere use and endorse it because it has given them health, strength and vigor when they were sick or run down. We have thousands of letters like the above which are but the outpouring of grateful souls who have been relieved of suffering and who openly acknowledge the great medicinal value of Duffy's Pure Malt Whiskey.

Few diseases inflict upon their victims greater suffering than do dyspepsia, indigestion and stomach troubles. If you have dyspepsia or indigestion in any form do not ruin your stomach with drugs, but use

Duffy's Pure Malt Whiskey

is a medicine for all mankind. When taken at mealtime it stimulates the mucous surfaces and little glands of the stomach to a healthy action, thereby improving the digestion and assimilation of the food and giving to the system its full proportion of nourishment. This action upon the digestive process is of great importance, as it brings to all the tissues and organs of the body the nutriment necessary to their sustenance and indirectly to the whole system, strength and vigor. It makes the old feel young and keeps the young strong and vigorous.

ABSOLUTELY PURE & UNADULTERATED
TRADE MARK

CAUTION—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey be sure you get the genuine. It is an absolutely pure medicinal malt whiskey and is sold IN SEALED BOTTLES ONLY—never in bulk. Look for the trade-mark the "Old Chemist," on the label and make sure the seal over the cork is unbroken. Price $1.00 a large bottle. Write Medical Department, The Duffy Malt Whiskey Co., Rochester, N. Y., for doctor's advice and an illustrated medical booklet, containing testimonials and rules for health, both sent free.

$750,000 FIRE SWEEPS RICHMOND OIL PLANT

RICHMOND, Feb. 8.—The entire Richmond works of the Standard Oil Company, valued at many millions of dollars, were threatened with destruction last evening by a fire which followed an explosion at 6 o'clock in the old acid plant, part of the refineries, and which spread over fifteen acres of the ground occupied by the works. A loss of $750,000 is estimated. This damage was in the three buildings known as the old acid refineries and the two comprising the new acid plant, all situated in the very center of the works. Sparks started the blaze.

The three buildings of the old acid plant, where the fire began and the explosion occurred, were burned to the ground. From there the flames reached the new structures and hung for an hour over the adjoining furnace building, which later took fire. The men employed at the works were organized into fire brigades, and, led by their superintendents and foremen, probably saved the works from total destruction. In fighting the fire several were injured. They were:

CARL McPHERSON, 459 Standard avenue, face and hands burned by sulphuric acid; taken to Abbott's hospital.

PETER ROKE, burned by blazing oil; not serious.

ANTONE E. BANCE, burned by blazing oil, injuries not serious.

ELBERT STEWART, 18 years old, fell twenty-five feet from building, badly bruised and shaken.

BURNING OIL SPATTERS MEN.

The men of the brigades worked heroically in face of death. Burning oil was spattered upon them from the time the explosion occurred. Sulphuric acid, contained in tanks in the refining buildings, ran in streams down the hillsides, setting fire to everything inflammable.

The old acid works were situated on a hill. At the north are tanks containing 500,000 gallons of oil, other tanks being at greater distances from the refineries. Over the old acid works towered the smokestacks of the furnace building. From these stacks came the sparks which dropped upon the roof of a building of the old acid works, burned through and sent embers into a tank of sulphuric acid in the building. The acid burst into flames and caused an explosion of the gases from the oil tanks in the building.

EXPLOSION SHAKES CITY.

The detonation shook the city. From the force of the explosion the roof of the building was blown away, and burning oil was scattered over the works. This set fire to the four other buildings of the acid works, ignited the tanks of oil in the structures and exploded the vats containing the sulphuric acid. The flying oil was thrown over a radius of 100 feet, followed by a constant rain of blistering drops. From the summit of the hill on which were the old acid buildings ran streams of the sulphuric acid, and, jumping and running to avoid this searing liquid, the men of the plant worked to save the property.

It was several minutes before an adequate fire fighting force could be organized. Many of the men had left the works. An alarm brought them back. The forces were divided. E. B. Fredenberg, superintendent of the acid works, took charge in the absence of L. D. Dinin, general superintendent, who arrived while the fire was in progress.

MERCHANTS' EXCHANGE IS AGAINST CONSOLIDATION

In Strong Resolution Body Calls on Alameda Delegation to Kill the Wolfe Bill

There is unanimity between the local commercial bodies of this city and the adjacent towns against the proposition on the part of some of the residents of San Francisco to have the cities and towns on this side of the bay annexed to San Francisco.

The Chamber of Commerce of this city has already expressed itself as being unalterably opposed to the project and the Merchants' Exchange also, at the first moment possible after the purpose of San Francisco was announced, has placed itself on record as against the move, and will join heartily with the other commercial organizations to make a determined fight against what is considered an outrageous proposition.

STRONG RESOLUTIONS.

The resolutions of the Merchants' Exchange, which were adopted at the meeting of the directors of that body last night, are as follows:

"Whereas, There is now under consideration in the California legislature a constitutional amendment which will permit the dismemberment of Alameda county and the annexation to another city and county of some of the richest portions of our county; and, whereas, such legislation would inflict an irreparable injury on our county and would defeat the efforts now being made to increase the commercial facilities of the eastern side of the bay of San Francisco; therefore be it

"Resolved, By the Merchants' Exchange of Oakland, that we are decidedly opposed to said constitutional amendment or any legislation of a similar character.

"Resolved, That we call on the Alameda county legislative delegation to use their utmost efforts to prevent the passage of the constitutional amendment, introduced by Senator Wolfe, as being against the interests of Alameda county and of the state of California."

DON'T WANT CONSOLIDATION.

The sentiment of the Merchants' Exchange and the Chamber of Commerce is the sentiment of the people of this city, who have no desire to be connected in a political alliance with the city on the other side of the bay. The members of those bodies say that they have not asked for an alliance with San Francisco and yet, at the same time, they are and have been willing to aid the metropolis in any enterprise which will inure to its advantage. Proof of this sentiment is to be found in the openhearted manner in which this city cared for, housed and fed the refugees from San Francisco after the great disaster there nearly five years ago, to say nothing of the assistance which this city afforded in the move of San Francisco to secure the Panama-Pacific Exposition.

JURY WILL SOON GET HALSEY CASE

Andy Wilson Cross Examined Today; Defense Will Offer No Evidence.

SAN FRANCISCO, Feb. 8. — The second trial of Theodore V. Halsey, outside man for the Pacific Telephone Company, accused of paying a bribe to Ferdinand P. Nicholas, a member of the boodle board of supervisors, came to a close before Judge Emmett Seawell this morning, and some time tomorrow his fate will be in the hands of the jury. Looking extremely ill, and profuse with apologies to the court, ex-Supervisor Andy M. Wilson appeared this morning to be cross-examined by Attorney Bert Schlesinger.

WILSON LOOKED ILL.

Wilson declared that he had been too sick to be on hand yesterday and his appearance bore out his statement. He answered all the queries put to him and when his testimony had been concluded the prosecution rested their case.

The defense announced that they would put in no evidence, asserting that they believed that no testimony had been offered tending to connect their client with the crime of which he is accused. A continuance was then had until 2 o'clock this afternoon when the arguments were begun. Assistant District Attorney McNutt made the opening address for the people, rehearsing the evidence in the case and maintaining that the guilt of the accused was clear.

BURGLARS RAID DENISON HOME

Third Time in Four Years the Family Has Suffered Loss.

For the third time in the past four months the residence of Secretary Adna A. Denison of the Chamber of Commerce was entered by burglars and ransacked. The house, which stands among trees at 328 Twenty-first street, is in a position giving an opportunity to thieves, and Secretary Denison appeared before the Board of Public Works this morning to ask that a light be put on this street. A resolution was passed ordering a light on Twenty-first street, between Webster street and Harrison boulevard as several other burglaries have been committed in the same block.

A skeleton key was used to enter the home by the rear door. Every bureau, chiffonier and desk was smashed open, a child's bank was broken and the bedrooms on the second story ransacked. Jewelry belonging to Mrs. Denison and the children, opera glasses and several trinkets, heirlooms in the family, were taken, the total loss amounting to about $50.

The residence of Warren Lee of 533 Washington street was broken into last night and clothes valued at $25 taken from the place.

Report was made to the police this morning by the Motor Parcel Delivery Company of 610 Fifteenth street that a cash drawer had been robbed of two coin sacks containing $25 in change. The place was entered at night.

STUDENTS TO COMPETE FOR BENNET PRIZE

UNIVERSITY OF CALIFORNIA, Feb. 8.—The Bennett prize, established by William Jennings Bryan as trustee for the late Philo Sherman Bennett for the best essay discussing the principle of free government, will be awarded for the year 1910-1911 to the writer of the best discussion of the subject: "The Place of the Initiative and Referendum in Our System of Representative Government."

The competition is open to all students of the University. Manuscripts must be typewritten and handed to the recorder of the faculties on or before April 1, 1911. The money value of the prize is about $25.

YOUNG VIOLINIST RETURNS HOME

BERKELEY, Feb. 8. — After six months study in New York city Miss Estelle Franklin Gray, a talented violinist, well known in musical circles about the bay, has just returned to her home in Berkeley. She will soon give a recital in this city, preparatory to starting on an extensive tour of the western states.

Miss Gray is a former pupil of Minetti, who was soloist at one of the Orpheus concerts last spring. Her first trip to New York was made several years ago, when she received instruction from prominent masters of the violin.

SORROW DRIVES WASHINGTON GIRL FROM SOCIAL CIRCLE

MISS JULIA MEYER, who has withdrawn from society because of deep sorrow.

WASHINGTON, Feb. 8.—Because of a great personal sorrow, Miss Julie Appleton Meyer, eldest daughter of the Secretary of the Navy and a leader in the administration social circle, has retired from society.

Her retirement, it develops, is due to the ending of a romance started in Italy years ago. Miss Meyer and a young nobleman became desperately in love when the present cabinet officer was ambassador to Rome. Owing to their extreme youth, no formal betrothal was considered by parents of either but the young pair were happy in their hope.

Just at the time marriage might have been possible the young Italian developed tuberculosis. The disease made such rapid progress that a year ago every one but the two most concerned knew a fatal termination was beyond question. During the last summer Mrs. Meyer took her daughter abroad for what proved to be a farewell visit to her suitor. They returned to Washington just in time for the opening of the social season in December, when Miss Meyer took her place as usual in the round of gayety, only to hear in less than a month of the death of her betrothed.

She has not put on black, as, according to foreign standards, there was no engagement, but in every other way is observing a period of mourning, not even appearing at dinner parties in her parents' home.

The younger Miss Meyer is, on the contrary, taking all the honors of belleship. She has changed the spelling of her name which heretofore was Alice, to Alys not only in her personal correspondence, but by formal request through the family secretary to the members of the press.

This tired feeling you can easily overcome by using GIERSBERGER TONIC PORT

MERCHANTS SURE OF NEW BUILDING

Chamber of Commerce Structure Plan Taking Form, Says Chairman.

As a result of the meeting of the building committee of the Chamber of Commerce, held yesterday afternoon, it is now certain that it will be but a short time before Oakland will have a Chamber of Commerce building, which will include a merchants' club. Such was the statement made by Julius Abrahamson, chairman of the committee.

"There are enough public spirited men in Oakland," said Abrahamson, "who realize the necessity of such an undertaking and the great benefit that the city will derive thereby commercially and in other ways. It will make it possible for business men from other cities to come into touch with our representative men. There is no doubt that the building will be erected."

The building is to cost in the neighborhood of $200,000, apart from the cost of the site. The ground floor will be used for an exhibition hall such as is maintained at the present chamber. The second floor will contain committee rooms, an assembly room and offices, the third floor being devoted to the Merchants club, which will be designed along the lines of the best establishments of this kind in the country. Definite plans will be given out on the return of Chairman Abrahamson from his trip to the East.

In the exhibit which it is planned to maintain specimens representing the resources of every part of the State will be exhibited. The members of the building committee are besides the chairman: C. F. Gorman, T. Y. Eccleston, Frank J. Woodward and George E. Randolph.

BETA THETA PI ALUMNI HELD INFORMAL DINNER

SAN FRANCISCO, Feb. 8. — Members of the Beta Theta Pi alumni residing about the bay met last night for an informal dinner in order to discuss the holding of their general convention in this city in 1915. Nearly 75 were present. Plans were discussed for entertaining Francis W. Shepardson, professor of American History at the University of Chicago, who will visit here in March, to make a tour of inspection of the local chapters of the fraternity.

MILLS COLLEGE SENIORS TO BE GUESTS OF HONOR

At a reception next Saturday afternoon at 3 o'clock the College Women's Club of the Young Women's Christian Association of this city will entertain the seniors of Mills College. The guests will be welcomed by Miss Grace Fisher, president of the local association.

Mrs. Warren Olney Jr. of Oakland will preside and will deliver an address on the various phases of the work of the organization. Miss Myrtle Mills, the new executive secretary, will deliver a brief address.

MINER'S FOLLY NEARLY FATAL

Blew Out the Gas in Lodging House With Disastrous Results.

SAN FRANCISCO, Feb. 8.—Two lives were almost snuffed out in a lodging house at 239 Third street, when a man unfamiliar with the illuminating system in any place other than a mining camp, blew out the gas, allowing the poisonous fluid to render himself and his companion unconscious.

At 4 o'clock this morning a lodger returning late to his room detected the odor of the gas and when the door was forced S. Topeka and J. E. Rust, who arrived in town only yesterday, were found in a dazed condition. Both were taken to the Harbor hospital and under the treatment of Dr. Jacobs they recovered sufficiently to be discharged at noon.

One of them admitted to having blown out the gas which flowed freely and which would undoubtedly have caused the death of both had not a window in the room been left open.

COTTON MILL EMPLOYES PROTEST SHORTER DAY

A meeting of the employes of the California Cotton Mills was held at 5 o'clock yesterday afternoon at the works to protest against the enactment of the proposed law limiting the hours of labor of women to 8 hours a day or 48 hours a week.

James Rattray was chairman of the meeting. He stated there are in Alabama 44 mills, Georgia 68 mills, Indiana 4 mills, Kentucky 3 mills, Mississippi 7 mills, Missouri 2 mills, North Carolina 244 mills, South Carolina 156 mills, Tennessee 15, Virginia 18 mills, Louisiana, Texas and other states about 200 mills. All of these plants are working 10 to 12 hours a day, while the local mills are the only cotton mills in the United States working 9 hours a day, and have been doing so for the past ten years.

P. M. Davidson called attention to the fact that the management of the California Cotton Mills had voluntarily reduced the hours of labor from 10 to 9 hours a day without any reduction in wages. There has never been a strike or any labor trouble in the California Cotton Mills, as the management had always been willing to meet the employes half way and talk over any difficulties in a spirit of reason and co-operation.

The following committee was appointed to present a protest against the proposed law to the Legislature: James Moir, John Orchison and James Rattray.

FALL PROVED FATAL.

NEW CONSTITUTION GOES TO PEOPLE

Ratification of Arizona's Code of Government Believed to Be Assured.

PHOENIX, Ariz., Feb. 8.—Today closes the campaign for and against the ratification of Arizona's new constitution. The election will occur tomorrow, and it is generally believed the constitution as formulated by the delegates to the Phoenix convention, will be ratified. Even the strongest opponents of the constitution are sanguine only of being able to hold down the affirmative vote to approximately 65 per cent of the total.

The opposition to the ratification of the constitution which has been extensively forwarded by Republican newspapers, is based upon the clauses embodying the initiative, referendum and recall. The provision for the recall of judicial officers has been vigorously attacked. If the constitution is ratified by the vote of the people the constitution goes to President Taft and Congress for approval or disapproval.

SEEKS PART OF EDDY ESTATE

George W. Baker of Concord Declares He Has Right to Share in Millions

CONCORD, N. H., Feb. 8.—Another application in the contest over the disposal of the $2,000,000 residue of the estate of Mrs. Mary Baker Glover Eddy, founder of the Christian Science denomination, is threatened.

George W. Baker of this city, son of a deceased brother of Mrs. Eddy, has decided to take steps in the matter.

Bakers' attorneys notified the Merrimac county supreme court that on February 11 they would file a petition asking permission for Baker to intervene in the suit now pending in that court, brought by George W. Glover of Lead, S. D., Mrs. Eddy's son, and Dr. E. J. Foster Eddy of Waterbury, Vt., against Henry M. Baker, executor of the Eddy estate.

DECLARE IT ILLEGAL.

In this suit the claim is set up that the portion of Mrs. Eddy's will leaving the residue of her estate to the First Church of Christ Science of Boston is invalid because of certain New Hampshire and Massachusetts statutes forbidding the bequest of more than a specified amount to any single church.

Baker's petition, the attorneys state, will be based upon the claim that if the court shall declare this bequest invalid, then George W. Baker will inherit the residuary estate as next of kin.

FORFEIT RIGHTS.

Baker will maintain, say his lawyers, that George Glover and Dr. Foster Eddy forfeited their rights of inheritance when they signed a contract by which the "next friends" proceedings of 1907 against Mrs. Eddy were settled. Under this contract they received a financial consideration and agreed not to contest Mrs. Eddy's will.

TREBLE CLEF PLAN BIG APRIL CONCERT

The Treble Clef of the women of the university are planning to give a public concert in Harmon Gymnasium on April 17. The program will contain selections from operas, by duos, trios and solos.

Paul Steindorff will direct the affair and has been in charge of the organization for several years. Among those who will take part are: Mildred Ahlf, Fern Andrus, Doris Clark, Edna Harrison, Irene Flanagan, Alice McComb, Mabel Woodman, Ann Gunn, Margaret Witter, Elizabeth Davis, Florence Doyle, May Lindsay, Alice Hicks, Cheryl Merrill, Louise Howard, Amanda Jacobson.

Among those who will sing are several who have lately been admitted to the club. They are: Mabel Clinch, Margaret Hodgen, Alma Ames, Harriet Fasmore and Elizabeth Ross.

SUFFRAGETTES TO MEET AT Y. W. C. A.

The regular meeting of the Oakland Suffrage Amendment League will be held Friday afternoon in the Young Women's Christian Association building, Fourteenth and Castro streets, where Mrs. J. H. Rhodes will give an address on "Francis Willard as a Suffragist."

Preparations are being made for the Susan B. Anthony Jubilee luncheon, which will be held February 15 at 12:30 in the St. Mark Hotel. Mrs. Agnes Ray, president of the club, will preside. Toasts will be responded to by Mrs. Arthur Cornwall, who will speak upon "The Greatest Work of Today"; Mrs. J. B. Hume, "What the State Owes to Women's Clubs"; Mrs. Lillian Coffin, "The Legislature of 1911"; Mrs. Charles Woodbury, president of Ebell Club, "Women's Debt to Susan B. Anthony," and Miss Annie Brown, "Women and the Schools."

PETALUMA TO HAVE NEW ELECTRIC ROAD

PETALUMA, Feb. 8.—The city council has granted to the Petaluma and Santa Rosa Electric Railway Company a franchise to operate a line through the city. The company agreed in its franchise that if the road was not completed to Point Pedro within four years from the date of the granting, with ferries running to San Francisco, the franchise will lapse. The object of the railroad company is to build to Point Pedro and connect with San Francisco by fast ferries.

The line will be operated on Water street, skirting on the river banks, which the company will improve and save the city of Petaluma over $10,000. The meeting was in the nature of a mass meeting of the citizens, the council chambers being crowded.

RICHMOND PARLOR PLANS CELEBRATION

RICHMOND, Feb. 8.—The night of February 15th will be a big one for Richmond parlor No. 147, Native Daughters. The parlor will give its sixth annual ball on that night at Maple hall, Sixth and Ohio streets. It will be in the nature of a benefit this year for the orphans' home of the Native Sons and Daughters in San Francisco and for that reason unusual efforts are being made to have a large attendance.

Mrs. J. F. Eaton is chairman of the committee on arrangements and with her are Miss R. Maynard, Mrs. R. H. Spiersch and Miss Margaret Dwyer.

WILL ERECT HOTEL.

Ferdinand Koenig, a capitalist, 676 Thirteenth street, has taken preliminary steps for the preparation of plans for a two-story brick and re-enforced concrete hotel, to be erected on his property at Sixteenth and Wood streets. The cost of the proposed structure will be $100,000.

DROPS DEAD IN BATH.

SAN FRANCISCO, Feb. 8.—Mrs. R. S. Lillie, 60 years old, residing at 818 Fillmore street, dropped dead while taking a bath shortly before noon. She had been a sufferer from heart trouble.

PETERSEN ON STAND DISCLAIMS RESPONSIBILITY

Captain of Detectives Declares He Has No Connection With the Handling of Prisoners

Placed on the stand to defend his alleged use of the "small book" or detinue system in handling prisoners against whom no charge has been placed, Captain of Detectives Walter J. Petersen this morning disclaimed any connection with the holding of prisoners. His testimony came as a surprise to the defense in the H. C. Tuck trial, as it was against the alleged holding of prisoners without due process of law that the articles in the Socialist paper alleged to be libelous were directed.

Tuck, as editor of a local paper, criticized Captain Petersen by caricature of being indirectly responsible for the death of Miss Lizzie Wolgethan last October. Petersen charged the blind editor with criminal libel.

DISCLAIMS RESPONSIBILITY.

When Captain Petersen was placed on the witness stand this morning he disclaimed a responsibility for keeping Miss Wolgethan in the city prison, stating that Captain Thorwald Brown of the Melrose police station was responsible for her incarceration. He denied keeping a "small book," and by his denial of responsibility placed a spoke in the wheel of the Tuck defense.

Witnesses placed on the stand by Attorney Lewis for Tuck declared that when seen in the city prison the day before her death, Miss Wolgethan was in good health.

SISTER FAINTS IN COURT.

During the narration of the events leading up to the death of Miss Wolgethan, her sister, Miss Martha Wolgethan fainted in the court room and had to be removed to the office of Clerk of the Court Fred Donohue. She was revived and there remained weeping for some time, and the trial was resumed.

Testimony showed Miss Lizzie Wolgethan had been arrested and held in jail at the time of the arrest of Mrs. Emmeline Sweetzer on suspicion of having set fire to the Sweetzer residence in East Oakland. According to the defense, Miss Wolgethan died while in prison, but according to Captain Petersen she died after he had signed her release, and after she had [illegible] removed from the city prison to the [illegible]ing Hospital.

TUCK ON STAND.

Tuck, the blind editor, was placed on the witness stand and explained that Captain Petersen had refused him permission to see a prisoner held in prison and not charged with crime, and that he had concluded that Captain Petersen had control of prisoners held and not booked. This was ruled out as being a conclusion of the witness.

G. Finkeldey, who, with his wife and Mrs. Sweetzer and Miss Lizzie Wolgethan, was incarcerated after the burning of the Sweetzer residence, was also a witness in the case. Detective W. J. Emigh and W. N. Younglove, a cartoonist, were witnesses for the defense. The trial was continued until this afternoon. The lobby of Judge Mortimer Smith's court has been crowded during the hearing.

The prosecution is being handled for Captain Petersen by Prosecuting Attorney Ezra Decoto.

CLUB HEARS TALK ON CHILD CULTURE

Mrs. E. L. Baldwin Addresses Oaklanders; Scottish Program Carried Out.

Mrs. E. L. Baldwin of San Francisco was the guest of honor this afternoon at the Oakland Club, and addressed the members and their guests on industrial and social conditions as they affect the child.

Mrs. Baldwin was formerly president of the California Club and has been engaged in civic and social work in behalf of women and children for a number of years.

A Scottish program supplied entertainment for the afternoon. A Highland fling was danced by Miss Gladys Gerrish and Miss Rhoda Mitchell gave a group of Scottish readings. Miss Lucy Van de Mark, contralto, assisted by Miss S. A. Sutherland at the piano, gave several solos. Mrs. Sturtevant Peet and Mrs. John Ronald were hostesses for the day, assisted by Mrs. Leon Hall, Mrs. Fred Dorsaz, Mrs. P. C. Stoddart, Mrs. J. Kazensperger, Mrs. J. P. Potter, Mrs. L. J. Crane, Mrs. Fred Greene, Mrs. L. B. Haskett, Mrs. E. Y. Schmidt, Mrs. C. J. Bruguiero, Mrs. W. A. Schrock, Mrs. E. I. Favor, Mrs. F. J. White, Mrs. W. D. Smith, Mrs. Frank Merguire, Mrs. John Mole, Mrs. C. S. Booth, Miss Theresa Russau, Mrs. G. W. Harrison, Miss Bessie Wood, Mrs. J. A. Thomson, Mrs. Harry East, Mrs. F. R. Chadwick, Mrs. Fred Hamilton, Mrs. A. L. Frick, Mrs. Charles Taber, Mrs. Nellie Nelson.

M'DONALD MOVED FOR A NON-SUIT

Van Nostrand-Loftus Case Takes on New Feature in Judge Ogden's Court.

When Judge Frank B. Ogden opened his department of the Superior Court this forenoon, Attorney J. J. McDonald, representing the defendant, moved for a non-suit in the case brought by Mrs. Madeline Van Nostrand, wife of Superior Judge Van Norstrand of San Francisco, and former Public Administrator George Gray, to recover from E. C. Loftus, an Oakland merchant, property valued at about $14,000, that was deeded to him by Julia Leeper-Kehoe, an aged second cousin of Mrs. Van Ostrand, shortly before her death, and $700 in cash. Two of the allegations upon which the action was based are that Loftus secured the property through undue influence and fraud and it was also charged that at the time Mrs. Leeper-Kehoe disposed of her property she was of unsound mind.

After hearing arguments on the motion for a non-suit, Judge Ogden intimated that unless authorities could be produced by counsel for the plaintiffs to change his mind, he would grant the non-suit as to the allegations of undue influence and fraud. He said that no testimony had been introduced that Loftus had been guilty of either of these charges, although statements had been made from the witness chair during the trial to the effect that decedent had said that Loftus had promised to marry her. Such testimony however, in the opinion of the court, was not sufficient to constitute undue influence and fraud on the part of Loftus.

A third ground upon which the suit is based is that Mrs. Leeper-Kehoe was of unsound mind at the time she disposed of her property. Judge Ogden overruled the motion to non suit as to that allegation and ordered the introduction of evidence bearing on that point, reserving his decision in the matter of undue influence and fraud until after counsel for Mrs. Van Nostrand produced the authorities covering the issues involved.

Attorney Clarence M. Reed appears for Mrs. Van Nostrand, who contends that Mrs. Leeper-Kehoe transferred her property to Loftus after she had known him only a month.

CROWDS SEE PANTALOON SUIT AT COSGRAVE'S

The hit of the year has been made—and made in Oakland. Cosgrave's Oakland store has been the mecca for everybody, men and women, for the past few days to view the new Pantaloon Suit—the latest mode for women's wear.

Mr. Ferguson the manager, is exhibiting the garment on a live model and it has made a favorable impression. Nearly everyone agrees it's the most sensible garment in all the bewildering array of lady's wardrobe that has yet been produced. If you haven't seen it yet—do so to-morrow at Cosgrave's, Twelfth and Franklin streets.

S. P. ADVERTISING TO COST MILLION

Harriman System Will Devote Big Sum to Publicity Campaign.

CHICAGO, Feb. 8.—An advertising appropriation of $1,250,000 is to be spent by the Harriman railroads in 1911. The budget, said to be the largest ever authorized by any railroad system, was completed at a meeting of the passenger representatives of the Union and Southern Pacific systems held in Chicago yesterday.

Newspaper and magazine advertising is the central feature of the plan, but illustrated pamphlets and lectures are to be financed from the budget and advertising is to be placed in publications in foreign countries.

Gerrit Fort, passenger traffic manager of the Union Pacific and Oregon Short Line railroads, will direct the expenditure of the money.

President Lovett of the Union Pacific and Southern Pacific systems is planning to make an inspection tour over the lines in the near future. The exact date of his departure has not yet been fixed, but he will start as soon as business affairs will permit him to do so. During his absence it is understood that Judge Lovett will take up with various Western operating officials road improvement plans in contemplation.

OPIUM FOUND ON SALOON WATCHMAN

Customs House Official Capture Man They Accuse of Smugglnig.

SAN FRANCISCO, Feb. 8.—The officials of the local customs house made another important capture this morning when they arrested C. W. Steffkin, saloon watchman on the steamer Siberia.

The apprehension of Steffkin is considered of vast importance as it is believed may now be unearthed which will lead to persons higher up and get at the root of the wholesale traffic in drugs which has yearly sent a deluge of opium into Chinatown.

Steffkin was taken into custody this morning as he was leaving the vessel. He was observed by Inspector Boulbard, and when searched six tins of opium were found on his person. As soon as he was hustled away from the dock a careful examination of the steamer was made by a number of inspectors. The Siberia arrived here on February 3, and has been lying at her dock ever since.

SEVENTH STREET CLUB TO DISCUSS FRANCHISE

A meeting of the Seventh Street Improvement club will be held at its hall, 616 Seventh street, tomorrow at 8 p. m.

The matter of the Seventh street Southern Pacific franchise will be discussed at length and important resolutions relating to it will be adopted. Other business of importance to the property owners and residents of the section will come up for hearing. George L. Yager, 1006 Seventh street, is president of the organization.

INSURE CITY ELEVATOR AGAINST ACCIDENTS

To protect this city against loss through a damage suit, the Board of Public Works decided to insure the elevator in the City Hall annex at 1358 Broadway. A recommendation that an insurance amounting to $5000 be placed to cover accidents from use of the elevator was made by the Board to the City Council.

MARKHAM TO HEAD OCEAN STEAMSHIP

SAVANNAH, Ga., Feb. 8.—C. H. Markham of Chicago was elected today president of the Ocean Steamship Company and the Central of Georgia Railway. Markham is president of the Illinois Central Railroad.

SAN FRANCISCO WINS FAIR VICTORY

Senate Committee Unanimous for the City by the Golden Gate.

(Continued From Page 1.)

adopt the report of the committee, and the long fight at Washington is at an end and the actual work of the fair builders will commence with the assurance of federal recognition and the vast prestige with the nations of the world which that will give.

Senators Flint and Perkins of California will make strenuous endeavors to have the Senate take the committee report up immediately, urging upon the Senate the necessity for San Francisco having all the time that can be secured for preparations. It is not believed that any objections will be raised in the Senate to immediate consideration of the bill.

Many senators, in fact, have voiced their convictions that San Francisco's way should be made smooth. They have accepted the vote in the House of Representatives as expressive of the will of the people and will not sanction further hindrance.

The resolution declaring for San Francisco was ordered reported in the form in which it passed the House. By a vote of 8 to 5 the committee rejected an amendment offered by Senator Swanson providing for the rendezvous at Hampton Roads of the fleets of the world and a reception of foreign representatives in Washington. Senator Swanson announced that he would renew the amendment when the bill was taken up in the Senate.

Immediately upon the adoption of the Kahn bill, it will be carried to President Taft for his signature. Then the President will issue the invitations to the nations of the world to participate in San Francisco's exposition.

There is a possibility that the Senate may be brought to act upon the committee report during the present week.

SACRAMENTO, Feb. 8.—That $5,000,000 of the State's money, voted for the exposition at the last general election, is now available, was the gist of a telegram sent by order of the Governor last night to R. B. Hale, at the New Willard Hotel, Washington, D. C., in order that this tangible evidence of California's preparedness to hold the big fair in 1915 might be placed before the United States Senate committee when it gave its final vote today in favor of San Francisco.

$5,000,000 AVAILABLE.

The telegram read as follows:

R. B. Hale, New Willard Hotel, Washington, D. C.

Have had satisfactory conference with Governor tonight. It was explained to us by Governor and Attorney-General that the people having voted the five millions by constitutional amendment, and provided for tax levy, the five millions state fund is now available. Acts prescribing powers and duties of state commission will be introduced in Legislature to-morrow. Governor will send any assurance desired. JAMES ROLPH, Jr.

CONFERENCE WITH GOVERNOR.

At the long conference held last night in the Governor's chambers, when the telegram was drafted, there were present Governor Hiram W. Johnson, Assistant Attorney General Ray Benjamin, Assemblyman Milton Schmitt and James L. Brown, C. C. Moore and James Rolph, Jr., representing the exposition committee.

The meeting was held for the purpose of determining just what action should be taken by the Legislature to put in action the machinery outlined in the constitutional amendment voting the millions of State funds for the fair.

WILL DRAFT BILL.

At the close of the meeting Assistant Attorney General Benjamin met with Attorney General Webb for the purpose of drafting a bill following in a general way the provisions of the constitutional amendment. The members of the committee were highly pleased with the interview with the Governor. James Rolph Jr. at once sent a wire to R. B. Hale in Washington advising him of the nature of the conference, so that the showing could be made before the Senate committee tomorrow that the State's money was ready for the exposition.

The bill being drafted tonight will be introduced in the Assembly by Milton Schmitt and in the Senate probably by E. I. Wolfe.

SITES SUGGESTED.

SAN FRANCISCO, Feb. 8.—Of the various sites suggested for the Panama-Pacific Exposition in 1915, Golden Gate Park appears to be the favorite, although the San Francisco waterfront is being recommended by a large number of supporters, who state that the exposition should be located so that it may overlook the bay. Then, too, one of the waterfront supporters declares that "The fair, located on the waterfront, would be one of the most imposing and impressive sights, coming toward San Francisco from Oakland or the Pacific."

Harbor View, another bay site, has been recommended, as well as the sloping acres of Lake Merced. Tanforan, Visitacion Valley and the Oakland waterfront have also a large number of supporters. Goat Island does not appear to be as popular for a fair site, although it has a few staunch supporters.

SECURING A JURY TO TRY C. E. KINARD

Superior Judge John Ellsworth this forenoon began the trial of C. E. Kinard for the alleged embezzlement of $315 from Mrs. Louisa Lamprill, while he was acting as her business agent in 1906 and held her general power of attorney. Almost the entire day was consumed in securing a jury to sit in the case. Assistant District Attorney William H. L. Hynes and Deputy District Attorney W. L. Burpee are prosecuting the case, while Kinard appears as his own counsel.

BLAMES WIFE'S TEMPER FOR HIS UNHAPPINESS

Alva and Reta E. McBroom were married in Chico, in January, 1910, and acording to teh husband's complaint for divorce on the ground of extreme cruelty, filed this forenoon in the Superior Court, immediately after the novelty of married life wore off, his wife developed an outrageous temper and that hardly a day passed thenceforth that she did not start to abuse him the moment he entered home from his work.

'Queen of Little Hungary' Is Shot Down in Illinois

AURORA, Ills., Feb. 8. — Florence Salvolm, 16 years old, styled "The Queen of Little Hungary," was found unconscious in the Northwestern Railroad tracks here today. She had been shot four times and cannot live. There is four times and cannot live.

Acting on a statement of a girl to the police, George Kadasee, 27 years of age, was arrested. The police learned that he and the girl planned to elope last night and that she had drawn all of her savings, amounting to several hundred dollars, from the bank. This money was missing when she was found.

Confronted by the police with the statement of the dying girl charging him with the shooting, Kadasee confessed. It was not a premeditated act, he declared. He pointed the revolver at her in fun and, growing excited, pulled the trigger.

Daughter of Princess Wins Heart of Young Jay Gould

SAN FRANCISCO, Feb. 8.—Following closely upon the marriage of his sister to Lord Decies, comes the announcement today that Jay Gould, youngest son of George Gould, is engaged to Miss Anna Douglas Graham, the beautiful daughter of a Hawaiian princess, who is well known in California society. Her mother is Mrs. Hubert Vos, wife of the famous portrait painter.

In this marriage young Gould goes his sister one better by marrying into a royal family instead of a noble family.

Before Mrs. Vos, Miss Graham's mother, was married to Douglas Graham, she was the Princess Kaiulani.

Young Gould and his fiancee first met at the actors' fair, where Lady Decies had charge of a booth and was assisted by Miss Graham.

The grandson of the famous wizard bought anything that Miss Graham offered him for sale and his attentions to her have been particularly marked ever since.

Locomotive Crushes Out Two and Saves Three Lives

WICHITA, Kas., Feb. 8.—A covered wagon carrying twelve school children was hit by a train near this city late yesterday. Harley Harlenbower, 15 years of age, and Grover Harlenbower, 19 years of age, were fatally injured. Three daughters of Mrs. Ellen Allen were caught on the engine pilot and carried half a mile, but were only slightly injured.

Would Have Professors of U. of C. American Citizens

SACRAMENTO, Feb. 8.—Assemblyman Smith presented two bills in the house today, one to require all professors and instructors in the State University to be American citizens, or to declare their intention to become such, and another making it a misdemeanor, punishable by a fine of $100, for a superintendent of schools to allow the use of any textbook not ordered by the state board of education.

GILL IS REMOVED BY WOMEN'S VOTE

Mayor of Seattle Is Recalled From Office and Dilling Takes Place.

SEATTLE, Wash., Feb. 8.—Mayor Hiram C. Gill, who was elected Mayor of Seattle last March by a plurality of 3399 men votes, was recalled yesterday for misconduct by a plurality estimated at 4000, the women of the state of Washington having been enfranchised in the meantime and this being the first time to be able to express themselves in municipal affairs.

George Dilling, who was elected over Mayor Gill, will take office at once and will serve until the finish of Mayor Gill's term.

Mayor Gill's troubles began the moment he announced that he would appoint Charles Wappenstein as chief of police. Wappenstein, who comes of a prominent family, had been dismissed from the office of chief of detectives in Cincinnati under charges and later had been dismissed as chief of detectives of Seattle after investigation of his office. He had also been involved in the scandal that led to the shooting of former Chief of Police Meredith in a street duel in this city.

TRIES TO RESIGN.

The movement to drive Wappenstein from office began before he had taken charge of the police force. Pressure was soon brought to bear upon the Mayor to remove Wappenstein, and Wappenstein himself sought to resign, but was unable to make a graceful exit.

As soon as it was announced last November that the woman suffrage amendment of the constitution had been adopted, the movement to recall Mayor Gill, under a provision of the city charter, took active form, and the women entered vigorously into the campaign. Half of the women entitled to vote registered and a very large proportion of the 22,000 women so registered voted today. To the women is given all the responsibility for the recall. Mayor Gill yesterday undoubtedly received a majority of the male vote. A surprise of the day was the large Socialist vote, which probably will reach 5000. One hundred precincts out of 153 give Dilling 19,074, Gill 17,124.

Great Snowslide Rumored in North

Canadian Pacific Tracks Buried, According to Report That Reaches Calgary.

CALGARY, Alberta, Feb. 8.—There are rumors of one of the worst snowslides in the history of the Canadian Pacific railroad at Glacier, B. C. It is not known whether any transcontinental trains were caught or if any lives were lost.

UNIVERSITY SEISMOGRAPH RECORDS SLIGHT QUAKE

The seismographs at the University of California registered yesterday a very feeble local earthquake, originating some 80 miles distant from Berkeley in a general southerly direction. The first preliminary tremor began at 5 hours, 19 minutes and 10 seconds a. m., followed by the main shock at 5 hours, 19 minutes and 33 seconds a. m., this movement ending about 5 hours, 20 minutes and 3 seconds. The time of duration of perceptible movement did not exceed two minutes. The greatest double amplitude occurred in the E.-W. component at about 5 hours, 19 minutes and 5 seconds a. m. This magnified about 75 times measured 1.5 millimeters. The amplitude in the N.-S. and in the vertical components was similar.

ALLEGES HUSBAND IS HABITUAL DRUNKARD

Branding her husband as an habitual drunkard and a profligate, Annie Speer instituted suit this forenoon in the Superior Court for a divorce from Robert Speer and the permanent custody of their two minor children. The couple were married in San Francisco in 1888 and Mrs. Speer charges that because of his inordinate appetite for liquor her husband has utterly failed to provide for her and the children.

OAKLAND WHALERS SOON TO CRUISE

Coastwise Vessels Arrive in Harbor Freighted With Varied Cargoes.

The steamer Temple E. Door arrived in port yesterday, three days and a half from Gray's Harbor, and docked at Adam's Wharf. She had pine lumber and laths aboard for the Western Lumber Company.

Two more vessels belonging to the Alaska Packers' Association went into drydock at the United Engineering Works yesterday to be painted and overhauled preparatory to going north. They were the Alitak, Captain Rasmussen, and the Jennie, Captain Salvessen.

The whaler Letitia will be placed in drydock very soon to undergo repairs before going south for sperm oil whaling. A number of whalers now lying in Oakland harbor will start south in a short time before going into Alaskan waters for their summer work.

The Star of Finland, which was taken to the yards the latter part of last week, was taken back to her moorings yesterday at the foot of Paree street. She also belongs to the Alaska Packers' Association.

The steamer Topo docked at the Webster street wharf yesterday with a load of gravel for the H. Peterson Company. She came from Napa creek.

The Hunt-Hatch Company received some more shipments from the north yesterday in the shape of two cars of Oregon potatoes and one car of Oregon onions. One car of apples from Sebastopol was also received.

The Walter K. Hackett has been placed on the ways at the Pacific Ways and Shipyards by her captain, E. Fogel. The work on her will take about twelve days, as she is to undergo a thorough overhauling. The vessel will later be employed in towing for the Key Route Company.

The stern-wheeler, Resolute, has also been placed on the ways. The vessel has been lying on the mud flats in Brooklyn basin for some time past, and at every high tide she was partially filled with water. In order to raise her to float her to the ways it was necessary to bore a number of holes in the hull to drain off their water. The Resolute is engaged in river traffic.

CHURCHMEN URGE MISSIONARY MOVEMENT

Pastors to Meet at Banquet to Discuss Ways to Forward Matter.

EVANGELICAL COURSE WILL BE BOOSTED

Rev. Alexander Allen, Rector of St. Paul's, to Act as Toastmaster.

Forty representatives of the churches of this city have been invited to attend a dinner to be given tomorrow evening at the Key Route Inn to discuss ways and means of launching the Laymen's Missionary movement in this city and also to outline plans for the convention, which will be held here March 20 and 21.

The local organization is affiliated with the National association, which has its headquarters in New York. It is the ambition of the committee in charge of the Oakland movement to form committees of 400 or 500 citizens of this city, who will work for the evangelical cause.

Rev. Alexander Allen, rector of St. Paul's Episcopal church, will act as toastmaster at the dinner. He is one of the members of the committee composed of F. L. Starrett and W. N. Jenkins, who were first to conceive the idea of instituting the missionary work in this community.

MANY TO MEET.

The following laymen and clergymen will assemble at the Key Route in behalf of the denominational churches:

Methodist: Dr. J. B. Burns, C. M. Westernberg, Charles M. Vadman, W. F. McClure, R. O. Wilson and Rev. George W. White.

Congregational: Dr. Thomas Addison, Arthur Arlett, W. C. Barnard, E. L. Leiter and Rev. A. W. Palmer.

Baptist—George F. Penfield, Dr. T. B. Holmes, R. W. Neighbor, W. A. Wann, Prof. E. G. Linsley and Rev. L. P. Russell.

Episcopal: K. L. Perry, R. H. Lane, C. H. Kroll, E. W. Garretson, R. H. Kessler and Rev. E. L. Parsons.

Presbyterian: W. A. Horn, W. A. Underhill, A. L. Taylor, B. F. Edwards, H. K. Sanborne and Edw. Kerr.

United Brethren: C. N. Bartlett.

English Lutheran: J. A. Bohn.

Christian Church: Rev. T. A. Boyer, H. C. Ingram, Prof. W. F. Meyer and B. F. Bunk.

Coll, who met here a short time ago after a separation of 35 years, made a unique matrimonial record by being married for the second time yesterday. Coll is 61 and his wife is 55.

Plague in Chee Foo Claims 19 Daily

Two Hundred Already Fall Victims to Deadly Disease and It Is Spreading.

WASHINGTON, Feb. 8.—The plague is causing an average of nineteen deaths a day in Chee Foo, China, according to a cablegram received today by the State Department from American Consul Fowler at that port. There already have been 200 deaths in Chee Foo and the disease is spreading.

TO TAX ANIMALS.

SACRAMENTO, Feb. 8.—Asemblyman Wyllie introduced a bill to levy an annual tax of 25 cents for every horse, mule and ass in the State, to be used for a fund for the prevention of glanders.

ANNOUNCEMENTS. ANNOUNCEMENTS.

NEW CURE FOR INDIGESTION WILL NOT BE SOLD OUTSIDE OF OAKLAND

Osgood Satisfied to Supply Local Demand---Says He Has No Intention of Making it a National Proposition---Physicians Recognize Its Merit.

Osgood, the druggist, is receiving letters from all over the state inquiring about his newly discovered cure for indigestion and dyspepsia. Scores of people have called at his store for the medicine and if local opinion counts for anything Mr. Osgood has a proposition that will make him a fortune.

"Osgood has the greatest remedy for dyspepsia in the world," said a prominent physician yesterday, "and it would be a pity if he did not give the people of the entire country the opportunity to buy it. I know of two cases where the prescription has apparently effected a complete cure and any number of cases where the relief has been really wonderful. Another remarkable feature is the fact that the medicine contains no poisonous mineral and no calomel. I have been practicing for more than twenty years and although I do not generally indorse medicines of this kind I cannot help but recognize the exception in Osgood's prescription. I understand he obtained permission to use the prescription from one of the greatest stomach specialists in the world, who, by the way, originated it. It is undoubtedly most scientifically compounded, for its effect is immediate and yet it is evidently perfectly harmless."

Mr. Fred Osgood seemed to be more anxious to impress the public with the things the medicine would not do than to flaunt its merits.

"Don't tell the people that I have discovered an absolute cure for dyspepsia," said Osgood, "because that fact hasn't been proven—I have plenty of customers who claim I have cured them, but am not at all sure. I have helped them, however, and as I know the medicine is harmless and if taken long enough will build up the weakened tissues I have great confidence that it will be a benefit to the community.

"As far as selling it is concerned, I am not particularly interested, for I have other things of greater importance. In fact, I give away a great many bottles to poor folks who need to be cured, but who cannot afford to buy the dollar bottle. A number of physicians have congratulated me upon the remedy and some of my business associates want me to manufacture it on a big scale, but I'm pretty well satisfied with the retail drug business and guess I'll stay with it, manufacturing only enough of the medicine to supply the local demand and fill such mail orders as may come in."

Mr. Osgood has arranged to have the medicine at both his Seventh and Broadway and his Twelfth and Washington street stores. He says if any one finds it doesn't come up to expectations he can have his dollar back.

That seems fair.

OFFICERS CLEARED OF CHARGES BY COMMISSION

Eight Freed of Accusation That They Were in Employ of Gamblers.

CAPTAIN O'DAY'S RECORD WIPED PERFECTLY CLEAN

Tie Vote Results in Exoneration After Entire Day of Hearing.

SAN FRANCISCO, Feb. 8.—The eight members of the police department who had been charged with neglect of duty and disobedience of orders following the tragic death of Gustave Postler in a gambling den within 100 yards of the central police headquarters, were acquitted by the police commission in a verdict rendered at 11 o'clock last night, following a hearing that had lasted since 2 o'clock in the afternoon.

The men exonerated by the commission are: Captain Henry J. O'Day, Sergeant Philip Fraher, Sergeant Michael J. Griffin and Policemen William D. O'Keeffe, Oliver T. Cox, W. W. Wilson, Thomas J. Curtis and Frank H. McConnell.

The trial of Sergeant James T. Donovan was not held with that of the other eight policemen on account of illness which confined him to his bed.

TWO FOR CONVICTION.

Two members of the police commission, Commissioners Henderson and Spiro, voted for conviction at the hearing yesterday, and Commissioners O'Connell and Sullivan voted for acquittal, the tie amounting to an acquittal.

At the outset of the investigation Attorney Robert Ferral, representing the accused policemen, objected strongly to the admission of testimony which Captain Thomas Duke had prepared, but was promptly overruled by President Henderson, who declared that the widest latitude would be given in order that the commission might have all the facts pertaining to the case before it.

FERRAL OBJECTS.

Ferral also objected to putting any of the defendants on the witness stand in their own behalf and refused to do until warned that the commission would not dismiss the cases unless the testimony against the men was refuted.

The deep interest that has developed as a result of the disclosures following the Postler shooting was evidenced by the presence of half a dozen members of the grand jury in the room throughout the entire afternoon hearing and a visit of practically all the grand jurors to the commission rooms after the adjournment of their own meeting last night. Paul Postler, the young son of Gustav Postler, whose tragic death occurred in the rooms of the Saratoga gambling club, attended the afternoon hearing, but was not present in the evening.

The most sensational features of the hearing turned on the trial of Captain O'Day. Although the testimony against all eight defendants was taken at one time. O'Day's case differed slightly from the others because of the responsibilities and duties devolving upon his rank. O'Day's own testimony was in many respects a flat contradiction of that given by other witnesses and opened wide the question of veracity.

FICKERT DETERMINED.

District Attorney Fickert, when interviewed today at his office in the Grant Building, said:

"I have had a conference with Chief of Police Seymour and I have arranged for him to give me a transcript of the testimony heard before the police commission yesterday. If the evidence shows that a crime was committed by the policemen, and if it can be proven that they accepted bribes from the Saratoga Club, I will prosecute them regardless of high, low or how low in rank they may be after their cases have been investigated by the grand jury."

It is understood, moreover, that Fickert has detailed the police detectives, who are on duty under his direction, to make an investigation on their own account, and entirely independent of any heretofore undertaken.

SEYMOUR INCENSED.

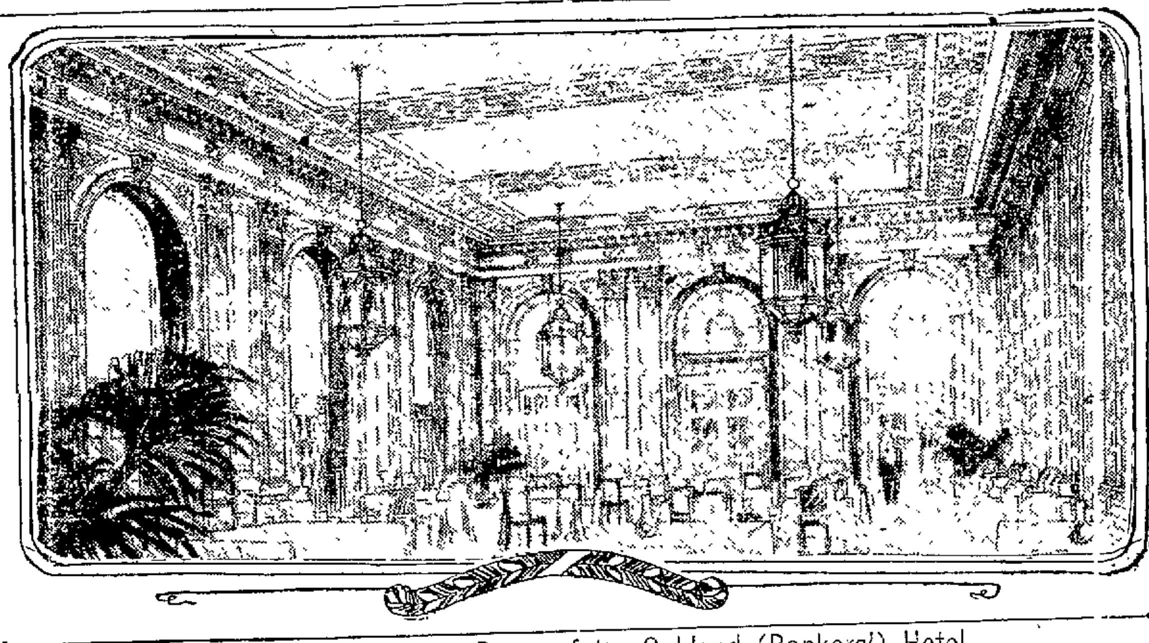
Chief of Police Seymour was much incensed this morning at the verdict, although he would not say that he had any fault to find with it. His whole manner gave evidence of a struggle and he expressed his determination to fight to the last ditch for a clean department and a closed town.

"I think," declared Seymour, "that I have the support of all the good citizens of this community in my effort to rid the police department of undesirables. I am not through yet. There must be some way in which I can maintain discipline without having to follow around and watch each man on his detail. There is a solution to this problem and I am going to find it. Every man must do his duty. The executive officers must support me in my effort to bring the force up to the highest degree of efficiency."

DUKE SILENT.

Captain Duke refused positively to discuss any further the gambling matter as regards the officers accused. He, however, made two transfers "for the good of the service," relieving Policemen Berman and Dolan from the gambling detail in the new tenderloin, and replacing them with officers Tatham and Collins who were brought over from the Barbary Coast.

Dining Room of New Oakland Hotel to Be Beautiful in Interior Decoration



Interior of the Dining Room of the Oakland (Bankers') Hotel.

Bliss & Faville have just completed a perspective of the interior of the dining room of the Oakland (Bankers) hotel, which will be located on the ground floor, where the cafe and the ballroom are also to be built.

The dining room is smaller than and not so elaborately embellished as the cafe, but it will be beautiful in all the details of its ornamentation. Its dimensions are 58 feet 2 inches in length and 46 feet 4 inches in breadth. The banquet rooms will be on the mezzanine floor over and contiguous to the kitchen. The main banquet room is more than double the size of the dining room.

LATEST NEWS FROM OUTSIDE TOWNS

WILL CANVASS HYDRANT MATTER

Mass Meeting Will Be Held at Elmhurst Tonight for That Purpose.

ELMHURST, Feb. 8.—Residents of Fitchburg and Elmhurst have been notified to attend the large mass meeting to be held tonight in the Redmen's hall in Elmhurst for the purpose of discussing the plans for the installation of the new fire hydrants throughout the annexed district. The meeting will be under the auspices of the representatives of the Union Water company, and plans for the new fire protection system will be exhibited before the residents and their opinion will be asked.

The speakers of the evening will be: Colonel M. M Ogden, of the Union Water company Councilman R. C. Vose and Philip Reilly.

WILL GIVE WHIST PARTY.

SAN LEANDRO, Feb 8.—Members of the Aloha Parlor Native Daughters of the Golden West, are making extensive preparations for their monthly whist tournament which is to begin on the evening of February 14 in the Woodmen's hall. Many beautiful prizes have been donated for the winners and the list of entries has been so large that the committee in charge has been forced to turn some of the players away. The committee in charge is composed of Miss Vergie Wilson, Miss Maude Mitchel, Mrs. Minnie Martin, Miss Grace Leopold and Miss Lillian Stevens.

HORSE CAR LINE WILL BE REMOVED

Traction Company Will Tear Up Rails of Antiquated Hayward' Service.

HAYWARD, Feb. 8.—Threats of suit on the part of this city against the Oakland Traction Company for the removal of the antiquated horsecar line which has been operated for the last twenty years from the business center, connecting with the Southern Pacific depot nearly three-quarters of a mile distant, have resulted in a victory for the people of Hayward, who have desired that better facilities of transportation be installed over the route.

Formal notice was given Mayor Heyer today by the officials of the traction company that the tracks would be removed without delay, thus obviating suit for the revocation of the franchise. The way is now cleared for some company to take up the matter and install transportation which will meet with favor and better provide for the accommodation of passengers.

Whether or not the Oakland Traction Company will ask for another franchise has not been given out, though their action in removing the track will terminate the privilege which they have held.

For some time there has been a complaint about the service given by the horsecars, but so long as the traction company held its line and refused to make any improvement, the people were powerless to oust them without bringing suit for the revocation of the franchise. The amicable settlement has met with unanimous favor on the part of the citizens of Hayward and that there will be some step taken to build a new car line has been hinted from various sources.

While the route is not thickly populated, the line is important from the fact that it is the most accessible means of reaching the railroad station.

RECLUSE DIES.

HARTFORD, Feb. 8.—For forty-three years Joseph Noyes of Mansfield, who died of pneumonia at the age of seventy-nine, had not left his room, in the residence of Edgar F. Storrs. Mr. Noyes, who was wealthy, had always been regarded as eccentric, devoting himself to his books and pipes.

Mr. Noyes left no relatives, and Mr. Storrs says he does not know where his boarder was born. All his food was served to him on a tray to be eaten as the humor seized him.

BACHELORS VS. THE BENEDICTS

Men of Irvington Fought Out Votes for Women Matter Last Night.

IRVINGTON, Feb. 8. — "Shall women be allowed to vote?"

This much mooted question, which has been a bane to the happy existence of most of the prominent statesmen in the world, and has caused the dividing of many a happy household, was thoroughly thrashed out last night at a local opera house, when representative citizens of the town met in an effort to form a chamber of commerce. The hall was packed with members of the gentle sex and many were the questions whispered in bated breath by the men present in an effort to discover the meaning of the turnout.

After the election of officers the real work of the evening began—single men against married men.

T. D. Witherly, owner of the Irvington Stock Farm and the proposed Witherly hospital, arose and made the motion that women be allowed to join the chamber. Staid members gasped, and women cheered until they grew hoarse. After many flowery speeches rendered by the members in favor of the votes for women, Jack Nott, one of the most prominent business men of the town turned the tide in favor of the opposition members and stated positively that women should not, under any consideration, be given the ballot. In part, Nott said:

"Worthy President and fellow citizens: We are gathered here tonight for one purpose, that of making this beautiful town of Irvington the most prosperous city of Alameda county and it seems absurd that some of our most loyal citizens are inclined to take the most fatal step that could be taken—that of giving women a voice in our city government. We are proud of our women. We want to thank out wives and daughters for what they have done for us in the past and hope and pray they will do as much in the future, but why, I ask, should they become members of our chamber of commerce? Think what this means. We would be the laughing stock of the whole United States, from Main to Milpitas and from the Lakes to the Gulf. Now brethren, I want you to vote on this not as farth, not as brother, not as husband, but as a true loyal citizen of Irvington."

The motion was lost and Irvington is goin gto prosper without the ladies becoming members of the Chamber of Commerce. But we are wondering what Mr. Witherly is going to do to square himself with the politicians."

The officers elected for the ensuing year are: President, Hon. T. J. Power; vice-president, S. B. Vandervoort; secretary, J. E. Wamsley; treasurer, A. Grau; sergeant at arms, Deputy Sheriff Edward Roderick.

SAN LORENZO CANNING COMPANY TO RESUME

SAN LORENZO, Feb. 8.—The San Lorenzo Canning Company, located on the tract of land between the Southern Pacific and Western Pacific tracks, and which was abandoned four years ago, has once more been put into condition and the directors of the company, consisting of J. H Ralston, president, V. Gilbert, vice-president, and James Cornice, secretary, are making efforts to have the plant ready for work this summer. The early crop of asparagus will soon be in and the directors have been negotiating with nearly all the ranchers in the vicinity for their first loads of the vegetable.

HORSE BREEDER HURT WHEN ANIMAL BOLTS

HAYWARD, Feb. 8.—Peter Alorie, a horse breeder, living in San Lorenzo, was thrown from a breaking rig yesterday afternoon when a wild colt, becoming frightened at a car, dashed across the road and started to climb over a barbed wire fence. Alorie was thrown to the ground and received bad bruises about the head and face, besides a fractured shoulder. The horse was so badly torn by the wire that he had to be shot. This is the second accident Alorie has had in the last three months.

VETERAN POSTMASTER AT ALVARADO HAS RESIGNED

ALVARADO, Feb. 8.— Judge E. A. Richmond, who has been postmaster of this community since September, 1877, with the exception of four years when I. V. Ralph held the office, has sent in his resignation, which has been accepted. Richmond, who has reached the age of 74 years, settled in this county fifty years ago. In 1865 he helped to build the J. C. Kellogg, the first locomotive to be constructed on this coast, and for twenty-six years later served as Justice of the Peace of Washington Township.

BERKELEY WOMAN WINS HER DECREE

Mrs. Eva Sylvester Awarded Divorce on Charge of Desertion.

An interlocutory decree of divorce was granted today to Mrs. Eva Sylvester of 32 Hillcrest Road, Berkeley who brought charges of desertion against her husband, Andrew Sylvester, formerly a vehicle salesman of this city, who left in May, 1909, for Minneapolis, Minn., and who since that time, it was alleged, had failed to provide for his wife. It was alleged on the stand that he had undertaken to contract a bigamous marriage with a widow who owned the controlling interest in a firm in which he was employed.

Friends of the eastern widow residing in Oakland who had communicated with her informed her of the alleged condition of affairs and it was their testimony at the trial which resulted in the granting of the decree.

The Sylvesters were married in this city in October, 1905, and when Sylvester deserted his wife he simply said he was going east and would return in a couple of weeks. He wrote several letters but never spoke about returning home nor offered to have Mrs. Sylvester join him.

HOME-BUILDERS ON OLD PERRITI RANCH

Thirty-Five Hundred Acres Cut Up for Settlement in Castro Valley.

HAYWARD, Feb. 8.—Thirty-five hundred acres of the old Jose Sanchez V. Perriti ranch in Castro valley, a mile and a half northeast of Hayward, was cut up yesterday and will be used for a public settlement. Litigation over the ownership of the property covering a period of the last twenty-two years was settled out of court yesterday. Joseph Perriti of Mendocino county, one of the largest land owners in the state of California, was awarded the large tract of land from the G. B. Knowles estate on the condition that he divide the property and lease or sell it to home seekers.

The property is situated in one of the most fertile tracts of land in Alameda county, being divided by the Castro valley creek running north and south, and the Hayward, San Jose roads running east and west. For many years it has been fenced in and signs of "no trespassing" have been posted all around. The rush for sites upon the property has been the greatest ever known in this county.

NILES LADIES WILL CARE FOR CHILDREN

NILES, Feb. 8. — The prevention of child labor in the canneries, the regulation of selling liquor and tobacco to minors, and the compulsory education of all children are the important tasks taken up by the civic section of the Country Club of Washington township.

Mrs. J. E. Thane, chairman of the civic section, has held a conference with Probation Officer Christopher Riess in regard to the violation of the child labor laws and upon presentation of the evidence that the law has been violated he states that he will take the matter up with District Attorney Donahue and the offenders will be prosecuted to the full extent of the law.

The Country Club is composed of the representative women from Irvington, Niles, Centerville, Pleasanton, Mission San Jose, Decoto and Newark. It is the aim of the organization to accomplish for Washington Township what the Oakland Club and the Child's Welfare League have accomplished for the youngsters of Oakland. The members are making plans for the holding of a series of meetings for the discussion of the needs of the various communities of the Township.

ELMHURST DRUIDS TO GIVE THEIR ANNUAL BALL

ELMHURST, Feb. 8.—Elmhurst Grove, No. 143, United Ancient Order of Druids, are making extensive preparations for their ninth annual ball and masquerade party, which is to be given in the Redmen's hall on Saturday evening, February 25. Plans for the decoration of the hall have already been let and the members have been working hard for the past week selling tickets for the affair, which is to be complimentary only. The committee in charge of the affair are:

Executive, Fred Frorichs, R. E. Rodifer, Fred Lennop, J. Denzler, J. Ellners, H. G. Clayton, George G. Murphy, Walyer Paterson, J. Mirsch, H. Dajas, Carl Noschla; floor committee, Fred Van Lennop, J. Mirsch; decoration committee, Walter Paterson, Fred Van Lennop and R. E. Rodifer.

CIVIC CLUBS TO TRY ONCE MORE

Have in View Gathering of Several Organizations Under Single Head.

MELROSE, Feb. 8.—At a meeting to be held Friday night in the Fremont High School the members of the Melrose Heights, Melrose Citizen's and Latham Terrace Improvement clubs are to make another attempt toward consolidation for the betterment of the annexed district. At the last meeting of the three clubs some of the most prominent members were obdurate and refused to consider the issue, but since then some of them have expressed their willingness to form one organization. It is also proposed by the members, in case the consolidation can be effected, to make an attempt to secure a room in the building for their regular meeting room.

FAITHFUL DOG STICKS TO END

Accompanies Master in Ambulance to Hospital and Stays There.

SAN FRANCISCO, Feb. 8. — When Herbert L. Ford, of 1823 Pine street, was taken to the Central Emergency hospital early this morning, suffering from nervous collapse, his little Spitz dog "Jim" insisted on accompanying him. The faithful canine leaped into the ambulance as the driver was whipping up his horses and when the hospital was reached he stayed close to his master while the doctors were examining him.

When Ford was carried into the ward the little dog was barred, but he refused to leave and his anxiety as exhibited by his restless running around in the court, softened the heart of the steward, who let him into the ward and watched him curl up contentedly on the bed beside his sleeping master.

VALLEJO IS TO HAVE NEW HIGH SCHOOL

VALLEJO, Feb. 8.—At the meeting of the board of education Architect Fred Voorhees of Oakland was chosen to furnish the plans and superintend the construction of the new high school building to be erected here this summer. The cost of the building will be about $46,000. Actual construction will begin by April 1. At the meeting last evening warrants were ordered drawn to pay $11,650 for the 13 lots which are to be covered by the new building and its grounds.

ALLEGE OLD MAN IS INCOMPETENT

Children of John J. Higgins Have Tied Up His Estate.

SAN FRANCISCO, Feb. 8.—Claiming that John J. Higgins, for years a resident of Berkeley, is incompetent to handle his monetary affairs and has not been providing for his son, John J. Higgins Jr. and his daughter, Winona, the guardian of the former, Thomas F. Greely brought suit against him this morning, making the Bank of California a co-defendant.

Superior Judge Mogan, pending a disposition of the suit, has granted a temporary restraining order preventing Higgins Sr. from drawing any money from the bank. According to the allegations, Mrs. Jennie M. Higgins wife of the defendant, died in Berkeley in November, 1904, leaving considerable money and realty, which was all turned over to the husband, he having sued for his community interest. Recently, according to the claim, he has been unemployed and has failed to provide for his children, who are now endeavoring to get what they aver is their share of their mother's property.

ALLEGED CRUEL SPOUSE GIVEN 90-DAY PAROLE

ALAMEDA, Feb. 8.—Charles Lambert, who was arrested yesterday on a charge of disturbing the peace preferred by his wife who claimed that he locked her out of the house, was given a ninety day parole by Judge R. F. Tappan this morning. If he enters any saloon, or commits any offense during the period of probation, he will have to serve the sentence of the court.

Mr. Elliot and the Wolfe Scheme.

In his clamorous effort to vindicate himself from the charge of plotting to annex Oakland to San Francisco, Councilman Elliot denies that it was ever proposed to carry through the annexation scheme without the consent of the communities San Francisco is striving to absorb. But he admits that he was in close communion with the proponents of the annexation scheme. He says: "I attended a meeting of the legal committee some time ago, at which Gavin McNab, Senator Wolfe, Warren Olney Sr. and Allan Wright were present, and it was distinctly stated that no such attempt to secure a law for a vote of the whole territory on annexation questions would be made."

This brings Mr. Elliot in consulation with Senator Wolfe and the committee having the annexation movement in charge. Mr. Elliot appears to have been one of the charter members of the organization. Senator Wolfe was its legislative agent. The amendment he originally introduced provided for annexation without asking the consent of the towns marked for absorption. By its terms San Francisco could have annexed San Jose, or Santa Rosa, or Vallejo, or Sacramento for that matter, by merely casting a larger affirmative vote than the smaller towns could cast in the negative.

That amendment provided that San Francisco could call an annexation election whenever ten per cent of the registered voters of any town it desired to take into camp could be induced to sign a petition for one. Everybody knows how easy it is to get such a petition signed. The question of annexation would then be determined by a "joint" vote of San Francisco and the town to be annexed. Having the greater number of votes San Francisco could carry any annexation scheme she chose. This original amendment was introduced by Senator Wolfe on January 10, 1911. It provides as follows:

"Any two or more cities, or a city and county with other cities, may consolidate and form one city and county, whether such cities are situated in the same or different counties, provided that the municipalities thus consolidated shall in the aggregate contain a population of at least twenty-five thousand inhabitants as established by the last preceding United States census.

"If a majority of the votes cast in any two or more municipalities is in favor of such charter, then such municipalities so voting shall constitute a city and county, with all the powers, privileges, duties and liabilities appertaining thereto prescribed by this constitution."

This amendment embodied the scheme proposed by the committee with which Mr. Elliot connubiated. It does not provide that a negative vote in either of the towns it is proposed to consolidate shall defeat the scheme. On the contrary, it provides that a majority of the combined vote of San Francisco and the towns to be annexed shall prevail.

Did Mr. Elliot ever see this amendment before Senator Wolfe introduced it?

Really one would hardly think the San Francisco police were so unsophisticated. Apparently they cannot distinguish between roulette and lawn tennis.

Oakland's commercial importance depends upon her political independence.

What the Amended Wolfe Bill Means.

A San Francisco newspaper which is putting up a defense for the Wolfe bill now pending before the Senate Judiciary Committee, providing for a constitutional amendment "for the merging and consolidating of contiguous territory of two or more cities, or cities and counties, or counties or any part thereof," is either deliberately misleading its readers for a sinister purpose, or is strangely ignorant of what the bill really contains. It says of the Wolfe bill: "The very first paragraph contains the following language: 'In no case shall any municipality become a part of such consolidated city and county unless a majority of the voters of such municipality, voting at a general election so determine.'"

As a matter of fact, the bill before the Senate Judiciary Committee contains no such language. As the bill was introduced in the Senate by Wolfe and referred to the committee on municipal corporations, it contained the sentence quoted. On February 1st the bill emerged from the committee totally altered and greatly abbreviated and with the sentence quoted eliminated and the following language substituted:

"No municipality (except such as contain less than one-half of one percent of the total population of the territory proposed to be consolidated) shall become a part of such city and county unless a majority of the qualified electors thereof, voting thereon at a general or special election, shall approve such consolidation and the charter of such consolidated city and county."

That sentence certainly contemplates giving San Francisco the power in the carrying out of its plans of territorial expansion or consolidation, to coerce at least all the minor cities contained in the four bay counties which it proposes to dismember in order to carry out its scheme of aggression—namely, San Mateo, Marin, Contra Costa and Alameda counties, without their consent. The original bill contains this sentence:

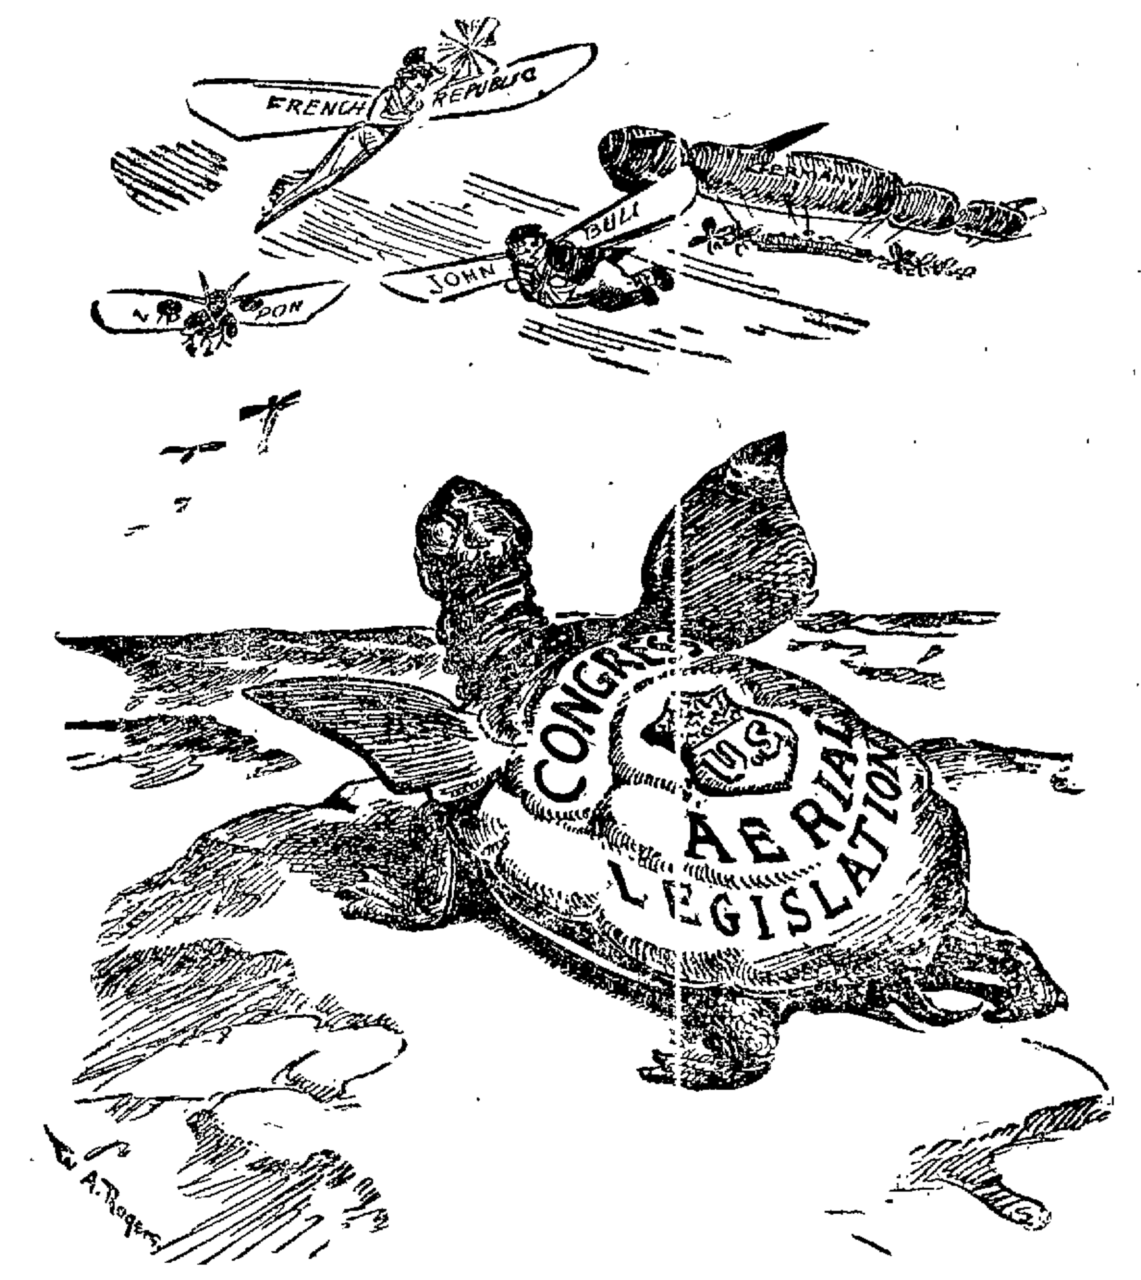
"The city and county thus formed shall assume the indebtedness of the municipalities composing it, and the charter may provide for the adjustment of the burdens of existing indebtedness as justice may require."

The bill as amended in the committee on municipal corporations and which amended bill is now pending before the Senate Judiciary Committee, provides for the division of "the existing debts and liabilities," in just proportion, "of the county or counties from which any of its territory is taken," and for a division also "in just proportion of the property of such county or counties." Then it provides for the absorption by the new city and county of all these properties. And the question "of justice" contained in the original bill regarding the assuming of the indebtedness of the municipalities composing the proposed consolidated city and county, disappears in the following sentence which closes the amended bill and exposes the real object of its framers:

"Such consolidated government shall also be liable for all the existing debts and liabilities of any municipal corporation merged therein."

In other words, San Francisco's scheme through the agency of this bill proposes not only the absorption by it of all the water front properties and improvements and rights and revenues of the cities of Alameda and the other three counties which it seeks to absorb, but makes them carry also a large proportion of its own bonded indebtedness, and it has no revenue producing properties of its own to put in the consolidated pool. Such a dishonest bill should be smothered instantly.

MAY BE A WINNER YET



—THE NEW YORK HERALD.

An Impossible Exposition Site Suggestion.

The proposition of a San Francisco architect to make Goat Island the site of the Panama-Pacific International Exposition is impracticable and impossible. The endorsement of the scheme by City Engineer Turner and the boring of a tunnel from the mainland to make the island a union railroad terminal is equally impracticable. Moreover, the suggestion from him will not help his candidacy for a commissionership under the new charter, for the reason, if none other existed, that such a proposition is openly unfriendly to the commercial development of Oakland's water front, on which the railroads have been given and are developing terminal facilities which will serve them better and that at less cost, and in the bringing about of which he has figured as one of Oakland's responsible agents. Perhaps the point has not before occurred to him; but the thought ought to have promptly presented itself to his mind that his scheme of the utilization of Goat Island and tunneling the intervening water way would be as fatal to Oakland's plans of commercial development as San Francisco's scheme of absorbing the east bay shore cities to retard their growth and progress.

Even San Francisco which would be the sole municipal beneficiary from such a scheme of utilizing the island, would not stand for it. The reasons are obvious. It would be, for one thing, just as fatal to the commercial interests and the use of the State water front of that city, as it would be to Oakland's water front interests. San Francisco will never accept the suggestion of using Goat Island as a site for the exposition of 1915, however, because of its inaccessibility to the visitors that the great show is expected to attract from all parts of the world. The promoters of the enterprise are, besides, more concerned in utilizing it for the enhancement of their property interests on the peninsula. Some of the leading and more influential exposition promoters have extensive land interests on the western side of the peninsula which are now undeveloped, but which proximity to the exposition site, will make available for improvement and settlement and enhance immensely in value in the realty market. Their influence will be exerted to the limit to make Golden Gate Park the exposition site, for selfish reasons. The campaign has been started already to that end. It may be accepted as a foregone conclusion that it will succeed.

But Goat Island is an impossible exposition site, for the simple reason that it is a military and naval reservation and the federal government would no more consent to its utilization as a park site, and afterward as a union railroad terminal, than it would consent to the surrender of the Presidio reservation or Angel Island for such uses.

The Louisiana Senators acted very handsomely in allowing the exposition resolution to go through without delay or obstruction. Now let us get together out here and show the world what California can do in the way of getting up a fair.

The Heroic in Every Day Life

By REV. WILLSIE M. MARTIN,
Pastor First Methodist Church,
Alameda.

Rev. W. M. Martin.

Of all the world's tales of romance and constancy there is none that is sweeter and more charming than the story of Ruth As one reads it, he is in a strait between two opinions — whether he ought to admire most the brave old woman who had shared the life of exile with her two boys in the land of Moab, and who, at their death, was willing to travel alone the long road home rather than be a burden to her daughters-in-law; or whether he ought to give first place to the brave young woman who chose the hardships, the poverty and the uncertainty of life in a strange country for duty's sake and at love's behest. But whichever way that question be viewed, the story is a beautiful illustration of the Their lives were gray and uneventful.

For most people every-day life is commonplace and tame. It is full of the dull colors and prosaic requirements. It is doing over and over again the same tasks. It is made up of long stretches of routine. For most of us life is a struggle for bread and butter and decency. Does this life with which we are all so familiar seem unfitted for any exhibition of the heroic? Let us learn a lesson from this ancient tale. Who were these two women? They were not of noble birth, they filled no commanding position; they had no brilliance of genius and no gift for leadership They were just plain, ordinary peasant women, tanned by outdoor labor. Peasant women who had more of misfortune of poverty and of sorrow than had fallen to their sisters. Their lives and gray and uneventful.

The only thing that stands out at all was their spirit. The heroism consisted not in any great act of daring, but in the quiet doing of a felt duty

Heroism is not the fruit of circumstance. It is the output, often unconscious of a fine, high-tempered soul. Heroism is in the soul and not in the event. Heroism consists in doing what you ought to do bravely and cheerfully. It means taking up the nearest duty and doing it well. It means facing the routine and the disagreeable with spirit and enthusiasm As the strain of constant traffic over a steel bridge tests the material out of which it is made, so the constant traffic and pressure of life's duties and annoyances test the material of which our spirit is composed. It takes a higher order of courage to face the obligations and perplexities of the common day when that common day is repeated over and over again than it does to do some deed of reckless abandon. It takes more courage to stand by your colors and your convictions always than it does to fling oneself once into the jaws of death. The battles of life are in the soul. It takes heroic stuff to resist the mob impulse to go with the crowd, to resist the tendency to let the dreams die out to go the easy way rather than the right way.

We are familiar with the heroism that flames out under unusual conditions. The story of Leonidas and his three hundred countrymen have been immortalized in song and story History is full of the great deeds of kings and knights. But heroism is not found alone on the tented fields of war, neither is it the exclusive possession of the brilliant and the mighty The heroic spirit is part of the endowment of the poor, the inconspicuous and the common man.

LIFE FROM SEA WATER

The latest prescription for the saving of human life from some of its most formidable perils sounds much like the fantasy of an alchemist or the prayer of some modern Prince de Leon; yet it is not for that reason to be dismissed without consideration. The works of Pasteur, Koch, Metchnikoff and others have often suggested more flights of imagination, yet they have been intensely real and practical. Whether the name of Dr. Quinton is to be added to the list of great benefactors of mankind is yet to be determined. But at least it may be said that there seems to be nothing intrinsically impossible in his proposal, while on the contrary it contains much that is plausible, and it is being applied in a way which commends it to serious attention. We may add that if the results which have been reported are verified they will form a basis for a large degree of hope.

Dr. Quinton addresses himself chiefly to the curing of marasmus, or infantile cholera, and similar wasting diseases of early childhood, and his method consists in the injection of sea water into the circulation. The water is taken from a point far enough from shore and below the surface to assure its purity, for it must not be sterilized or artificially purified in any way. It is diluted with absolutely pure fresh water, so as to make it exactly isotonic with human blood. Then it is injected, sometimes to the amount of ten fluid ounces a day.

The theory of Dr. Quinton is that all life originated in the sea water and that pure sea water is almost identical with the organic plasmas and is the culture liquid for organic cells.—New York Tribune.

AN ARMY OF COOKS

Compulsory military service for men, urges a German female advocate of women's rights, should be offset by compulsory domestic service for women. On the theory that life in barracks and drill in the manual of arms have benefited German manhood, she asks, why not life in the kitchen and exercise in the use of pots and pans similarly raise German womanhood?

If Germany every organizes a standing army of cooks it may force all Europe to follow its lead. Culinary conscription is a severe measure, but when enforced in Germany other nations might be expected to adopt it. There would be more reason in doing so than in following Germany's lead in militarism. There is more real need of cooks the world over than soldiers. It is possible to get along without fighting but not without eating.

The only question is whether the imperial army of cooks could be reduced to the same machine-like discipline and precision of habits as the Kaiser's army. Would they submit to orders with the same blind obedience? Would they tolerate being uniformed all alike, and in matters of personal adornment submit to authority with the same meekness as the recruit reports for duty when the time arrives for military service?

Before the matter goes too far the Kaiser would do well to consult the ladies themselves, for if ever they undertook to mutiny on being called out for the annual maneuvres they would have fearful opportunities for wreaking their vengeance upon the men who required them to work against their wishes. Compulsory domestic service might end by abolishing compulsory military service in order that the women should gain their freedom.—New York World.

YOUTH HEADS BIG LIBRARY

The present head of the law division of the library of congress is one of the youngest men in charge of a division in Uncle Sam's service, and has just been appointed law librarian of congress and of the supreme court of the United States. He is Edwin M. Borchardt, who, though not yet 27 years old, is an authority on international and foreign law. He hopes to make the law library of the Library of Congress the best in the world, so far as present-day foreign law is concerned.

Mr. Borchardt was appointed law librarian by Herbert Putnam, the librarian of congress, to succeed M. G. Beaman. Mr. Beaman had been law librarian for several years, but resigned recently to become associated with a new bureau, with headquarters in New York. Up to Mr. Beaman's resignation Mr. Borchardt had been head of the law division. While librarian Mr. Beaman's distinctive work was the completion of the index to the statutes at large, the second volume of which is now in press, and which volume completes the work. But Mr. Borchardt's distinctive work has been in connection with foreign and international law, and now that he is head of the library the work will be continued. Both Mr. Borchardt and Mr. Putnam are enthusiastically hoping to make the library of congress and the people of Washington the possessors of the very best collection on the subject that there is in the world.

PURITAN SPIRIT REVIVES

We live in the twentieth century but the Puritan spirit is not yet dead. Forced to hide its diminished head and to burrow underground, it survived even the orgies of the period of the Restoration, when England, under the merry monarch, became merry England with a vengeance and a difference. Transplanted to Massachusetts soil, it flourished there with a vigor and a tenacity of life in direct ratio to the hardships endured by the early settlers It has since that time, and in general for our good, served to modify our outlook on life, our code of laws, our very habits of thought. It was a fine old spirit, and, if it had its limitations and its drawbacks, its influence on the whole was for propriety of conduct and cleanliness of life.

It crops out now and then, however, in ways that clash with the broadermindedness of our era. For instance, here we have a Winthrop lawmaker introducing into the state legislature of Massachusetts a bill to restrain women from wearing gowns with sleeves that do not come to the wrists, with necks cut below the level of the shoulders, and with skirts that do not fall at least six inches below the patella Wrists and shoulders every one understands, but why did the Winthrop man say patella if he meant knee-pan?—Washington Post.

TAFT AND HIS BROTHERS

President Taft may not be a politician himself, but it is doubtful if another man in this country is so fortunately provided with staunch associates who can sense public opinion. We refer to the Taft brothers. Henry W. Taft is an important figure in New York, which might almost be called the pivotal political state of the union. Charles P. Taft, has even a more intimate insight in the middle west, by virtue of his picturesque leadership in Ohio politics, where many of the greatest battles of the nation are fought. Horace D. Taft, the student, in New England, while not an active politician, through his knowledge of the great educational movements, completes the unique trio of loyal advisers.

In the opinion of the Taft brothers, Horace is the great man of the family. He is looked upon as their leader in the moral and intellectual movements. The highest aspirations of the people are the things he understands best Horace Taft, to the mind of the President, personifies nobility of American thought. He is an idealist politically, but what he says carries tremendous weight with the brothers.

Henry W. Taft is the typical great lawyer. Ideally located in New York city, he is in direct personal contact with all the big political, financial and commercial movements. He is a trained observer. His organization in that particular realm is as thorough as the field in which Horace D. Taft predominates. Charles P. Taft of Cincinnati, through his vast newspaper interests, is the man who understands the human side of the political equation of state and country. Charles P. is not only consulted in the political movements of Ohio, but is often a great factor in their accomplishment. He is the practical politician.

Not every one who calls at the White House reveals to the President the true situation. Their opinion must oftentimes be discounted or added to. It is at such times that Mr Taft turns to his brothers.—Leslie's Weekly.

20 YEARS AGO IN OAKLAND

W. W. Slater, superintendent of the block and signal system at the pier, left last evening for Portland, where he will put in some electrical work for the company.

The Ironworkers of Emeryville have elected the following as an executive committee to take up the matter of boycotting the Commercial hotel. W. B. Soule William Mullender, R. E Sullivan, E. Hough H. F. Wayne, O. A. Smith and F. W. Thurman.

The following have been elected officers of the Fabiola Hospital Association: President, Mrs. John Yule, vice-presidents, Mrs. Remi Chabot, Mrs. James A. Folger and Mrs. D. B. Hinckley, secretaries, Mrs. E. S. Dearing, Mrs. G. M. Stolp, treasurer, Mrs. G. A. Chase. These and the following constitute the directorship: Mrs. Pedar Sather, Mrs. Wallace Everson, Mrs. W. W. Stanford, Mrs. George M. Grant, and Mrs. A. D. Chamberlain.

At the home of Mr. and Mrs. C. S. Hanson this week occurred the wedding of their daughter, Miss Mabel Clara Hanson, to James E. Jones. A large number of guests were present. Misses Daisy and Hattie Hanson acted as bridesmaids and S. T. Shannon as best man.

Among those who attended the party given by the Assembly Club last evening were the following: Miss Clara Clift, Miss May Snook, Miss Bessie Hall, Miss Sarah Dean, Miss Lou Breck, Miss Evelin Rendillard, Messrs. Wm. Meek, F. S. Malloy, Frank Parcells, Clifton House, Arthur Pope, C. A. Culver, Ed Burnell, N. S. Koser, John Doering, C. C. Judson and many others.

Several influential residents and property owners of the district lying between Oakland and Berkeley believe that the present is a favorable opportunity to call a bond election for the annexation to Oakland.

Articles of incorporation of the Askershaw Manufacturing Company have been filed with the County Clerk. The directors are J. G. McCall, Jno. T. Hall, Samuel Breck Jr., G. H. Daniels and Hiram Morse, all of Oakland. The capital stock is $50,000 and divided into 5000 shares.

While Hugh Fraser of 973 Castro street was at church last evening burglars entered the house and stole a watch, some rings and other articles of jewelry.

Senator Fair's stables at Newark, containing twelve Normandy and Clydesdale horses were burned early yesterday morning. The loss is about $7000.

The death of Mrs. Catherine Newland occurred yesterday at her residence, 1677 Valdez avenue. She was the wife of Earl Newland, the capitalist, a native of Canada, and 56 years old.

The mariage of William H. Avery and Miss Jessie A. Lawrence will take place next Saturday at the residence of J. W. Cummings, Sunol, Alameda county. Mr. Avery is passenger agent of the Pacific Mail Steamship Company.

STRANGE DISEASE BAFFLES DOCTORS

Undertaker Scratched While Handling Corpse of Suicide; Result Is Serious.

CHICO, Cal., Feb. 8.—Suffering from strange disease resulting from a scratch on the hand, obtained while he was handling the corpse of a suicide, Harry C. Bicknell, a Chico undertaker, has gone to San Francisco, where he will consult with a specialist. Local physicians say they never before saw a similar case and are at a loss to classify it. It differs from blood poisoning.

The tiny scratch from which the disease resulted was sustained on October 7, 1910. Adolphus Grimm was the suicide. He was a sheepherder and killed himself near Durham October 6 by slashing his throat twice with two butcher knives. So far as could be determined at that time the man was suffering from no disease.

The scratch on Bicknell's hand was made while he was embalming the body. He thought nothing of the insignificant wound at the time. In course of weeks the undertaker could see that his whole system was affected.

By this time he was alarmed and visited one of the northern California health resorts, but that did him no good, despite the fact that he was given expert medical attendance. A few days ago he returned home and decided, as a last resort, to go to San Francisco, where he will consult with a famous specialist. Up to the present time the disease has mystified physicians in this part of the state.

SEMAPHORE SET FOR CLEAR TRACK

Western Pacific Railway Has Resumed Traffic Over Stockton Route.

The Western Pacific ran a through train from Oakland to Oroville yesterday for the first time in two weeks. The tracks west of Stockton, which have been in a critical shape owing to the heavy rainfall, resulting in floods, are now in good condition again, having been reballasted.

The landslides that blockaded the track in Feather canyon were cleared away today and it is expected that trans-continental service from Oakland to Salt Lake City will be resumed tonight.

PENNILESS MAN IS SUICIDE.

CHICAGO, Feb. 8.—Penniless and despondent because he was unable to obtain employment, Jacob Van Husselt, 45 years old, professor of music and son of a Holland nobleman, committed suicide yesterday. The body, frozen stiff, was found in a snow bank by a police officer.

GERMS IN HER SYSTEM

Every Woman Should Read This Advice and the Generous Offer That Goes With It.

The number of diseases peculiar to women is such that we believe this space would hardly contain a mere mention of their names and it is a fact that most of these diseases are of a catarrhal nature. A woman cannot be well if there is a trace of catarrh in her system.

Some women think there is no help for them. We positively declare this to be a mistaken idea. We are so sure of this that we offer to supply medicine absolutely free of all cost in every instance where it fails to give satisfaction. With this understanding, no woman should hesitate to believe our honesty of purpose, or hesitate to put our claims to a test.

There is only one way to overcome catarrh. That way is through the blood. You may use all the snuffs, douches or like remedies for years without getting more than temporary relief at best. Catarrh in general is a diseased condition of the system that shows locally most frequently in discharges from mucous membranes. Local treatment should be assisted by internal treatment for the general diseased condition if a complete cure is to be reached. That internal treatment should be scientifically devised and faithfully administered.

Rexall Mucu-Tone is scientifically prepared from the prescription of an eminent physician who for thirty years made catarrh his specialty. This remedy is admirably adapted to the treatment of the catarrhal ailment of women. It purifies and enriches the blood, tends to stop mucous discharges, aids in removing impurities from the system, soothes, heals and strengthens the mucous tissues, and brings about a feeling of health and strength.

We want you to try Rexall Mucu-Tone on our guarantee. If you are not benefited, or for any reason not satisfied, simply tell us and we will hand back your money. Rexall Mucu-Tone comes in two sizes, 50 cents and $1.00. Remember, you can obtain Rexall Remedies only at The Owl Drug Co. (Inc.), 10th and Washington, 13th and Broadway, 16th and San Pablo.

MEET FORTUNE HALF WAY; ENTER THE GREAT CONTEST

Four Gold $35 Watches

We think that if you are interested in the prizes which are being offered in THE TRIBUNE'S Great $10,000 Contest you would do well to enter your nomination at once. At least do not postpone calling on us to inquire concerning the advisability of your becoming a candidate.

Perhaps you think that if you call on us for this purpose we are sure to urge you to take up the campaign. You are mistaken. If, when you have told us the circumstances under which you will work, we think poorly of your chance, we will tell you so frankly. We no not care to fill up our list with mere names. That would tend to keep out some really active candidates.

Your name alone would do us little good, and might even do harm by making it appear that there is more opposition to overcome than really exists. What we want is to secure such a list of candidates that every name on it stands for a live, active contestant. There are people who, through no fault of theirs, are so placed that it would be impossible for them to carry on a successful campaign. When we are told of such circumstances we frankly advise you not to enter your name, but if, on the contrary, we see that the matter lies entirely in your own hands, then we are willing to do everything in our power to help you to gain your end.

It is our duty as well as our pleasure to try to simplify things for you. To show you whereby a little careful organization you can save yourself much effort, and also to suggest to you ways and means of securing subscribers.

ALL SHOULD TAKE PART.

By this we do not mean that every one should become a candidate, but we do mean that every public-spirited citizen should interest himself either in his own campaign or in that of another. You can do a great deal to help others, not only by giving them a subscription, but by interesting all whom you know in their campaign.

In this way you actually take part in the excitement, and when your chosen candidate is declared a winner you can feel just as proud as he or she, for you will have been largely instrumental in the successful outcome.

SEASON FOR GROWTH.

While other less fortunate lands are still in the icy grip of winter, it is spring with us. All nature is responding to the call. "Such a growin' and a blowin'" in the gardens; such a rising of sap, such a sprouting and budding everywhere.

Can't you feel within yourself the impulse to do some growing? Lay out your campaign garden. Plant plenty of energy, good-nature and perseverance. Watch the dear little votes sprout and grow bigger and bigger day by day. See them flower into a beautiful prize for you to pluck.

This is wonderfully satisfactory gardening. Every bit of work that you put in has the definite and immediate result of a higher vote. Do not neglect your opportunities. Cover the whole land with systematic care. The very corner that you think you can afford to leave untilled may be the one which would bring you the richest harvest.

EASIEST WAY TO WIN.

The easiest way to win is to ask your friends to pay a subscription in advance and have the votes credited in your favor. Even if they are taking the paper at the present time that is no reason why they should not take a subscription for you. The time for which one renews will be added to the present period of subscription.

Of course, a new subscriber is worth even more than an old one so far as votes go. Besides this, you will note that the scale of votes advances rapidly in proportion to the length of time subscribed for, so that it is immensely to your advantage to get at least one year's subscription from your friend rather than six months.

ABOUT THAT 50,000 EXTRA VOTES.

Have you considered that another fine point about that offer of 50,000 extra votes on the first $30.00 worth of subscriptions brought in by each candidate is that the money brought in for a renewal is just as good for counting toward the amount as the money paid on a new subscription?

This makes it a great deal easier to collect the $30.00, and it should not be long before the active contestant accumulates that sum.

Call at the Contest Department of THE OAKLAND TRIBUNE or phone Oakland 528 for a receipt book before setting out on your campaign. It will simplify matters for you and you will be able to show your friends just what you will gain by their subscriptions.

TODAY ONLY THE COUPON VOTES ARE PUBLISHED TO THE CREDIT OF EACH CANDIDATE.

ON SUNDAY WE WILL BEGIN TO PUBLISH VOTES ON SUBSCRIPTIONS. BRING IN YOUR SUBSCRIPTIONS AT ONCE.

FLAMING BULLETS ARE TESTED AT MANEUVERS

BERLIN, Feb. 8.—Maneuvers of the most interesting nature took place on the parade grounds last night, at which a recent invention in the form of rifle bullets which throw a brilliant light when fired into the air, was thoroughly tested. Searchlights and rockets also were utilized, making every movement of the troops across the snow-covered country plainly visible.

NIGHT RIDERS DRIVE JAPANESE FROM RANCH

DELTA, Colo., Feb. 8—Opposition to the employment of Japanese labor in the orchards of western Colorado came to a head Monday night when night riders visited the camp of Japanese employed in setting out fruit trees at the Stockham ranch near here and drove the brown men off, warning them not to return on pain of death. The Japanese left the ranch.

Drastic Changes by Legislation Are Proposed

LABOR ARBITRATION KEYNOTE OF MEASURE

Boynton's Bill Provides for Settlement of All Union Trouble.

SACRAMENTO, Feb. 8. — Senator A. E. Boynton furnished the plans for a labor battleground yesterday in the shape of a bill providing for the adoption of the Canadian industrial disputes investigation act.

Reduced to a sentence, the industrial disputes act prohibits lockouts and strikes until after the submission of the dispute to an arbitration board and the filing of that commissions award. The underlying theory is that neither a strike nor a lockout can succeed if public opinion is against it and that the publicity attending the investigation by a public commission would coerce the party in error into a settlement of the dispute.

ONLY SOLUTION, BOYNTON SAYS.

Speaking of his measure, Senator Boynton says:

"This is the ultimate solution of the labor problem. We are bound to come to it, and I hope that California will find itself far enough advanced to accept it now. This question has been carefully sifted by fair-minded men. By the adoption of this plan we shall be saved the greater part of the trouble and distress that are inevitably connected with violent controversies between capital and labor."

The act is named by its author, "The Industrial Disputes Investigation Act," and its general administration is vested in the Commissioner of the Board of Labor Statistics. It declares that when any employer has a dispute with his employes, or any employes have a dispute with their employer, which cannot be settled, the matter shall be submitted to the board of inquiry before a lockout or a strike is begun.

NAME BOARD IN CASE.

A board is to be appointed for each specific dispute. When the Labor Commissioner is informed of such case he will notify the Governor, and the latter will appoint one representative from each side. The two appointees are to choose the third member as a chairman of the board, and if unable to agree upon a third member, the latter is to be chosen by the Governor. Every member of the board is to hold office until the report of the board is made to the Governor.

In every dispute referred to the board, it is, after hearing fair and impartial testimony from both sides, to endeavor to bring about an amicable settlement, and it may adjourn its proceedings for five days to allow the parties to the strife to come to a satisfactory agreement. If that is attained both parties hall sign a pact of peace that will be placed with the Governor.

GOVERNOR TO GET REPORT.

When no settlement can be reached by the commission a full report will be made thereof to the Governor, setting forth all the facts and circumstances and the findings of the board, together with its recommendation for settlement, according to the merits and substantial justice of the case. The board's recommendation shall state plainly what in its opinion ought or ought not to be done by the respective parties to the dispute.

The bill provides that it shall be unlawful for any employer to declare or cause a lockout, or for any employe to go on strike during a reference of any dispute to the board of conciliation and investigation.

THIRTY DAYS' NOTICE.

Employers and employes are by it required to give at least thirty days' notice of an intended change affecting conditions of employment with respect to wages or hours. If such intended change results in a dispute, neither side shall alter the conditions of employment or break off mutual relations until the board has heard the evidence and rendered its verdict.

All proceedings of the board of inquiry are to be public and the report of the board to the Governor and all its findings are to be public. Power is granted the board to summon witnesses and examine papers and documents.

Twenty dollars a day is to be allowed each member of the board while it is sitting and $5 a day to the two members for three days while they are selecting the chairman.

ASKS TAFT'S HELP FOR HETCH-HETCHY

Joint Resolution Seeks Withdrawal of All Opposition to Water Matter.

SACRAMENTO, Feb. 8. — Federal relations held the conspicuous place which they have maintained in the proceedings of the Legislature. Following a resolution calling upon President Taft to preveent the Department of the Interior from carrying out a contract, made under Secretary Garfield for tapping the waters of Lake Tahoe, came a joint resolution introduced by Senator Welch urging the President to "withdraw all opposition on the part of the executive" against the completion of work whereby San Francisco and other towns may secure their water supply from Lake Eleanor and Hetch-Hetchy valley.

The resolution recites that cities surrounding the bay of San Francisco began as early as 1871 to seek adequate water supply, selected the above sites and have spent over $600,000 besides authorizing a bond issue of $45,000,000 to create such supply. It declares that "certain well meaning people, misled by great private interest which would be adversely affected by municipal ownership of such water supply," have attacked the plan, and that the present Secretary of the Interior, "under presure of these acts" has threatened to attempt to revoke the grant of the Hetch-Hetchy site.

This disturbance, the resolution declares, is calculated to impair the value of the bonds and the credit of San Francisco.

HUBBY MISERLY, IS WIFE'S CHARGE

Alice Adela Morrison Declares Spouse Gave Her $10 in Four Years.

Alice Adela Morrison of 1526 Telegraph avenue, was married to Frederick H. Morrison in Redwood City in August, 1905, and lived with him until May, 1909, and during the entire period, according to the wife's testimony upon which she has been granted a final decree of divorce in the Superior Court, the only contribution he made towards her support was to pay for about $10 worth of dentistry and buy her a pair of cheap shoes. Mrs. Morrison was Mrs. McCargar, a widow, when she married Morrison, and had considerable money left to her by her first husband. Most of this, she says, she spent during her married life with Morrison, to maintain the household and provide for her son by her first husband.

When Morrison proposed marriage to his wife, Mrs. Morrison testified, she was particular to sound him as to his feeling towards her boy. He professed to like the lad, but after annexing him as his stepson, she declares, his whole attitude towards him changed. When Mrs. Morrison resented this treatment of her son, she alleged, Morrison called her a "blood sucker" and accused her of trying to "bleed him."

LEGISLATIVE NOTES

FAVOR HOTEL BILL. — Favorable consideration was given to Senator Hare's bill for the regulation of hotels and lodging houses at the meeting of the senate committee on public health. Representatives of the Pacific Travelers' Association and of the United Commercial Travelers told of the need of compelling hotel proprietors to observe the rules of cleanliness and safety.

STATE STEEL PLANT. — The creation of a state plant in San Francisco for the manufacture of steel bridges for use throughout the state is the purpose of a bill introduced in the assembly by John L. Mendenhall of Williams.

UNIFORM SALARIES. — Compositors and bookbinders in the state printing office will be placed on a uniform wage of $125 per month if a bill passed by the assembly becomes a law. The bill was introduced by Assemblyman Rodgers of San Francisco.

TO PROTECT SEAMEN. — Hundreds of accidents that occur annually on board vessels along the San Francisco water front and along the water fronts of other California cities will be prevented, according to Assemblyman A. Cunningham of San Francisco, if his bill, to force employers of stevedores loading or unloading ships to employ a competent man to act as a watchman at each hatch, passes.

STUCKENBRUCK BILL CAUSE OF TILT IN ASSEMBLY

SACRAMENTO, Feb. 8.—The phalanxes of the Los Angeles delegation in the Assembly were routed yesterday in a decisive clash over a bill by J. W. Stuckenbruck, the blacksmith-farmer-statesman of Acampo, providing for the maintenance of county highways improved under bond issues.

The struggle came unexpectedly on Stuckenbruck's bill. When the smoke of battle had cleared away it was found that the men from south of Tehachapi had mustered only 14 votes against 41. Among those temporarily absent being Clark, Young, Joel, Bohnett, Griffin, Hayes, Hinkle, Malone and Nolan.

H. G. Cattell of Pasadena, speaker pro tem., first opposed the bill because the proposed tax, not exceeding 3 cents on the $1000 of taxable property in the county, would be handled by the supervisors while in his county a highway commission in handling the funds. He asked that the bill be referred back to the committee on roads and highways to be amended. Chandler, Stuckenbruck and others objected, and so did the majority.

Cattell then offered an amendment to make the bill apply to San Joaquin county, where Stuckenbruck hails. This was also voted down. Next Cattell moved to exempt Los Angeles county. This amendment also met disaster.

WAY VOTE STOOD.

Stuckenbruck's bill was passed as follows, the rollcall showing how the assemblymen lined up for the struggle which meant more than the success or failure of Stuckenbruck's bill:

Ayes—Beatty, Beckett, Bennick, Brown, Callaghan, Chandler, Coghlan, Cunningham, Denegri, Feeley, Fitzgerald, Flint, Gaylord, Gerdes, Griffiths, Guill, Hall, Hamilton, Harlan, Held, Jasper, Jones, Kehoe, Kennedy, Lynch, Lyon of San Francisco, Maher, McDonald, McGowan, Mendenhall, Mullalley, Polsley, Rimlinger, Rodgers, Rosendale, Rutherford, Sbragia, Schmitt, Slater, Smith, Stevenot, Stuckenbruck, Sutherland, Tibbits, Walker, Walsh, Williams, Wilson, Wyllie, Hewitt—51.

Noes—Benedict, Bishop, Bliss, Butler, Cattell, Cogswell, Farwell, Freeman, Hinshaw, Judson, Lamb, Lyon of Los Angeles, Mott, Randall—14.

Not voting—Bohnett, Clark, Cronin, Crosby, Griffin, Hayes, Hinkle, Joel, Malone, March, Nolan, Priesker, Ryan, Telfer, Young—15.

KNOX SAYS WORD ABOUT TREATY

Intimates the Pulp and Paper Amendment Need Not Delay Ratification.

WASHINGTON, Feb. 8.—Secretary of State Knox has written Chairman Payne of the ways and means committee of the house that an amendment to the wood pulp or paper sections of the Canadian trade agreement would not necessarily delay its ratification. This fact was brought out in a hearing given by the committee today to opponents of the paper and wood pulp provisions.

The statement last week of Chairman Payne that the agreement must stand or fall as a whole and that amendments could not be made was interpreted at today's meeting by Representative Fordney as indicating that no change could be made in the paper or pulp wood schedules.

Representative McCall, speaking for Chairman Payne, who was absent, said the prohibition against amendments would not extend to the sections indicated.

AGREEMENT ANNOUNCED.

Secretary Knox explained in his letter that the United States and Canadian commissioners had reached an unalterable agreement on the sections mentioned and that the final construction was left to the committee which now has the bill.

The committee had made a careful inquiry of witnesses as to whether in its present form the agreement would let paper in free, even though Canadian provinces should continue to exercise restrictions against the exportation of pulp wood logs.

Alfred S. Hall, a Boston lawyer, representing holders of securities in the International Paper Company, indicated that the matter would be taken to the courts if the agreement were construed in that way. He said he stood with the manufacturer of paper on the basis that if free paper were granted it must be accompanied by the free importation of pulp wood.

ARGUE IN FAVOR OF CONSERVATION MEASURE

SACRAMENTO, Feb. 8.—Arguments in favor of the administration conservation bill where heard in the assembly hall last night at a public meeting of the irrigation committee of the senate and the conservation committee of the assembly. Opponents of the bill were invited to speak, but none appeared. Those who advocated a drastic conservation policy were former Governor George C. Pardee, Francis J. Heney, Chester Rowell and Professor Charles D. Marx of Stanford University.

SOLON AIMS AGAINST THE DEADLY HATPIN

SACRAMENTO, Feb. 8.—Now the hatpin crusade has come. Not content with getting a dozen big reforms under way the assembly soon will take up the question of depriving woman of her long-cherished weapon of offense and defense —the hatpin.

Assemblyman Kennedy of San Francisco is the author of the measure. He would have it a misdemeanor for any woman to wear in public a hatpin the end of which is likely to inflict injury when coming in contact with a person. The number of inches permitted to be exposed is left to the discretion of the policeman.

AUSTRALIAN BALLOT RESTORED BY MEASURE

Removal of Party Circle and Non-Partisan Judiciary Are Proposed.

SACRAMENTO, Feb. 8.—The restoration of the Australian ballot and the removal of the party circle will be accomplished by Senator A. E. Boynton's bill, 306, which has been passed by the Senate. It contains a provision to make the judiciary non-partisan. Candidates for judicial places are to have no party designation attached to their names on the ballots. Nominees for other offices will have their political designations after their names. Rotation of names of candidates for each office is provided for, so that when many are running alphabetical precedence may not give some of them the advantage of being at the top of the list of all ballots.

DIRECT PRIMARY LAW.

Senator Boynton said that on the general election ballot names of candidates for United States Senator could not be placed, but in the bill to amend the direct primary law, which Boynton is to introduce, there would be a provision for the selection of United States Senators by statewide vote at primary elections.

Senator Wright of San Diego, who supported Spalding against Works, sarcastically remarked:

"Why does this legislature propose to ask the people for advice as to who should be United States Senator when it does not take the people's advice? We do not care the snap of a finger for the people's advice."

SALARY RAISE FAVORED.

Although it has been the announced policy of the ways and means committee of the Assembly to report against all bills providing for an increase of salaries, Assemblyman Benedict's bill to increase the salaries of the officers of the District Court of Appeals passed the House, 45 to 16.

After days of preparation, Assemblyman Henry Ward Brown of San Mateo introduced his judiciary impeachment measure which embodies, he declares, the important features of the recall and also uses the initiative.

The measure is in the form of a constitutional amendment and amends section seventeen of the constitution, which provides for the impeachment of judicial officers of the state. Under the amendment 25 per cent of the electors at any general state election may file a petition for the impeachment of any judicial officer of the state, or 25 per cent of the electors of any county may file a similar petition for the impeachment of a Superior judge with the speaker of the Assembly during a session of the legislature, and it shall then be the duty of the Assembly to file with the Senate articles of impeachment. The trial must then be held by the Senate, two-thirds voting for impeachment being necessary to impeach.

FIGHT INSURANCE BILL.

Old line fire insurance companies are fighting Senator Roseberry's proposed new act for the formation and regulation of mutual insurance companies just as they fought legislation for insurance on the mutual plan from the beginning. Attorney T. C. Coogan, who led the opposition for the old companies many years ago, when an enactment for mutual fire insurance companies was first proposed, has been here this session to flatten out the Roseberry bill, and has spoken against it in committee.

The Senate committee on corporations and the Assembly insurance committee are expected to act on the measure this week, and telegrams have been coming to members of both Houses urging them to vote against it.

SEATTLE TO HAVE NEW GOVERNMENT

Modified Commission Plan and Votes for Women Soon to Be Operative.

SEATTLE, Wash., Feb. 8.—Under a provision adopted by the people last March, Seattle will elect on March 7th a council of nine members, chosen from the city at large, to succeed the present council of fourteen, chosen by the wards. The new councilmen are to be well paid and will devote all their time to city affairs. The scheme is a modification of the commission form of government.

The registration books were re-opened today for the enrolling of additional names, and it is expected that many women, who held back from the recall campaign, will register now. Only half the women qualified to vote are registered.

Registration will close February 14, and on February 21 a primary election will be held to eliminate all but eighteen of the forty-three council candidates who have filed nomination papers. From among these eighteen, nine city rulers will be chosen. All the present city councilmen are candidates for the new offices.

It is expected that the forces behind Mayor-elect Dilling will be influential in the council election and that they will seek to defeat the Gill element among the candidates. During the campaign just ended only two council candidates appeared on the stage at Gill meetings.

INTRIGUE AFOOT.

LONDON, Feb. 8.—The Shanghai correspondent of the Morning Post says it is reported there that a eunuch stabbed the Regent at Peking. The report is discredited, but it seems the Regent is sick. It is believed a palace intrigue is afoot to dethrone the young Emperor in favor of a member of the elder branch of the imperial clan.

TRANSPORTATION A GREAT FACTOR

From Day of Camel to That of Automobile It Has Been Potent Civilizer.

(From the Chicago Tribune.)

(By HOWARD E. COFFIN, Ex-President Society of Automobile Engineers, Vice-President Hudson Motor Car Co.

Since transportation has been the greatest factor in civilization, the modern motor car, which represents the highest type of practical locomotion, becomes of serious importance.

From the time of the early Egyptians with their camels as the only means of transportation, man has been trying to increase his efficiency by improving his transportation. Centuries rolled on with practically no improvement. The steam engine revolutionized the common carriers on land and sea, but still the individual's transportation remained almost as crude as it was 3000 years ago. To be sure the rubber-tired, ball-bearing buggy was superior in appearance to the ox cart of the long ago, but little better otherwise.

Then came the agency that had been sought for since the beginning of time, the gas engine—and at last man had a self-propelled and self-contained unit of his own. The lad in his teens remembers when that engine first was used in vehicle propulsion. But nobody quite foresaw the automobile's future.

Think what has been done in those few years to bring the first-class automobile within the reach of the moderate income. Ten years ago very little was known of the gas engine and vehicle construction was an entirely unknown science, except as applied to horse-drawn vehicles. Thus, you see, that in ten years the whole invention and development of the automobile took place. It began as a proposition not taken seriously by very many people, struggled on until it became the plaything of the rich and now is within reach of that great class of moderate incomes. And the story of how one may buy an automobile today for a very reasonable figure that will prove a far more serviceable car than was possible at any price five years ago, really tells the story of the whole automobile industry, which, I am told, has come to rank fourth among America's industries.

As a starter it was only natural that the crude gas engine should have been placed in a vehicle closely remembling a buggy, since our knowledge of vehicle construction was almost entirely along the line of horse-drawn affairs, which were rarely called upon to go more than ten miles an hour. That we should have embodied a hundred features of design, qualities of material and methods of construction that has been found satisfactory in the past was only natural.

It took us several years of experiments and practice in motor car building to teach us the vast difference in mechanical requirements between motor-driven and horse-drawn vehicles.

Wheels, bearings, axles, springs, etc., which had given perfect satisfaction under the requirements of the horse era were found to be of little value for the more speedy motor cars.

One of the old laws with which all of us are familiar is expressed in the formula of MV2 in which M stands for the mass and V the velocity at which the mass moves. It is easy to see that the shocks which must be sustained by wheels, axles, springs, etc., of a 400-pound carriage moving ten miles an hour present a very different and a very easy problem besides that of the 2000-pound motor car with speed possibilities of from fifty to sixty miles an hour.

When you are looking at a stripped chassis observe the pressed-steel frame very carefully and think of the frame on cars turned out in the early days of the industry.

The great progress in other lines closely allied with the motor car industry has placed an all-important part in bringing down the cost of the car. For instance the metals at the command of the motor car engineer for 1911 are far superior to anything ever dreamed of ten years ago.

The machine tool maker has done his part and the special automatic machinery of today is capable of a production of vastly more parts per day than could have been obtained from the machines of even five years ago.

Factory methods have improved so amazingly that the vastness of the change seems impossible. I remember in the early days when I was with one of the first companies that manufactured automobiles we turned out twenty little one-cylinder jobs in a week and a statement to that effect was sent to one of the trade papers. The paper wouldn't publish it until the wonderful feat had been verified by telegraph. Twenty cars a day is now considered a modest output. Think of the labor that had to be paid for by the buyers of that week's output a few years ago!

Standardization and interchangeability of parts have been recognized by the American maker as being absolutely essential and as being the only foundation upon which quantity production and low cost can be based.

During the development of the automobile vast and varied have been the materials, accessories, frills and gimcracks used on motor cars. They kept the cost up. Simplicity in design and construction has been one of the greatest aids in making a good car a possibility at a low price. Mind you, the extra materials put into a car as frills don't cost as much in themselves, as a rule, as the labor which handles them in the factory.

Simplicity, making as it does for low factory cost, permits the maker the use of better materials and insures to the user a far better motor car. The purchaser has to pay the whole bill, so if he buys a car which is not simple in design and construction, he is merely paying double price for something he does not want. And later he will have to pay again for repairs on parts which should have been left off at the start.

The improvements in ignition and carburetion have entered strongly into the perfection of the modern car. Very rarely do we see an operator tinkering at the roadside with his car. That was a common sight only three or four years ago.

And finally the knowledge we have gained of materials and the treatment of them has enabled the engineers to put staying qualities into their cars. So that as much mechanical perfection can be found in a car of moderate price as in the most expensive turnouts.

STATE PRINTER MAY SOON BE APPOINTEE

SACRAMENTO, Feb. 8. — Senator Boynton of Oroville, president pro tempore of the upper house, has in his pocket a bill ending the state printership as an elective office.

He tossed this morsel of news into the midst of a dreary rehearing in the senate judiciary committee late yesterday, and aroused an interest which a procession of lay speakers on the subject in hand seemingly had failed to stir up and which was augmented later on by the announcement that this bill is "the first" of several along like lines.

AUTO 'CHAMP' IS DISPUTED POINT

Mulford, Grant and Bruce Brown Are Each Named as the Laurel Wearer.

NEW YORK, January 27, 1911.

The annual almanacs and annual reviews of various papers, in naming the champions of the year in different lines of sport, seem to disagree as to the automobile champion of the year, Mulford, Grant and Bruce Brown being variously given the championship. This is due to the fact that the big road and track events of the year have been held under such widely varying conditions. For instance, the grand prize race at Savannah had no car restrictions beyond the requirement that the car must have a reverse gear and be propelled by a gasoline motor. The race at Fairmount park was run under the same conditions, but cars were divided into five classes. The Vanderbilt race was a free-for-all but limited to cars under 600" piston displacement. The two races at Santa Monica were divided into one for strictly stock chassis cars and a race for cars of any size or horse-power, as in the grand prize at Savannah. The Elgin race was limited to cars of 600" piston displacement but conformed strictly to stock car rules. The National Stock Chassis Road Championship title was officially awarded to the winner of this race, and it was the only event which, strictly speaking, carried with it championship honors.

The Vanderbilt race, through its past history and importance, has been looked upon as one of the greatest road races of the year, but close followers of the sport know that its importance as a championship event has declined.

Every road race of the year except the two at Santa Monica provided a different winner, so that aside from the official championship accorded to the winner of the Elgin race, it is impossible to say which event really conferred any degree of championship honors.

In any line of sport, it must be conceded, however, that no champion can become such without defeating a recognized champion. Ralph Mulford, the winner of the Elgin National Stock Chassis Road Championship, can with greater consistency lay claim to the championship honors than any other driver. If Grant, through his winning in the Alco, can claim the championship, Mulford can claim greater honors, for the reason that he defeated Grant twice during the season; once in the Elgin race and once in the grand prize at Savannah. Bruce-Brown, who has been given the championship through his single win in the grand prize race at Savannah, was defeated by Mulford in the Vanderbilt race, and Tetzlaff, the Lozier pilot in California, won two races in one day, each in better time than Bruce-Brown's time at Savannah. The free-for-all event being run under exactly the same conditions as those of the grand prize at Savannah. Zengle is the only driver of the year whom Mulford has not defeated, and Zengle only ran one race—the Fairmount Park—defeating Mulford by less than six seconds. Furthermore, Zengle was running in a class above that of the Lozier; in reality Mulford not competing in the class in which Zengle had entered.

Mulford with the Lozier bases his claim to the 1910 championship through the fact that he has defeated a majority of times every driver in the country against whom he has raced in more than one race and, furthermore, he claims the championship through the fact that he is the only driver who competed in the Elgin, Vanderbilt, Fairmount and Savannah races—every big Eastern road race—and finished in everyone either as winner or among the first five contestants.

'NEAR BEER' DRINKERS MUST DODGE THE LAW

WOODLAND, Cal., Feb. 8.—The district attorney has rendered an opinion that the sale of "near beer" was a violation of the license ordinance, and must be stopped. In reply to the question if the sale of patent medicines which contain a large percentage of alcohol was a violation of the ordinance, the district attorney expressed the opinion that the sale of these patent medicines, when taken home and used for medicinal purposes, is not prohibited by the ordinance, but when drunk on the premises where they are sold the law is violated.

OWES HER HEALTH

To Lydia E. Pinkham's Vegetable Compound

Scottville, Mich.—"I want to tell you how much good Lydia E. Pinkham's Vegetable Compound and Sanative Wash have done me. I live on a farm and have worked very hard. I am forty-five years old, and am the mother of thirteen children. Many people think it strange that I am not broken down with hard work and the care of my family, but I tell them of my good friend, your Vegetable Compound, and that there will be no backache and bearing down pains for them if they will take it as I have. I am scarcely ever without it in the house.

"I will say also that I think there is no better medicine to be found for young girls to build them up and make them strong and well. My eldest daughter has taken Lydia E. Pinkham's Vegetable Compound for painful periods and irregularity, and it has always helped her.

"I am always ready and willing to speak a good word for the Lydia E. Pinkham's Remedies. I tell every one I meet that I owe my health and happiness to these wonderful medicines." —Mrs. J. G. JOHNSON, Scottville, Mich., R.F.D. 3.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases.

DO YOU ENJOY YOUR MEALS?

One of the Most Important Questions to Consider in the Search for Happiness and Health.

The burning question to you is, "Are you getting out of life all the pleasure and the health you are entitled to?" If not, why not?

No matter whether every organ and member of your body is in a sound state of health and strength, if your stomach is in any way disordered you are not going to be "yourself." You are going to be a worried, out-of-sorts, nervous or sullen individual, whose actions will reflect your condition inside and people will naturally avoid you.

The world wants to smile and be cheerful, and unless you are cheerful and smile, at least occasionally, you will have few friends, fewer opportunities, no success, and you will go down in defeat—defeated by dyspepsia and a bad stomach.

A good and thorough digestion has a quick, wonderful reaction upon the brain. You must have noticed it many times, for the brain and stomach are as intimately connected as a needle and its thread, one can hardly be used to advantage without the other. If your stomach is slow and lazy in digesting your food, it will produce at once a slow, lazy and cloudy influence upon your brain. Mark it! If your stomach has absolutely quit work, and fermentation is poisoning your vitals as a result, surely your brain is going to be sluggish and correspondingly depressed. No one need tell you that.

But why continue to suffer all the miseries and torments that a disordered stomach brings you?

If your stomach cannot digest your food, what will? Where's the relief? Where's the cure?

Stuart's Dyspepsia Tablets are the relief and the cure. Why? Because, as all stomach troubles arise from indigestion and because one ingredient of Stuart's Dyspepsia Tablets is able to thoroughly and completely digest 3000 grains of any kind of food, doesn't it stand to reason that these little Dyspepsia Tablets are going to digest all the food and whatever food you put into your stomach? Science nowadays can digest food without having to use the stomach for it. And Stuart's Dyspepsia Tablets are the result of this scientific discovery. They digest and digest thoroughly and well, anything and everything you eat.

So, if your stomach refuses to work or can't work, and you suffer from eructations, bloat, brash, fermentation, biliousness, sour stomach, heartburn, irritation, indigestion or dyspepsia of whatever form, just take one or two of Stuart's Dyspepsia tablets, and see the difference. It doesn't cost you much to prove it. Then you can eat all you want, what you want, whenever you want, if you use these tablets, and you can look the whole world in the face with a beaming eye and you will have a cheerful spirit, a pleasant face, a vigorous body and a clear mind and memory and everything will look and taste delicious to you. That's life.

Get a package of Stuart's Dyspepsia Tablets at any drug store on earth for 50c a package.

MAYOR APPOINTS COMMITTEE

Taxpayers Will Work With City Council for Improvement.

ALAMEDA, Feb. 8.—Mayor Noy announced the following harbor committee of citizens to work in conjunction with the utilities committee of the city council to evolve a satisfactory and practical scheme of improvements for the Alameda side of Oakland harbor at the regular meeting of the city council last night: *Hermann Krusi*, J. R. Christie, C. Rhodin, George E. Plummer and City Engineer J. N. Chapman. The finance committee will devise ways and means for a municipal wharf to be built this year, as agreed upon in committee Friday.

The billboard complaint from Webster street was referred to the city attorney to hunt up the law regarding height of such dead walls. A thirty-foot double-deck billboard caused the complaint. The council agreed to submit to an advisory vote on the commission form of government.

AS TO WATER RATES.

The coming water rates were left with the finance committee.

The clerk was instructed to ask for bids for the completion of the south side sewer, the contract for the first half of the work now being well along. The park and playground commission was allowed $455 for sanitary equipment for the parks. The council endorse the Oakland armory project. The purchase of the Regal auto for the street department was confirmed. There will be sixteen election precincts for the coming city election, eight officers in each precinct, pay $5 each, poll rental $6 and pay for clerk's assistants $3. The city attorney will prepare the necessary ordinance. The police department was allowed a new desk. City Engineer Chapman was instructed to prepare plans and specifications for the new east end sewer.

COUNCIL MEETING.

At the council meeting last night it was announced that the Oakland Traction Company would establish a four-minute service commencing March 1, during the rush hours, between Oakland and Alameda. At present a seven and one-half minute service is maintained. The company is now receiving a large number of new cars and the additional rolling stock will permit of the better service being maintained.

A. W. Burns and N. Christensen applied for the city hall janitorship in case of vacancy. The applications were filed.

The proposition to purchase the Jack Hayes property in the west end for $30,000 for additional park and playground space was not acted upon, despite Councilman Probst's plea for immediate action. The proposition is to submit the project to an advisory vote in April and if the people favor the purchase to then call for a bond election. Mayor Noy said that the property had been offered to him for a less price than $30,000. The matter was referred to a committee to further investigate before final action was taken.

Wilson school's name was officially changed to Lincoln.

FAVOR LOWER HIGH SCHOOLS

Berkeley Parents Cast Ballots for Continuance of Bunker's Intermediate Plan.

BERKELEY, Feb. 8.—That the *parents* of Berkeley are in favor of continuing the new system of lower high schools introduced by Superintendent of Schools Bunker and indicate that they desire the city to issue bonds to provide buildings to house them, was shown by the result of the parents' referendum vote, which was announced at the meeting of the Board of Education last night.

On the basis of one vote to each family having one pupil in school, there were 879 votes cast, 821 being for and 58 against the plan. On the basis of one vote for each child attending school there were 1007 votes cast, 946 for and 61 against.

The Board last night ordered fire escapes installed at the Longfellow school.

NEWSPAPER MAN'S HOME GLADDENED BY BIRTH

The home of Mr. and Mrs. George G. Clarken, residing at the corner of Ricardo and Blair avenues, Piedmont, has been brightened by the arrival of a little daughter. Mrs. Clarken was Elsie Atherton Nason, one of the most popular of Berkeley's belles, and she and her husband, an Oakland newspaper man, are being showered with congratulations over her motherhood.

EAST ENDERS WANT HARBOR DREDGED

Urge a Limit to Number of Autos Carried on Ferry Boats.

ALAMEDA, Feb. 8.—The East End Improvement Club at its regular meeting last night endorsed the resolution recently passed by the North Side Improvement Club calling for the dredging of the Oakland harbor.

The committee of the federated improvement Clubs reported that it was the desire of the committee to transfer the hillside boulevard in Oakland to state jurisdiction.

The committee reported on the lecture given by Professor Gibson of the Oakland Chamber of Commerce before the federated improvement clubs when he spoke against the consolidation of the bay cities with San Francisco. The committee took no action on the issue, neither endorsing nor opposing Professor Gibson's speech.

SIX-INCH MAINS.

The committee appointed to investigate the proposition of laying six-inch water mains on Grove street reported that it had been assured by the city that the pipes would be installed. A one-inch pipe now supplies water to residents in this vicinity. The residents on High street south of San Jose avenue complain that the water pressure is insufficient, and ask that the matter be taken up with the city council.

A smoker will be given by the East End Club at Lincoln school where the evening of Monday, February 20, to celebrate the change of the name of the organization meets regularly on the school from Wilson to Lincoln. The committee in charge of the smoker is as follows: George Hofman, chairman; H. Fisher, Joseph Murray, Joseph Kelly, Fred Krumb, Alwin W. Freudendahl.

PROTEST NUISANCE.

Secretary Duncan Stevenson was instructed to inform the board of health that the Regent street fertilizer, which has been declared a nuisance, has not yet been removed by its owners.

A. A. Cunningham introduced a resolution against allowing more than four automobiles on a ferryboat at one trip. Cunningham asserts that the machines crowd the after deck, and cited as an instance the case of the tragedy on the ferryboat Berkeley, when a passenger was killed by an explosion of dynamite, and the accompanying stampede that followed the explosion. Cunningham, who was on the boat stated that if it had been necessary to lower the life boats on that occasion, that there would not have been enough room on account of the number of automobiles crowding the after deck.

The resolution was framed by Cunningham, Stevenson and J. G. Kearney.

The East End Club endorsed the resolution urging that postoffice clerks be given freedom from duty on Sunday.

WANT LAND.

A committee was appointed to request the city council to put on the ballot a resolution necessary for the bonding of the city in order to purchase the strip of land on Liberty street from High street to San Leandro bay for an addition to Lincoln park.

A rising vote was given the board of education and Councilman Krumb for having fitted up a club room in Lincoln school for the East End Club. John Elder donated 250 yards of bunting for decorating purposes. Councilman E. B. Bullock in addressing the meeting last evening congratulated it upon its large attendance and commented on the fact that it was the last improvement club to be organized in the city, and that it had grown to be one of the strongest formations the community possessed.

TORREY NOMINATED AS BLUE AND GOLD EDITOR

UNIVERSITY OF CALIFORNIA, Feb. 8.—At a meeting of the sophomore class of the University of California yesterday C. M. Torrey was nominated as editor of the Blue and Gold for the year of 1913. Torrey, since his entrance at the university in the fall of 1909, has been active in both college and class affairs. During the present year he has served on the staff of the Daily Californian in the capacity of an associate editor. Torrey registers in the college of social sciences from San Francisco. He is a member of the Phi Kappa Sigma fraternity and also of the League of the Republic and Congress debating societies.

At the second students' hour of the term yesterday the four classes met and transacted business.

University Notes

UNIVERSITY OF CALIFORNIA, Feb. 8.—President Garfield of Williams University was a guest of President Wheeler at the Faculty club yesterday afternoon. He is in Berkeley on a visit from his home in Pasadena. Garfield is the son of the late President Garfield, and was formerly a *professor* of politics in Princeton University. During his stay on the coast he intends to visit various institutions of education.

* * *

College politics is to be the subject of discussion tonight in a debate between members chosen from the Senate and Congress societies. The question, as framed, reads: "Resolved, That the system of college politics as it existed previous to the last A. S. U. C. election is better suited to our scheme of student self-government than the present 'non-political' system."

* * *

President Benjamin Ide Wheeler delivered the third lecture in his course on "American Democracy as Represented in College, School and Church," this afternoon in California hall.

Rehearsals for "Candida," the Bernard Shaw play which will be produced by the Mask and Dagger on February 23, are now being held daily under the direction of Coach Garnet Holme.

SCHOOL HOUSES AND PLAYGROUNDS ADVOCATED

Problem of Housing Pupils Engages Attention of City Club Members.

SUPT. FRANK BUNKER EXPLAINS NEW PLANS

School Bonds and Finance Discussed and Also Tou Velle Bill.

BERKELEY, Feb. 8.—The question of "school bonds and school finance," involving the problem of proper housing of the pupils of the city, was earnestly discussed at a meeting of the City club held in Unity-hall last evening. The principal address was made by Superintendent of City Schools Frank F. Bunker, who explained the needs of the various sections of the city and upheld the lower high school plan.

Superintendent Bunker said in part:

I desire to call to your attention, first, to the needs of the school department from the standpoint of schoolroom, and secondly, to bring to you notice certain significant facts and to draw therefrom conclusions which will show you how embarrassing to the board has been the problem of financing the department.

In the northwest quarter there is one unoccupied school site and three sites with buildings, namely, the Jefferson school, having four occupied rooms and four not completed; the Franklin school, having fifteen rooms all occupied, and the Columbus school with ten occupied rooms and three unoccupied. In the northeast the situation relative to rooms is this: The Oxford school has four occupied and four rooms not completed; the Hillside, four rooms, all occupied; and the Whittier school, sixteen rooms, all occupied. In the southeast quarter there is the McKinley school with twenty rooms, all occupied, the Emerson school with thirteen rooms occupied and one unoccupied; and the LeConte school with eleven rooms occupied and five unoccupied. Finally, in the southwest quarter there is the Washington school with sixteen rooms, all occupied; the Longfellow with seven rooms occupied and one unoccupied; the Lincoln school with sixteen rooms occupied and one unoccupied; and the Hawthorne school with four occupied and four not completed rooms. In summary, the present situation in respect to rooms is this: Excepting the new school the department has a total of one hundred and fifty-one completed and twelve not completed rooms. Of the completed rooms eleven are unoccupied.

HEAVY INCREASE.

"Examining the growth of school population for the past four years one finds that each year has shown an increase of about two hundred and fifty children over that of the year immediately preceding, *that is to say*, the increase in the department has been roughly, from eight to ten rooms per year. Even though the future increase is not greater than that of the preceding four years, the capacity margin of the department would be entirely exhausted within two years. However, I am confident that the department is on the eve of a much more rapid growth than that which has obtained during the past four years. Indications of the present term not only point to this, but doubtless the advertising which this city will share with other cities about the bay through the coming of the world's fair will tend to accelerate the rate. However, the net capacity just given is very misleading, for in practice it is impossible to distribute population so that every room shall be used and no school overcrowded. The Board of Education is, therefore, face to face with the problem of at once taking steps to relieve a situation which is now imminent.

WORST CONGESTION

The greatest congestion in the city is to be found at two points namely the McKinley and Washington schools. To relieve the crowded condition, due to congregating the seventh, eighth and ninth grades of the two districts at these points the board of education is forced to adopt either one or the other of two alternative plans, that is, either to build additions to each of these schools, or to select a site at the center of each of these districts, purchase the same and erect thereon a building, drawing thereto the seventh, eighth and ninth grades of the schools in their respective districts. In opposition to the first plan of relief is the fact that at the McKinley and Washington schools prices of land are now very high, furthermore, these two buildings are not well adapted to the work of the grades therein congregated, nor can they be made so even with additions.

FAVOR ALTERNATIVE.

In favor of the alternative plan is the fact that a site central to each district can be secured at moderate cost, and with buildings erected thereon could be adapted expressly to the work of the upper grades.

This alternative plan has already been presented to the board of education by interested citizens who have strongly recommended its adoption. Such a plan would give the city four lower high schools each central to its quarter of the city; a group of elementary schools contributory to each, and one upper high school at a point central to the entire city. Unquestionably such an arrangement would provide capacity for a normal increase in school attendance for a number of years to come and at points within easy distance of every resident. Such a plan, however, deserves consideration on the assumption only that the present system of school organization is a permanent one.

TRANSITION PERIOD.

For a year the transition from the old system to the new has been under way; it is hardly fair to the system to judge of it by this first year during which the transition was being effected. It is only with the present term that the plan is fully in operation. However, we have felt confident that the merits of the plan have appealed to those parents who have had children in the lower high schools and who were therefore in a position to have formed a judgment in respect to the plan.

COST OF SCHOOLS

Despite the conditions which work to increase the expense of the schools in Berkeley, the board of education has succeeded in keeping the maintenance to a reasonable figure. The cost per capita, average daily attendance, in Berkeley for 1907-1908, was $49.93, in Oakland, $49.60, in Pasadena, $49.67, in San Jose, $50.11; in Santa Barbara, $61.11, and in Stockton $58.54. The average cost for the 17 cities for the same year was $44.29.

The cost per capita for 1908-'09 is as follows. Berkeley, $49.32; Alameda, $50.53; Oakland, $43.91. For the year 1909-'10, Berkeley elementary schools cost $48.51; Oakland elementary schools $44.79; Berkeley high school, $65.5[illegible], Oakland high schools, $79.53. In summary, permit me to say:

First there is a larger proportion of the census children of Berkeley getting their education in the public schools than in any other city of the state. This increases the cost of maintenance in Berkeley as compared with other cities.

Second of the children enrolled in the schools of Berkeley a relatively large percentage are in the high school. As high school education is expensive, the cost of maintaining the department is thereby relatively increased.

Third, the city of Berkeley must raise by special tax seven-eighths of the cost of maintaining the high school, and three-elevenths of the cost of maintaining the elementary department. That is to say, she gets least help where her burden is heaviest.

Fourth, in comparison with cities of the same population and greater Berkeley's assessment roll is smallest. Her tax rate for school purposes must, therefore, be proportionately higher.

Fifth, the foregoing conditions operate to make the support of Berkeley's educational plant a relatively expensive matter. Despite the fact that the board has practiced rigid economy in the management of the schools the expense is great and always will be if efficiency be secured.

Sixth finally, it must be recognized that Berkeley can never be made a beautiful city of homes, a leader in educational thought and work, and a city forever freed from the evils of the saloon, except these things be purchased by its citizens.

PLAN PLAYGROUNDS.

Roy J. Young, president of the board of education spoke of the plans of the playground commission for bond issues for the purchase of a large central site near the high school and a considerable number of smaller playground sites in the neighborhood of the other school buildings, the central site to cost about $150,000 to $200,000, and the others a total of about $200,000. It is planned for the commission and the school board to cooperate in the management of these grounds, securing the use of the basement conveniences of the schools, and for the schools apparatus for outdoor physical culture, and for both a larger fund for supervision. The proposition for the central site would be submitted separately from the others.

The speaker strongly advocated the purchase of these grounds now, as a business proposition, rather than later, at greater cost. He spoke of the great interest excited among the children by the demonstration ground operated on California field last summer, and described the great advantages of the playground movement.

R. A. Berry, commissioner of finance and revenue, spoke of the control of finances. Maintenance of the school equipment requires about 25 per cent, he said, and the salaries of the teaching force about 75 per cent of the total current expense. The supplies, purchased in quantity by public advertisement, are charged to the different schools as used, as a whole, and in separate lines, so that waste is immediately apparent upon comparison of one school's accounts with those of others. The salaries are not higher than those paid in other cities. Any reduction would drive the best teachers elsewhere. Medical supervision has been criticised and is costly, but has done much good in sections where there is no adequate private medical examination of the children. Polytechnics and domestic economy are expensive, but were determined by vote of the people. The city has high-class facilities, and good work is done. Berkeley, which has a tax rate of 91 cents for schools, as against 75 cents for municipal purposes, is probably the only city which has a higher rate for the schools. He gave a large number of reasons why it is better to have the rates for the schools fixed by the supervisors rather than by the council.

The secretary read a brief account of the Tou Velle bill pending in the United States senate. The government now prints on stamped envelopes free of charge a return card, facilitating the return of the matter to the writer in case undelivered. This is now done by private establishments under contract with the government. It adds practically nothing to the cost of the envelopes, is a great advantage to the post office, and is done without expense to the department. There are many advantages and some profit in the sale of such envelopes. The proponents of the bill, for the benefit of numerous printing establishments, desire the work now done under one roof, at one operation, upon one order to be in future done under two roofs in two operations upon two orders to different people, and the consumer to pay the extra cost. A resolution opposing the passage of the bill was unanimously adopted.

SCORE GATHER TO URGE ANNEXATION

Few Alameda Voters at Meeting When Federation Is Proposed.

ALAMEDA, Feb. 8.—Alameda citizens gathered at Tucker Hall last evening to discuss the consolidation of Alameda and the east bay cities with San Francisco. F. W. D'Evelyn, president of the club, stated that it was not annexation or consolidation that the east bay voters wanted, but a confederation, "a growing together of nearby communities for mutual good."

About twenty voters turned out for the meeting. President D'Evelyn quoted from late figures from Greater New York, asserting that if Alameda did not desire progress and improvement, it should fight confederation, but that the community would grow as a part of San Francisco and make more strides than if it could as a separate municipality. He pointed out that Brooklyn borough and every other borough of New York had benefited by consolidation with the greater metropolis.

That the people of Alameda would vote strong for consolidation with San Francisco was expressed by George T. Wright. "The people realize what it means to them to belong to the greater municipality," said Wright. "The chief opposition in Oakland to annexation to San Francisco comes from the officials employed at the city hall, who have positions to lose by the change."

SEND TELEGRAM.

The following telegram was framed and will be sent to Assemblyman Sumner Crosby at Sacramento.

"To the Hon Sumner Crosby: At a regular meeting tonight of the Greater San Francisco Club of Alameda, representing over 1000 voters of your assembly district, it was moved, seconded and carried that Hon Sumner Crosby is hereby urged to use his best efforts to secure the passage of a bill that will permit the citizens of his district to express by ballot their individual desire in the matter of confederation. Signed, F. W. D'Evelyn, president; W. W. Cooley, secretary."

Secretary Cooley read the following list of committee appointments made by the president: Legislative committee, George T. Wright, Frank Otis, J. R. Wilson, J. L. Geary, E. K. Taylor.

Finance, C. H. White.

Exploitation, J. H. Wilkens, G. A. Leroux, F. H. Leavitt, F. H. Etter.

Publicity, J. L. Geary; boundary, F. E. Mason.

Committee to go to Sacramento to work for a Wolfe measure, F. W. D'Evelyn, W. W. Cooley.

The marriage of Miss Willa Sale and Louis Jules Gilbert was solemnized in Stockton last week at the home of the bride's sister, Mrs. Tracy Richard Plant, Rev. H. Dennison performed the ceremony. The bride was attended by Miss Mildred Jones. Mrs Gilbert is a graduate of the Alameda High School and of the University of California.

The Alameda lodge of Elks is planning a dance for the evening of February 14. It will be a valentine dance and the affair will be in the hands of the entertainment committee.

ALAMEDA BELLE TO BE HOSTESS TO 12 FRIENDS

MISS MARY MORTON, who will entertain club of girls tonight. —Webster, Photo.

ALAMEDA, Feb. 8.—Miss Mary Morton will entertain twelve friends at her home, 2256 Buena Vista avenue, this evening. The coterie of girls form a club which is active in social affairs. Miss Morton is the daughter of Mr. and Mrs. Fred Morton. She is one of the popular members of the younger set, and is a frequent hostess at her home.

Miss Morton is planning a trip to Seattle in the near future when she will be the guest of Mr. and Mrs. B. Degin. She has spent considerable time in the north and has many friends there who are already planning social gatherings to welcome her.

TO BANQUET CARNOT DEBATING TEAM SOON

UNIVERSITY OF CALIFORNIA, Feb. 8.—Arrangements for the annual banquet given in honor of the California Carnot debating team were made at a meeting of the Debating Council held yesterday afternoon. Wednesday, February 15, has been set as the date for the dinner. The place has not yet been decided upon. A committee consisting of B. B. Blake and G. C. Jensen is in charge of arrangements.

Charles Kasch, chairman of the Debating Council, will preside at the banquet. Guests of the occasion will be the team, consisting of F. M. Shipper, J. G. Sweet, T. B. Kittredge; alternate, Milton Marks and the following members of the faculty: Professor M. C. Flaherty, C. D. von Neumayer, Professor Don E. Smith, Professor R. F. Scholz, Max Thelan and Professor T. H. Reed, now secretary to Governor Johnson.

Besides the medalist, F. M. Shipper, the other two members of the team will speak. Talks will also be given by Professors Flaherty and Reed.

At yesterday's meeting, N. B. Drury was chosen as editor of the debating annual.

MEMORIAL SERVICES OF Y. M. I. THIS MONTH

ALAMEDA, Feb. 8.—Memorial services will be held by California Council, No. 24, Young Men's Institute, Wednesday morning, February 22 at 10:30 o'clock, when a requiem high mass will be celebrated for the deceased members of the institute. The memorial services will be participated in by the three councils in Oakland, the Livermore and the Point Richmond councils.

AUDITOR'S TERM MAY BE FOUR YEARS

Amendment, if Adopted, Will Give Company G. N. G. C., $50 Per Month.

ALAMEDA, Feb. 8.—Two of the four proposed charter amendments were officially adopted by the city council last night. A third was defeated and the fourth will be threshed out tonight at a special meeting. One of the amendments which it was decided to place on the ballot this spring are the one making the auditor and assessor's term four years instead of two and giving the council power to fix his salary instead of having it fixed by charter amendment.

The second amendment if carried by the voters, will allow Company G, N. G. C., $50 a month from the city treasury.

The defeated proposition was a proposal to grant the council power to issue two free liquor licenses to regularly organized clubs or lodges owning their own premises. This would permit such organization to sell liquor on the premises to members of the organization.

Such a provision would enable the council to grant the Elks, or any other applying lodge owning its own premises to sell liquor under a free license. At present all such sale is barred. No formal application of any order for the passage of such amendment was made.

The fourth amendment would cause the city to pay into the municipal lighting fund each month certain sums as per schedule of prices, for the lighting of the streets and public buildings. This would, in turn, be used by the electric light commission for operation and betterments. At present the city does not pay for its lighting, thought the electricity commission charges on paper for such service in order to enable the plant to make a full showing of its earnings.

CITY HALL PARK TO BE BEAUTIFIED

Work Begins on Area in Front of Berkeley's Municipal Building.

BERKELEY, Feb. 8. — Work began yesterday on the park area in front of the city hall, an elaborate design for which has been worked out by the office of City Engineer J. J. Jessup. Wide circular cement sidewalks, bordering plots of lawn and flower beds are being constructed, and will be completed within a week. The main approach to the main entrance from Grove street is to be 24 feet in width, and the walk running parrellel with the front of the hall will be 16 feet wide. Artistic triangular areas, one containing a drinking fountain and the other an ancient cannon belonging to the city, are to be located at the front corners of the municipal building, surrounded by cement walks. A walk from three different directions is to lead to the police station on the south end of the hall. A flagpole will be placed in the center of the main approach.

NATIONAL GUARDSMEN ENJOY A BANQUET

The commissioned and non-commissioned officers of Company A, National Guard of California, held a banquet at Pabst Cafe last evening. Speeches were made by a number present and a general good time prevailed.

Those present were: Captain C. A. Sullivan, Lieutenant W. R. Pritchard, Sergeants A. Mast, L. Keller, C. A. Nelson, R. Mast, H. Carlson, W. Parker; Corporals S. Babbitt, G. Holmes, T. Bisby, H. Wurthman, G. De Mill.

HEART---TRIBUNE'S PAGE FOR WOMEN---HOME

IN SOCIETY

THE wedding of Miss Elizabeth Stutt and Chester Ristenpart will be solemnized tonight at 8:30 o'clock in St. John's Presbyterian church on College avenue in Berkeley before several hundred invited guests, and will be beautifully appointed The edifice will be decorated in palms and a profusion of greens, while the chancel will be covered in smilax.

The bride will wear a gown of white satin with insertions of rose point lace and the folds of her wedding veil will be caught with a coronet of orange blossoms. She will carry an exquisite bouquet of orchids and lilies of the valley

Mrs J. W. Stutt will wear a gown of white satin, embroidered in gold thread, and Mrs Ristenpart, the bridegroom's mother, will be gowned in white satin veiled in blue chiffon.

Miss Ellen Downing, who will be maid of honor, will wear a delicate shade of pink satin, while three of the sextet of bridesmaids will wear pale pink chiffon cloth over satin, and three will be gowned in white Marquisette over satin. They are: Miss Nina Heilbron, Miss Mabel Lawrence, Miss Hazel Lawton, Miss Miriam McNear, Miss Margaret Witter and Miss Lucile Stutt.

Miss Annie Stevenson, a little cousin of the bride, is to be the flower girl. She will wear a pale pink frock and will carry a French basket of sweet peas and lilies of the valley.

A reception will follow the ceremony, at the home of the bride's parents, Dr. and Mrs J. W Stutt, in Bowditch street which will be decked in long stemmed pink roses and dozens of pink carnations, together with a profusion of asparagus and huckleberry.

The bride's table, at which covers will be set for eighteen, will be decorated in pink tulle and pink carnations

A large number of guests from the bay cities, and several from various nearby towns, will attend the wedding.

Miss Stutt has been one of the most widely entertained bride-elects, and her family is among the oldest and best known in Berkeley

Mr. Ristenpart is engaged in business in San Francisco and is a prominent clubman.

The couple will leave for the South on their wedding journey.

⁂

IN HONOR OF MISS TISDALE.

Mrs. Bert Scott entertained today in honor of Miss Deane Tisdale at a luncheon which was followed by a 4 o'clock tea, when a number of friends from the bay cities enjoyed an informal hour.

The Scott home in Alameda was decorated in spring flowers, daffodils and narcissus being arranged artistically throughout the rooms Luncheon covers were laid for Miss Tisdale, Miss Ruth Tisdale, Mrs. Howard Baxter, Mrs. Raymond Snowden, Mrs. Bayard Nourse.

After the menu the luncheon guests assisted the hostess in receiving her friends during the afternoon.

Mrs. Charles Lewis will compliment Miss Tisdale on Monday afternoon of next week when she will receive her friends at an informal "at home." Miss Tisdale has set her wedding date for the middle of March

⁂

MRS. MORGAN RETURNS.

Mrs. Kendall Morgan, who returned home from Seattle last Friday, is planning to entertain quite extensively later in the season.

Mrs. Morgan is a delightful hostess and has a host of friends in the smart set of the bay cities.

⁂

TO LEAVE FOR EAST.

Miss Miriam McNear and her brother, Denman McNear, will leave Friday for the Atlantic coast where they will spend several months. Mrs. McNear, who has been in San Francisco during the winter, has given up her apartments at the Granada and is planning to spend the rest of the year at her country home near Petaluma Miss McNear will be one of the bridesmaids at the wedding of Miss Elizabeth Stutt and Chester Ristenpart, which will be solemnized tonight

⁂

FAREWELL AFFAIR.

Mrs August Schilling will entertain a number of the girls of the younger set at her Lakeside residence next Wednesday afternoon where she will give an informal tea in honor of Miss Elsie Schilling and Miss Rose Kales, which will be in the nature of a farewell.

Their wide circle of friends in his city are regretting the departure from their midst of the two girls who will leave the latter part of this month for Europe.

⁂

HONORED GUEST.

Miss Margaret Witter will make Miss Florence McLean of San Francisco the honored guest on Saturday of next week when she will receive her friends at her home in Durant avenue.

⁂

SHOWER BRIDE-ELECT.

Miss Alice Heistand received a score of friends yesterday in honor of Miss Alice Phillips whose marriage to Paul Bailey is set for the middle of this month The bride-elect was showered with gifts at yesterday's "at home" and she will again be the inspiration for an affair on Saturday afternoon when Miss Ethel Perry will entertain for her.

⁂

AT MARE ISLAND.

Mrs. Duncan Gatewood and her son, Richard Duncan Gatewood, Jr., are at Mare Island again after a visit of several weeks in Alameda where they were guests, during part of her stay, of her parents, Mr. and Mrs. A. W. Pattiani.

⁂

COSMOS CLUB.

Mrs E. B. Beck entertained the members of the Cosmos club this week at luncheon, followed by a session at the card tables, bridge being the favorite game The Cosmos club is one of the oldest card organizations on this side of the bay.

⁂

MARRIED LAST EVENING.

Charles Bryan and Miss May Erma Morris were married last night at the home of the bride's parents, Mr. and Mrs. O. M. Morris, in Berkeley, before only the two families and close friends The home was effectively decorated in palms and pink and white carnations. The bride was attended by Miss Helen E. Howe.

The bridal gown was of handsome white messaline. The maid of honor wore a gown of blue silk and carried the same flowers. The four ribbon bearers, Misses Leona Morris Lillian Morris, Lucy Robinson and Mabel Edwards, were gowned respectively in green, yellow, white and pink.

The groom is a son of Mrs Mary D. Howe of Berkeley, and is construction engineer with a Salt Lake firm, where the new home will be located. He is a member of the class of '07 in the University of California

⁂

PLAN DANCE.

A large number of the younger set will gather at the Piedmont club house on Friday, February 17, for which date Miss Marion Howell has planned a dance as the pleasure of the evening.

⁂

Mrs George Dinsmore will entertain on Friday afternoon in honor of her sister, Mrs. Alan G Olsen, when she will receive her friends at a tea at her home. She will be assisted in receiving by half a dozen local matrons.

Mrs Olsen is planning to leave for Central America during the coming weeks where she will join Ensign Olsen, whose ship is in tropical waters.

⁂

HOSTS AT DANCE.

Miss Dorothy Wetmore Miss Bertha Galloway, Edwin Pillsbury and Constantine Parkins will act as hosts and hostesses at a dance which will be given on Friday evening at the Hillside club.

⁂

RETURNS HOME.

Mrs George Faulkner, who is one of the matrons who is an unusually delightful hostess, returned home today from Antioch, where she has been entertained extensively.

Mrs Beach Carter Soule has also returned from a visit of several weeks in the southern part of the State, where she has been a guest of Baroness von Tolenz.

Few Women Have Been Great Composers

PHILADELPHIA —England's paucity of opera composers has been a sore subject with the British isles from time immemorial.

So far Great Britain has produced no master who can class with Beethoven, Wagner and Brahms, nor with Bizet or Gounod

However a woman has flung herself into the breach, and may accomplish what the men have not been able to She is Mrs Adela Maddison, and an opera from her pen has just been successfully produced in Germany Before long it may have a triumphal entry into London

Women composers of opera there have been heretofore, though hardly any that would deserve to class with even second or third-rate men

Over in France Mlle Chaminade has turned out songs and piano pieces that bear the true hallmark of individuality. They are like Mlle. Chaminade, and they are unlike any other music that preceded it.

NO GREAT WOMEN COMPOSERS.

But Mlle Chaminade has never written or produced a great opera. She may do so some day, but until she does it, it is only fair to assume that she realizes there are limits to her conceptions, and that it will be as well for her fame if she does not attempt a feat at which she is pretty sure to fail.

Her case may be taken as typical While there have been distinctive feminine composers there have been no great ones, and their incursions into the operatic field have been infrequent. In a sense, the whole feminine element is in the same class as the Anglo-Saxon men—it can do fine and distinctive things, but it doesn't "class up" to great ones.

At last the situation is somewhat changed. Mrs Adela Maddison's work, "The Talisman," is full length, being based on Ludwig Fulda's play of the same name This play won the Schiller prize, but its author didn't get it, because the kaiser took one of his contrary streaks and refused to ratify the award.

Pike's Peak Head-Dress Is Now the Very Latest

LOS ANGELES.—It is here! Its arrival was noted in the Sunday church promenade and along Broadway yesterday.

"It" in this instance refers to the very latest in coiffures, the "Pike's Peak twist."

With its arrival came also additional gray hairs for the heads of theater managers.

"Ladies please remove their hats" is a slogan having no terrors for this latest hair dressing stunt Rising straight up from the center of the head in a sort of Eiffel tower effect of puffs (not the cream kind), it stands like a sentinel on guard, full fourteen inches high The man behind it at the theater might as well yield to the inevitable and sleep his money's worth, or else send the usher for a pair of stilts.

How does it look? Well, to a mere man as though it was a day's job to construct. Beginning with the natural adornment of the crown, which is bunched in the center, like a poached egg on toast, there is added a mass of purchased hair, which, twisted 'round and 'round, rises to a peak fully a foot from its foundation.

Inside somewhere, probably, is a rat, or rolling pin, to give it backbone

Such is the "Pike's Peak twist."

And it's here!

RELIGIOUS PICNIC LEADS TO STREET RIOTING

LISBON, Feb 8.—A religious picnic held despite the prohibition of the government led to a series of street conflicts today No casualties are reported in the official account, but twenty arrests were made.

A funny story gets more attention than sensible talk.

WOMEN IN THE NEWS

PLOTS TO KILL TWO SONS WITH POISON

Stockton Mother's Plan Frustrated; Alcohol Habit Blamed.

STOCKTON Feb. 8.--Addiction on the part of Mrs Vann to the drinking of alcohol is now believed to be at the bottom of the mysterious disappearance of Joseph Vann of this city and of the state of mind of his wife, who prepared some creosote with which it was her expressed intention to kill her two young sons and then to end her own life. Timely intervention on the part of Mrs. Orlando Fassett prevented the unhappy mother from carrying out her intentions.

Dr. R. B. Knight, who examined her ordered her removal to the Detention Hospital, thinking her insane, but the discovery yesterday of three empty alcohol bottles has satisfied the authorities that this habit unsettled her mind temporarily.

Mrs Fassett went to the Vann home to carry the family some food She found Mrs. Vann lying on the bed in a semi-stupor. She immediately summoned Dr. Knight, who located a glass partially filled with creosote, and, after much questioning, Mrs. Vann told of attempting to force her youngest son to drink part of the poison. She then intended to drink some herself.

Women Sue Architect

REDWOOD CITY, Feb 8.—The Redwood City Woman's Club, through its president, Mrs. C. E. Cumberson, today brought suit against Glenn Allen of San Francisco, architect of the new county courthouse for $26.50, money claimed to be due for advertising space he received in the special woman's edition of the Redwood City Democrat on last Fourth of July Ten dollars had been paid on account.

Allen is a personal friend of former District Attorney Joseph J. Bullock. On the courthouse slab bearing Allen's name is also that of J. J. O'Brien, the contractor

There is a legal question as to the right of the architect and contractor to have their names imbedded in the courthouse marble

Some one consulted District Attorney Franklin Swart and asked whether he would vigorously prosecute a body of masked men who, with a sledge hammer, smashed a certain slab. "I won't go out of my way to catch or prosecute the culprits," exclaimed that official smilingly.

Held as Smuggler

PORTLAND, Ore., Feb. 8.—A Barrett, the Oregon man so badly wanted by the local federal officers for complicity in the Alaska steamship robbery, has been captured in Salt Lake City. Secret Service Agent Steve Connell received telegraphic notice of the arrest yesterday. Both Barrett and his wife, Pearl are in custody.

A portion of the gold stolen from the strong box of the Humboldt and from the United States mail pouches is said to have been found on Barrett The rest of the bullion Barrett is suspected of having—perhaps $20,000 of it—is thought to be buried in Portland, or at least to be in the safe keeping of two suspected Portland men.

Sixty thousand dollars in pure gold stolen from the Humboldt has been lying around Portland, a white elephant on the hands of its possessors, since last September. At various times the gold has been placed in safes, in safety deposit boxes, carried around in satchels and handbags, and, when its possessors grew pinched for money, they have chopped off small pieces, here and there selling a driblet for enough to pay living expenses.

Goodwin to Tell

NEW YORK, Feb. 8.—The attorneys for Edna Goodrich announced at the conclusion of the continual hearing before Referee Thompson yesterday that all of the testimony in the suit for divorce which Miss Goodrich has brought against her husband, Nat Goodwin, had been presented, and that they rested their case in the hands of the referee. Goodwin's attorneys at the next hearing will put in their defense, and it is expected that it will not take long, as there are only a few witnesses to be summoned. The hearing, as usual, was held behind closed doors.

Mrs. Bull Dies

NEWPORT, R. I., Feb. 7.—Mrs. Bull, widow of the late Dr W. T. Bull, died here last night at Dudley Place, where she had been ill from nervous exhaustion since Christmas day. Her two sons, James G. Blaine III and William T. Bull, and the former's fiancee, Miss Marian Dow of Boston, were with her. Mrs. Bull's illness is believed to have been brought on by worry over her litigation with Harvey Wiley Corbett and John A. Qualey, with whom she invested $35,000 in asbestos stock last summer.

Girls' Athletic Field

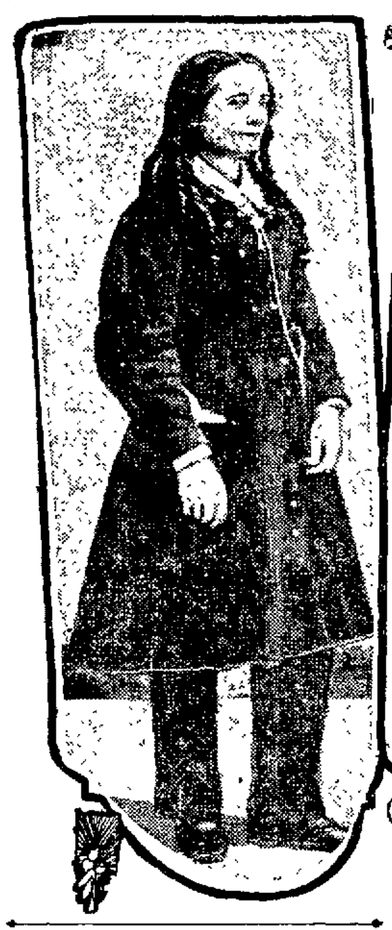
NEW YORK, Feb. 8.—A girls' athletic field on a scale that has never been before attempted is planned by the New York Park authorities for the girls' branch of the public schools Athletic League. The grandstands and equipment will cost $100,000. Land has been set aside for it by Park Commissioner Stover at Ninety-sixth street and Riverside drive.

The proposed field will accommodate 450 girls in different athletic pastimes at the same time The grounds are to be surrounded by high walls. At one end there is to be a swimming pool under cover On the floor above the pool will be a room for dances and indoor games. On the grounds will be courts for basket ball, tennis and hockey and they may be flooded in winter for skating

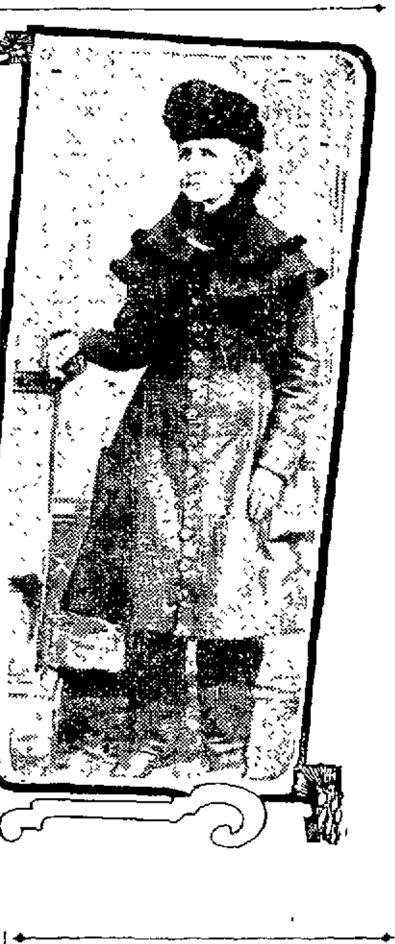
DR. COOK TO MAKE VAUDEVILLE DEBUT

NEW YORK, Feb. 8—At the Manhattan opera house next week Dr. Frederick A. Cook will make his bow to the vaudeville public for the first time. The reason given by the doctor for consenting to appear upon the vaudeville stage is that he has caused to be made a moving picture showing in a most striking way his version of what actually happened in connection with the now famous polar controversy.

Hail the Bloomer Gown



DR. MARY WALKER.



MISS FOWLER.

Two American women trousered for half a century welcome Paris edict.

NEW YORK.—Two women, one of whom, for fifty years has worn the habiliments of man, have welcomed the news from Paris that pantaloon gowns will be the prevailing fashion this season. Dr. Mary Walker is the woman pioneer in male attire and hails the prospect of company with delight.

"It's a vindication," cried the doctor. "I knew it would come and I knew I would live to see it. I have worked years and years trying to get women to dress sensibly and at last think my work has not been in vain. Educated women years ago were ready to adopt my style of dress, but they were afraid of the laughter of the men. When a woman desires to enjoy an evening entertainment, instead of putting on one of those low-necked, fleecy things, she should dress like I do—wear evening clothes identical to those of the men. She will find them more comfortable, and instead of holding her skirts with one hand, both will be free."

When asked about picture hats, Dr. Walker said: "They are perfectly unbearable. Women should have their hair cut and wear the conventional cap. To wear trousers and have long hair would be inconsistent."

Miss Fowler is one of the few women who adopted Dr. Mary Walker's ideas of dress. She is a familiar figure around Vineland, New Jersey, where she makes her home, conducting a large farm and working in the fields with her laborers.

SOME THINGS WOMEN ARE DOING

NEW YORK.—Mrs. Desmond Humphreys, who spent two months in Washington, New York and Boston, has written a book called "America Through English Eyes," in which she says America is a land of licensed rudeness, where the people are taxed heavily, ruled despotically and blackmailed systematically. She then hits the American husband, saying he is "neither better nor worse than any other husband making money for his wife and giving too little of his time for quarreling."

Her photograph of the American man is:

"When young he is so badly dressed that he affronts the critical eye. When he is middle aged he is corpulent and unhealthy looking"

CHICAGO —Mayors prospective mayors and legislators have been arraigned at a meeting of many of the leading suffragists held in honor of Miss Ida Craft of New York.

Miss Craft told of the work of the suffrage party in New York, where twenty thousand persons have joined the crusade for votes for women. A canvass of every man and woman in that city is going on in an effort to find who are for and against the question.

"We need women in our city council," said Minona S. Fitts-Jones, "and we need them in our legislature. After spending thousands of dollars for the Merriam commission we were told what we already knew—that there was graft everywhere. But conditions have not been improved. The same old grafters are sitting in their same old places.

"If women were holding these places of trust such conditions would be impossible. We need women in the legislature to teach men to work."

"American women have been fed four years on candy-coated lemons and they've sucked away at them with the enthusiasm of gurgling infants," says Mrs. Soua Loebinger, fiery editor of the American Suffraget. But she doesn't stop there. Listen:

"Pacifiers—things to keep babies quiet—are what our government has handed the women, whom it considers unfit to help make its laws.

"What is the average suffrage meeting but a tea party? The 'conservative' suffragists cajole and plead and persuade when they should demand. We can only prove we mean business by militant methods.

"The battle is practically won in England, and why? Simply because it's been a battle, not a tea party. Unwomanly? Why, winning itself is unwomanly. The womanly woman always loses whether the game is love or cards or else she cheats. Bernard Shaw compared the womanly woman to a parrot in a gilded cage Our suffragists should do a little more squawking and beating about the cage."

It is reported that Governor Wilson of New Jersey confided to some friends his belief that he is a politician now. Also we have known men to declare themselves poker players after brief experience.—Albany Journal.

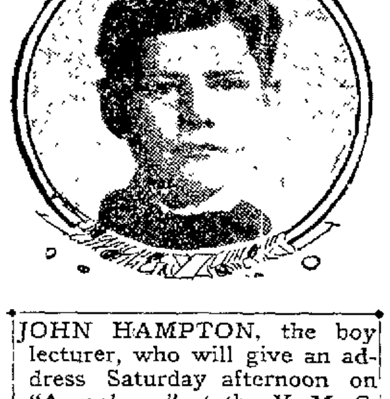
YOUNG ORATOR TO ADDRESS Y. M. C. A. AEROPLANE CLUB



JOHN HAMPTON, the boy lecturer, who will give an address Saturday afternoon on "Aeroplanes" at the Y. M. C. A. —Webster, Photo

John Hampton, a thirteen-year-old pupil attending the Piedmont school, who has made a study of aeroplanes will address the newly formed Aero club of the boys department of the Young Men's Christian Association Saturday afternoon, when the members of the society will gather for the first meeting of the organization

While abroad last year young Hampton studied the aeroplane and attended a number of the aviation meets in Paris. He met the celebrated aviators and conversed with them regarding the different instruments in which the birdmen soared. He aspires to be one a builder of airships and has frequently expressed a desire to build one for his playmates. He has inventive genius.

Cole School Pupils to Be Y. M. C. A. Guests

Through the courtesy of the officers of the Young Men's Christian Association, the boys of the majority of the schools of this city have had an opportunity to view the interior of the new structure, which is located at the corner of Twenty-first and Telegraph avenue.

LUCKLESS FRESHMEN TOIL FOR THEIR SUPERIORS

"Let Freshie do the work, do the work, do the, etc.."

They didn't sing the parody, yesterday, those upper classmen of the Oakland High School who were in on the scheme, but they carried it out word for word, and the luckless Freshmen did the work.

With their coats turned, trousers rolled up to the knees and armed, soldier-like, with shovels, the "babies" were marched to the track in Market street and there ordered to make sundry improvements that were needed

Money isn't found between the leaves of the school books and it is beneath the dignity of an upperclassman to work. Therefore "it was up" to the freshman, and nobly he responded The members of the infant class were captured as they made an exit from the building, costumed properly and armed with implements of toil Then they were marched lock step to the athletic field

And to cap the day's work, despite weary muscles the first year men ran off a relay to amuse their superiors. Among those who obeyed the dictators were

Donald Stewart, Harrington, Cooper, Hill, Kessler, Crawford, Davis, Manheim, McHenry, Mercereau, Cooper Gillick, Foote, Sanborn Jordan, Waterhouse, Denison, Russel, Gladie, Greenman, and Percy Von Vliet

Aegis Makes First Appearance at High

One of the most interesting editions of the Aegis, the official paper of the Oakland High School, was circulated for the first time this term yesterday morning. Since the opening of the school the students have anxiously awaited the publication which gives an account of the progress in the different clubs of the high school and contains two prize stories

"His Nerve," which was awarded the first prize was written by Billy Quinn and George Condion of the class of 1911. The second was given to Ellery Stone for his detective story entitled, "The Eastham Case" Both the stories were on the style of the A. Conan Doyle detective novels

Lincoln's Birthday to Be Celebrated

In commemoration of the birthday of Abraham Lincoln, the public schools of this city will be closed Monday afternoon. According to an announcement made by superintendent of schools McClymonds, patriotic exercises will be held in the morning up to 11:15 and at the close of the programs, the classes will be dismissed

On Friday afternoon, special ceremonies will be held in the school of Piedmont, where a bronze bust of Lincoln will be unveiled. The national anthems which will be sung by the boys and girls, will give dignity to the occasion. The regular flag salute ceremony will be given by the children.

ASSEMBLYMAN SMITH URGES DRASTIC LAWS AGAINST UNDESIRABLE CITIZENS

LEGAL MESHES CLOSE ABOUT POISONER

Witnesses Tell of Incriminating Statements Made by Dr. Pantchenko.

Russian Accused of Bouturlin Murder Has Very Bad Day in Court.

ST. PETERSBURG, Feb 8. — Three witnesses testified today that Dr. Pantchenko, accused of having poisoned Count Vassili Bouturlin, had told them of his hopes of sudden wealth. A fellow passenger with the doctor on the trip to Vilna swore that he heard a conference in French between Pantchenko and Count Patrick O'Brien De Lassy at a hotel in Vilna and saw money passed between them. The former told the witness that he was soon to receive $7000.

Another man who had gone security for some of the defendant's bills said Pantchenko told him that he was soon to become rich and only needed to "expedite" a certain patient.

A woman witness testified that Pantchenko told her of the proposed elimination of one or two heirs of a certain millionaire, adding that the affair would bring him several hundred thousand roubles.

De Lassy is charged with having employed Pantchenko to murder Bouturlin.

BIG VESSEL RUNS ASHORE IN STORM

Liner Victoria Grounds; Passengers Are All Taken Off Safely.

CORDOVA, Alaska, Feb. 8.—The steel steamship Victoria of the Alaska Steamship Company went on the rocks on Hinchinbrook island during a thick snowstorm last night. The Victoria, which was carrying passengers and freight from Seattle, hung on the rocks a short time, when the rising tide lifted her off.

A large hole was crushed in her bow and she made water rapidly, but the forward bulkhead held and Captain Davis at once crowded on all steam and headed the damaged vessel for Nuchuck bay, where she arrived late tonight.

As soon as the Victoria struck the rocks wireless dispatches were sent out. These were picked up by the navy wireless station here and by the operator on the steamer Bertha of the Alaska Coast Company's fleet. The Bertha was only ten miles from the Victoria and hurried at once to the latter's assistance.

Wireless reports received at the navy station here say that the Victoria is making water fast. Captain Davis, fearful that the pressure of the water in the forward hold will burst the bulkhead and sink the ship, transferred the passengers and mail to the Bertha, which proceeded to Cordova after accompanying the Victoria to Nuchuck bay.

The last report received here said that the water in the Victoria's hold was four feet deep.

Hinchinbrook Island is about a mile inside Hinchinbrook lighthouse, at the entrance to Prince William sound. A furious snowstorm made it impossible to see the light and the snow muffled the sound of the foghorn. Those on the Victoria did not know the peril of their position until a moment before the ship struck, when the rocky island loomed out of the snow directly ahead.

SOUTH SIDE SEWER NEAR COMPLETION

ALAMEDA, Feb. 8.—Work on the first section of the southside sewer will be completed within two weeks. The excavation has been made up to Bay street and the placing of the pipe will soon be completed.

The second section will extend from Bay to Grand streets. Bids will be advertised for the contract for the remainder of the work within a short time.

ELOPING BRIDEGROOM IS IN POLICE COURT

ALAMEDA, Feb 8.—John Carlson, E. Engvick and E. P. Connelly were taken into custody by Policemen Jacoby, Teaspern and Huff last evening for having no light on their machines. Carlson was riding a motorcycle without a tail light. The violators of the law were each fined $5 by Judge R. B. Tappan this morning.

Connelly, who is a plasterer, is a bridegroom of two weeks. He eloped and married Miss Evelyn Knepler.

SEMINOLE CLUB WILL GIVE AN ATTRACTIVE BALMASQUE

Oakland debutantes who will attend Seminole Club's Bal Masque.

All arrangements have been completed for the masque ball to be given by the Seminole Club, Friday evening, February 10 in Maple Hall. The entertainment committee has everything in readiness for the event, which will go to make it one of the most enjoyable the Seminole Club has given.

The affairs given by the club have always been very enjoyable and well attended. The club is very popular, and has a closed membership of sixty young men of this side of the bay. Many dancing parties have been given by the organization, but the coming event will be its first masque ball. Many invitations have been asked for personally and by letter and the members are looking forward to a large attendance. The club has been successful in the past with many dances and entertainments, including yachting parties, theater parties, ladies' nights and picnic parties.

The apartments of the Seminole Club on the lower floor of Maple hall will be open to guests on the evening of the dance, and the members will take pride in showing the beautiful rooms where so many pretty affairs have taken place.

BEAUTIFUL DECORATIONS.

The ball room will be decorated with the gold and silver pennants of the club, and also with large center ten balls, large colored electric lights, with the shade of the club's colors, chrysanthemums being used for the main part of the decorations.

The grand march will be led by Mr. Eugene Van Antwerp and Miss Ann Herbert, assisted by the members of the club.

The march will be in the shape of an arrowhead, the emblem of the club.

Many members of the Oakland clubs and San Francisco clubs will be in attendance, including a delegation from the Setewa Club, La Tre Joli Club, Le Beaux Monde Club of Oakland, and the California Grays, Waikiki Club, Sphinx Club, Spartan Club, Le Debonair Club and the L'Allegro Club of San Francisco.

Dancing will commence at 8.30 o'clock, continuing until 11, then unmasking and dancing to be continued until midnight.

An eight-piece orchestra will furnish the music. Refreshments will be served in the ballroom and also in the clubrooms.

POLICE LOOKING FOR DESERTING SPOUSE

ALAMEDA, Feb 8—The local police have been notified to be on the lookout for R. M. Early of 701½ Central avenue, San Francisco, who is said by his wife to have deserted her, taking with him their three-year-old daughter. Early is known to have crossed the bay last night, and is thought by his wife to be in hiding in Oakland, Berkeley or Alameda.

FIREMEN MAKE SPECTACULAR RESCUE

Plucky Fighters Save Two Men Who Were Trapped by Flames.

Crowds Cheer the Life Savers When Victims Are Landed Safely.

NEW YORK, Feb. 8 — Firemen achieved spectacular rescues of two imperilled clothing workers from upper stories of a big factory building, in Greenwich street today, while flames were bursting out on all sides of them.

Singularly enough the men imperilled were in exactly similar positions, one on the fifth and the other on the sixth floor of the burning structure.

Twining their legs about the fire escape railings of the next door building, which ran close to the factory building wall, two firemen reached over and joined hands with the two workmen as the latter mounted the window edges and extended themselves to the limit.

Both dangled in midair for a moment, but were finally safely landed on the fire escapes.

Crowds on the streets cheered the rescuers, Engine Captain O'Keefe and Truck Captain Philip Harmon.

The rescued men had been sleeping in the shops where they worked and were trapped by the flames. The fire burned out three upper floors of the building.

BERKELEY MILK WAGON DESTROYED

Strike Sympathizers Attack Vehicle and Destroy Contents.

While in this city all deliveries of milk are being made by the Dealers' Association and the recent strike of the old Milk Drivers' Union is considered by the officials as practically ended, in Berkeley there was trouble last night when a trio of sympathizers attacked a wagon belonging to the Berkeley farm dairy, drove it to the top of the Vine street hill and there destroyed its contents, turned the horse loose and cut the harness.

Manager Heath was notified of the attack and at once proceeded to the vicinity, where with the help of officers he succeeded in capturing W. S. Hambleton of 637 Thirtieth street. The man was taken to the Berkeley station and there held pending an investigation.

The trouble was the first that has occurred for a week and is looked upon more as the outcome of personal spite against the Berkeley farm creamery than through any loyalty to the old union.

It was stated today that a number of former employes who went out on strike more than a week ago have made application to be taken back on their old jobs, while at a meeting of the Brotherhood of Teamsters held last night to consider the matter of striking through sympathy it was decided to appropriate the sum of $200 towards the benefit of the old Milk Drivers' Union and those who have retained their membership therein.

A denial that the Pinkerton patrol was connected in any way with the milk drivers' strike was made this morning by Lieutenant N. Gillmann.

SMITH DIVORCE CASE UNDER VEIL

Court Commissioner to Hear Testimony in Case of Society Couple.

SAN FRANCISCO, Feb. 8.—Testimony was ordered taken before J. T. Tyler, specially appointed court commissioner, by Superior Judge Van Nostrand this morning in the divorce suit instituted by Emma Burdell Smith, the wife of Edward V. Smith, president of the Eccles & Smith Company, railroad supplies, of 71 First street, who resides at the St. Francis hotel.

The charge being pressed by the wife in her efforts to obtain a separation is desertion, and the appointment of a commissioner was asked in order to avoid publicity.

It is understood that there will be no defense on the part of Smith, who is reputed to be worth approximately $250,000, and as near as can be learned the property settlement has been made out of court. Although no definite facts could be had regarding the arrangements, it is understood that Mrs. Smith is to get $50,000.

FRIENDS JOIN IN BIRTHDAY CELEBRATION

BERKELEY, Feb 8.—Judge A. C. Ruggles celebrated his 80th birthday on January 27. He and his four children met at the home of Arthur F. Steiner in Berkeley. They had luncheon together and enjoyed a very pleasant afternoon.

The table was decorated with pink rose buds, lilies-of-the-valley and maiden-hair ferns. The Judge is an unusually well-preserved man for his age, is a great reader and keeps up with the times. His children are Emma S. Rugg, Geo. W. Ruggles, Lillie M. Steiner and Zilpha M. Jenkins.

REBELS OCCUPY HONDURAS CITY

General Lee Christmas and Men Take Up Quarters in Puerto Cortez.

Revolutionists and President Davila Agree to Peace Negotiations.

PUERTO CORTEZ, Feb 8.—The revolutionary army under Gen. Christmas formally occupied Puerto Cortez late yesterday. Several hundred revolutionists were landed from schooners and marched through the streets to the Cuartel recently abandoned by the government forces.

This puts into effect the armistice between President Davila and his revolutionary opponent, Bonilla.

The revolutionists scored first victory in the peace negotiations inaugurated by the United States. As a condition to the armistice proposal, General Bonilla demanded that he be permitted to occupy Puerto Cortez, which the government troops evacuated a week ago when it became known that the revolutionists were preparing to attack the port.

FORCES WITHDRAWN.

After communicating with the State Department at Washington, Commander Davis of the cruiser Tacoma notified General Christmas that the international forces would withdraw and deliver to him the control of the port. An hour later the American bluejackets, who have patrolled the place since its evacuation, were returned to the Tacoma and the Brilliant. The peace negotiations aboard the Tacoma will now be begun in earnest.

General Manuel Bonilla, who is expected to arrive from Ceiba tonight, and Maximo Rivaro, minister general of the provisional government, will represent the revolutionists. President Davila will be represented by General Rosales and a former vice-president of the republic and Dr Barahena, former Honduran minister to Guatemala.

PERFECT ORDER.

Perfect order is being maintained here where the cause of the revolutionists is in popular favor. San Pedro Sula, which was evacuated by the government forces last week will remain in charge of the American and British forces as a sort of neutral zone.

WASHINGTON, Feb 8—President Davila of Honduras and General Bonilla, his revolutionary opponent, have agreed to an armistice. This information was received in telegrams from Puerto Cortez and Tegucigalpa.

FAMILY HAVE A NARROW ESCAPE

Barely Get Out of Burning Home With Their Lives.

BERKELEY, Feb 8.—Mr. and Mrs. J. Holland and their infant child had a narrow escape from their burning home, which was partially destroyed by fire at 4:45 o'clock this morning. The family was asleep when the fire broke out in the kitchen from clothing which became ignited over the stove.

Holland turned in a still alarm and proceeded to take his wife and child to safety, later removing most of their furniture. The fire department arrived in time to save a large portion of the building. The loss on the house was $500, covered by insurance. The residence is the property of Mrs. A. Connors and is located at Third and Harrison street, West Berkeley.

SENTENCE SUSPENDED IN CASE OF VAGRANT

ALAMEDA, Feb 8.—H. W. Burke was arrested on a charge of vagrancy on complaint of the Tacoma Beer Company, which telephoned the police last night that tramps were sleeping in the warehouses on the marsh. Burke was sentenced to thirty days in jail this morning and the commitment withheld by the court.

SOLON'S PLAN GOVERNOR'S CABINET

Highest Officers in State to Be Appointive if Bill Is Put Through.

Changes in Line of Shorter Ballot Proposed by Boynton and Strobridge.

SACRAMENTO, Feb. 8.—Bills and constitutional amendments making appointive instead of elective the offices of Secretary of State, attorney general, state treasurer, controller, surveyor general, clerk of Supreme Court, superintendent of public instruction and state printer were introduced in the Senate today by Senators Boynton and Strobridge. They are in line with the shorter ballot plank of the Republican platform at the fall elections, and if passed will not affect the present incumbents in any way. The next Governor, however, under their provisions would be able to surround himself with a cabinet of his own appointing, instead of a collection of elective officers.

"I am in favor of the shorter ballot plan," said Governor Johnson, "but I wish it to be made plain that these bills would not effect the present administration."

It became known today that the administration bill for consolidation of the state building and loan commission with the banking department, will meet opposition, which intends to center itself around a bill reorganizing the building and loan commission, but leaving it separate from the banking commission.

PASS AMENDMENT.

The Senate passed, with small debate, Senator Boynton's constitutional amendment providing that criminal cases shall not be reversed for errors except where such errors are held to have caused a miscarriage of justice. Most of the time of the morning session in the upper house was taken up by a long discussion over Senator Gates' constitutional amendment providing for the initiative and referendum. It finally was put over until tomorrow to allow several senators to prepare amendments to it.

A bill by Senator Birdsall for the protection of trademarks and bottles and other containers used for olive oil, was the only one passed at the Senate's morning session.

OTHER BILLS.

Another bill introduced was the following:

Providing that expense accounts for fugitives from justice shall not be allowed unless the fugitive is brought back. —Thompson.

Making it a misdemeanor to sell alcoholic drinks within a mile of the University of California at Berkeley or the University farm at Davis, or a mile and a half of any soldiers' or sailors' home or any state hospital, or within half a mile of any state prison or within 1900 feet of any reformatory—Boynton.

A series of bills classifying savings banks and modifying existing regulations concerning them were introduced by Senator Tyrrel.

URGE CONGRESS.

The assembly passed a resolution by Assemblyman Hall of Bakersfield today urging Congress to enact laws which will interpret uncertainties in the laws under which oil claims are taken, and which will in general, encourage the mining industry by making easier the taking up of all oil land.

"Development of the oil regions is now hindered," said Hall, "and business in these districts generally injured on account of a number of opinions of the department of the interior reversing long lines of precedents and leaving the laws governing oil lands in confusion and uncertainty."

Assemblyman Kennedy, who introduced a bill prohibiting the wearing of exposed hat pins, brought with him to the Assembly today a large collections of hat pins, some of which, he says, were taken from women by men who had been stabbed.

STRICT ALIEN LAWS URGED BY SMITH

Oakland Assemblyman Calls Attention to Urgency of Their Need.

Says Country Faces Problem of Absorbing Questionable Foreigners.

SACRAMENTO, Feb. 8.—A resolution declaring that more strict immigration laws are needed, and requesting California Senators and Congressmen to urge the passage of such laws, was introduced in the Assembly today by Assemblyman Smith of Oakland. Mr. Smith points out the increasing difficulty of conserving natural resources with the steady additions to the country's population and declares that the standard of American nationality is lowered by the alien strains and that American workers are being displaced by foreigners. The resolution in full is as follows:

ALIENS ARE CROWDING.

"Whereas the natural resources of our country belong first and by inherent right to our native born citizenship, and

"Whereas the conservation of these resources is becoming yearly more difficult with the tremendous increase in native and foreign born population, and

"Whereas, the country faces the problem of assimilating many hundreds of thousands of aliens, many of whom are of questionable fitness for citizenship, and

"Whereas, the industrial and social relations of these two populations demand either assimilation of one by the other or a fixed and equable adjustment of such relations, and

ALIENS DISPLACE NATIVES.

"Whereas, there is a constantly increasing number of native born citizens engaged in various occupations being displaced by aliens, and

"Whereas, scientific research shows that the infusion of this lower alien strain tends to lower the standard of American nationality, and

"Whereas, the immigration laws on our statute books have been very liberally construed with the result that there has been but slight check placed upon the influx of aliens, therefore

DECENT ELEMENT WELCOMED.

"Be it resolved, that while we welcome to our shores all immigrants of such mental and moral equipment as will tend to elevate instead of lower the standard of our industrial population and who come with bona-fide intentions of becoming citizens of our country, we deplore the addition to our population of a vast unassimilable element of doubtful fitness for citizenship; and further

"Be it resolved by the Assembly and Senate jointly, that our Senators in Congress be instructed, and our Representatives be required to use their best efforts to bring about the enactment of such laws and treaties as will best serve the purposes indicated in this resolution, with a view to the enactment of more strict immigration laws."

Senator Bailey advises the youth of the country to "get back to the hoe," but doesn't explain why he left it.—Atlanta Constitution.

ALL HIGH SCHOOL FRATS UNDER BAN

Nation-Wide Movement Started in New York for Their Abolition.

NEW YORK, Feb. 8.—A nation-wide movement for the abolishment of Greek letter fraternities and sororities in high schools has been started by the Board of Superintendents of the New York schools. Their recommendation is based on reports received from school superintendents in twenty-seven of the chief cities of the country, all but one of which expressed disapproval.

New York superintendents are of the opinion that they are harmful to the pupils.

Above all, fraternities in the high schools are condemned as "encouraging an unwholesome spirit of secrecy among pupils at a time of life when it is most necessary that there shall be the frankest and most unreserved confidence between parent and children."

It is explained that the strictures made by the committee against high school fraternities are based largely on the youth of the pupils who form the membership, and do not apply equally to college fraternities. As a rule, it is said such high school fraternities merely have the superficial and not the fundamental traits of college fraternities, perverting these into snobbishness and dominating attitude towards pupils outside of the fraternities.

There are now fifty fraternities in the high schools of this city, all of which will be abolished if the Board of Education approves the report of the superintendents.

URGE TAFT TO DENY RIGHT TO TAP TAHOE

AUBURN, Cal., Feb. 8.—Resolutions urging President Taft not to permit the tapping of Lake Tahoe on the Nevada side by the Truckee General Electric Company were passed yesterday by the Placer County Board of Supervisors, the Auburn Chamber of Commerce and the Auburn city Trustees. The government at Washington has now under consideration a contract giving the Truckee company this power.

Half of the lake is in Placer county, and, if the lake is tapped as proposed, the county, it is claimed, will suffer great injury.

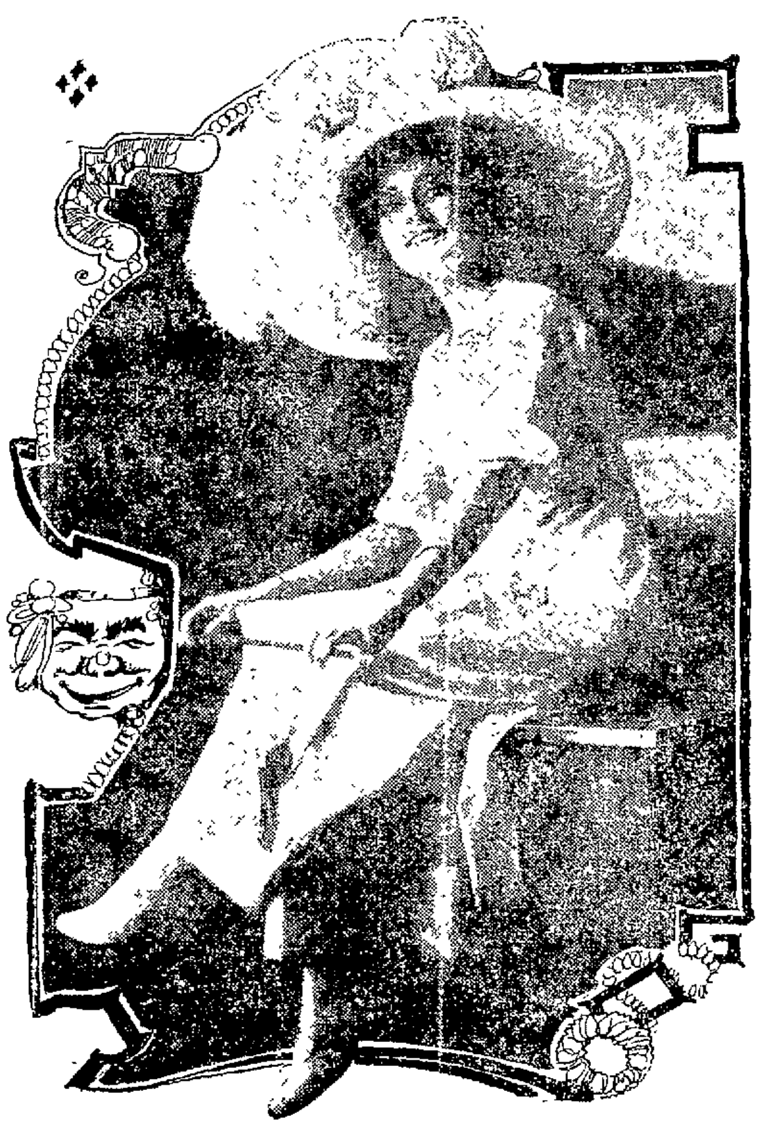
OAKLAND GIRL WEARS NEW HAREM SKIRT AT ORPHEUM



RAMONA RADCLIFFE in her new "Harem" skirt at Oakland Orpheum. —Bushnell, Photo.

And now it is the "Harem" skirt!

Paris is responsible for the latest sensation in skirts, just as it was responsible for the "Sheath" skirt and the "Hobble" skirt.

Over at the Oakland Orpheum Ramona Radcliffe is wearing one of the "Harem" articles, and incidentally creating a sensation with it.

Miss Radcliffe is an Oakland girl, as everybody knows, who is making her debut in vaudeville this week. Along toward the end of her act she dons one of these "Harem" skirt affairs and comes out before the footlights, a bewitching, bewildering dainty mass arrayed in what seems to be white satin bloomers, over which are draped white satin panels, which may be intended to conceal the bifurcation, but which really aggravates it.

Miss Radcliffe carries a dainty cane and is topped off with a magnificent millinery confection adorned with delightful lavender plumes. The entire effect is startling, but decidedly pleasing.

Whether it is because of Miss Radcliffe's dainty femininity and charming style, or any other reason, it is a fact that the "Harem" skirt, as Miss Radcliffe wears it, is most charming. As she glides back and forth on the stage, arrayed in this latest Paris skirt, there are all kinds of "Ohs" and "Ahs" heard, which indicate the intense interest the feminine mind takes in the clothes. That is not to say that the interest is exclusively feminine, for it is observed few men in the audience go out to get a drink while the "Harem" skirt is being displayed.

While wearing this "Harem" skirt Miss Ramona sings what is regarded as her best number—"Why Can't I Make a Hit?" topping it off with a clever verse which alludes to the utter failure of New Orleans to make a hit in Washington during the late unpleasantness at the capital.

SHANGHAIED SAILOR ACCUSES RUNNER

Louis Shapiro Declares He Was Forced Aboard Ship by Armed Man.

PORTLAND, Feb. 8.—Shanghaied aboard the Norwegian tramp Titania at San Francisco September 1, 1910, in daylight and forced to do the bidding of a sailor boarding house runner at the point of a revolver is the experience set forth in an affidavit sworn to by Louis Shapiro of 326 Arthur street, this city, which is made the subject of an inquiry started by officials of the department of commerce and labor.

Shapiro avers that he was standing on a San Francisco dock, watching an incoming steamer, when he was approached by the runner and asked if he didn't wish to go to sea. He replied that he harbored no such desire, whereupon the runner drew a revolver and pointed it at him, threatening to kill him if he resisted.

TAKEN ON SHIP.

He was marched aboard the Titania, which was cleared for Melbourne, Australia. He reached the latter port October 13. He says he informed the master of his predicament, and the latter said that he would not have shipped him had he been told that the voyage was against his will.

For his services as a sailor, he sets forth that he was remunerated in the sum of $20, less $10 deducted as his "advance," or the fee paid the runner for producing him. The affidavit was sworn to in the presence of E. Verne Richardson, vice-consul general of the United States at Sydney, Australia, and forwarded to the State Department. It was accompanied here today by a communication from Commissioner Chamberlain of the bureau of navigation of the Department of Commerce and labor, who stated that efforts made at San Francisco to reach the bottom of the matter had failed.

SCHWAB BUILDS BIG COKE PLANT IN BERLIN

LONDON, Feb. 8.—Charles N. Schwab, who is in London, after four weeks' visit to Paris, Berlin and the Riviera, last night said: "My principal business has been in Berlin, where, with German capital, I am having constructed a huge coke plant, costing $5,000,000, to supply the Bethlehem steel works. I myself have been interested in the plans and designs for the new plant.

"I am in favor of the new tariff arrangement between America and Canada, which are separated only by a thin imaginary line, their labor and other conditions being alike. The Senate is bound to ratify the treaty because it is a proper and common sense proceeding. The bargain seems fair on both sides. This is my honest and unbiased opinion.

"I just missed Saturday's steamer, but will sail on the Mauretania."

HONOR LINCOLN.

WASHINGTON, Feb. 8.—The McCall bill, creating a commission to determine on a suitable memorial to Abraham Lincoln in this city, with a maximum appropriation of $50,000 for the use of the commission, was passed by the House. The money for the memorial was raised through contributions from former slaves.

COUNCIL PROTEST CONTROL BOARD

Los Angeles Declares There Is Harm in Proposed Legislation.

LOS ANGELES, Feb. 8.—The Los Angeles City Council adopted a resolution last night directed against the proposed creation of a State Board of Public Utilities as provided by the Assembly constitutional amendment No. 6.

The members of the Los Angeles delegation in the state legislature are requested to oppose the measure.

The resolution declares that the act would annul all power of Councils and Boards of Supervisors to regulate public utilities or to recommend any use of the physical properties of the corporations.

T. E. Gibbon, one of the framers of the resolution, said the proposed law is so broad that the state commission would have the right to fix the rates this city could charge for its Owens river water, its harbor facilities or any municipal project the city might want to engage.

Forty-Five Years of Satisfactory Service

¶ An enviable record—a record that any public service corporation may be justly proud of is that of the Oakland Gas, Light and Heat Company. Oakland was hardly on the map when the company came into existence in 1866. The business of furnishing gas to the small community known as Oakland was hardly a profitable one. But the men to whom the Oakland Gas, Light and Heat Company owes its existence were big enough to look into the future and sincere enough to back their prophecies by hard cash.

¶ They were right. Alameda county grew and the enterprise they founded yielded a fair profit on their investment. Today the company represents an investment of $10,000,000. But its biggest asset is the good will of every consumer, earned by a conscientious endeavor to serve the public. We want every consumer to know that we consider it our duty to serve him to the best of our ability and at a price that is fair. This policy has been the secret of our success; it must be the chief source of future growth and we have the same confidence in the future of Alameda county today as we had 45 years ago.

"MURDERED" MAN DENIES HIS DEATH

Bricklayer Declares Coroner's Verdict Is Slightly Off Color.

ALBUQUERQUE, N. M., Feb. 8.—Half an hour after a coroner's jury had declared him the probable victim of a murder and had turned the charred body supposed to be his over to an undertaker, Frank Lundberg, a bricklayer, appeared to contradict reports of his death.

A second inquest was held at which it was determined that the body was that of Gustav Weiden, a watchman at the federal building here, with whom Lundberg lived and who was believed to be responsible for Lundberg's supposed death.

The men lived together in a tent. Following a quarrel between them, the tent was destroyed by fire Sunday night. In the debris a corpse was found.

Lundberg established an alibi and the coroner's jury found that Weiden came to his death in a fire of unknown origin.

BIG ROOSEVELT DAM SOON READY FOR USE

WASHINGTON, Feb. 8.—The Roosevelt dam, part of the Salt river irrigation project, Arizona, has been completed and will be opened March 10. According to a statement issued by the reclamation service yesterday the last stone was placed in position in the parapet walls on February 5. The exercises in connection with the opening will continue three days. Former President Roosevelt will be present.

The dam is 284 feet high. It is 1080 feet long on top, covered by a twenty-foot roadway. The waters will be used to irrigate more than 200,000 acres near Phoenix, Ariz.

MARK TWAIN'S LASH WITHDRAWN FROM SALE

CHAMPION'S FATE WITH FANS RESTS WITH THE SHOWING MADE TONIGHT

Wheelmen Have Good Card for Their Next Meet; "Lil' Artha" Is Due to Arrive Here Tomorrow to Take a Good Long Rest

By EDDIE SMITH.

After five months' idleness, forced on him through the breaking of his left arm, Ad Wolgast will make his reappearance in the boxing ring tonight at Philadelphia. Opposed to Wolgast will be as tough a trial horse as could be chosen for the champion, and if he gets away with the plum tonight, I for one will need no further proof that the Cadillac German has not gone back during the five months he has been on the shelf.

Wolgast broke his arm in a bout with Tommy McFarland at Fond du Lac in a ten-round contest. Like many other champions, Wolgast looked upon the match with McFarland as an easy affair that required little or no attention in the matter of training.

After a few rounds had gone by the champion found that he was growing tired and that the young easy mark was still plodding along in a rather easy manner.

Had to Make Good Quick

Realizing that he had to make some sort of a showing against the second-rater, Wolgast turned loose with a determination to end the battle. He tried every punch he knew and few that were invented for the occasion. One of the new inventions went wrong and the result was the broken arm. From that time on Wolgast has had to lay off from his work, and to his credit let it be said he stuck to the layoff in the face of some severe censure until such time as he was positive that his arm had entirely mended.

During the lay-off many of the scribes insinuated that Wolgast was afraid of the first rank light weights and that he was 'shamming about waiting for his arm to heal.

ANSWERS THE CRITICS.

The fact that the little German has accepted a match with Knockout Brown the first time out, however, makes this accusation look silly. Brown is a tough bird for any light weight to handle and in a six-round contest such as the one of tonight, he is very likely to show up strong. Pitted against a man who boxes in the regulation style of Queensberry champions Wolgast would not have much trouble sizing his man up for after a few rounds he would know his man's every move and could go to work accordingly.

This is not the case with Brown, however. He is always doing some unlooked-for thing at just the time he shouldn't do it and in this manner he has been able to keep the great majority of the eastern light weights busy.

IS PUZZLING BOXER.

When Brown advances for the start of the contest he does so with his right hard out in front of him, instead of the left. Now if Brown would only box continuously in this position he would be a rather easy man to beat, but he no sooner starts than most any old hand is liable to be out in front of him, and coupled with this mixed-up style of milling he has a punch that has caused him to be the much-feared light weight of the Eastern cities.

Tom Jones, manager for Wolgast, has sent word to the coast that Wolgast is in great condition and that his arm is not bothering him in the least. This fact does away with the excuse of poor condition if the battle goes against the champion. If Wolgast is the victor in the six-round battle of tonight he will accept one more engagement in the East and then come to the coast to take George Memsic on in a twenty-round affair at Los Angeles.

WHEELMEN'S CARD.

The Oakland Wheelmen Club, through its matchmaker, announce the following list of six-round events for their next show to be held on the evening of February 15. Johnnie McCarthy vs Morrie Bloom, Ray Boughman vs Willis Canole and Guy Lee vs Nick Hardie. That looks like as fine a set of six-round contests as the most exacting fan could desire.

The main event bout between Johnnie McCarthy and Morrie Bloom should be a corker. Both the men are of an equal size and are built along the same lines

Jockey Club Makes Formal Statement In Regard to Plans

Chance Given Inferior Stables to Win Get-Away Stake; California Derby Not to Be Run; Not to Fight Law

BEGINNING tomorrow the management of the California Jockey Club officially announce that the card for each day will be made up of seven races and continue until the closing of the track on February 15. At the same time Secretary Treat for the club positively announces that the California Derby, the blue ribbon event of California turfs, which was scheduled for February 22, and all other events which were to take place after February 15, will not be run. Entrance money for all of these events that has been paid by horsemen will be refunded.

Unofficially it is stated that the increasing of the program one race each day has been done for the purpose of allowing horsemen to make a get-away stake. At least one of the races each day will be arranged so that horsemen owning inferior stables and who are badly in need of money may have an opportunity of winning a purse. Many of the owners are in need of this.

TRACK WILL CLOSE.

There have been so many insistent rumors to the effect that the jockey club would fight the new legislation that Secretary Treat today announces emphatically that the track will be closed after the seventh race on February 15.

So far as testing the law is concerned, it is not necessary to continue racing to bring the matter into court. An attempt will likely be made later on to test the constitutionality of the Walker-Young act before the time for another season's racing.

Outsiders at juicy prices had an inning at the Oakland race track yesterday and the talent pulled up very lame after losing five beats out of six in its desperate struggle to score a decision over the "Knights of Memory Row." The first knockout punch was delivered to form players in the initial event when Saltigrade at a 20-to-1 chance came home in front and down the line they went bowling over the choices with winners ranging in price from 8 to 1 to 3 to 1. The only choice to make good was Markie M, a 9-to-10 chance, on which, owing to the short price, speculators had little chance to recoup their losses.

* * *

The Star Ruby handicap, at one and one-half miles, which was the feature of the program, proved strictly a two-horse affair, with Markie M the heavily backed odds-on choice, leading his field the entire journey and just lasting long enough at the end to nose in ahead of Fulletta. The latter was the well-supported second choice and followed him all the way around, being interfered with as they came down the stretch, otherwise the result would have been different. Jockey Selden, who had the mount on Fulletta, lodged a claim of foul against the winner after the race, but the stewards did not see fit to allow it. Flora Riley walked home blocks in front of Whidden, the only other starter.

* * *

Jockey "Bud" Glass was indefinitely suspended by the stewards yesterday for "general unsatisfactory riding." The suspension came as a result of the Veneta Strome race of Monday, on which it is claimed the boy put up a weird ride, after the mare had receded in the betting and lost the race to the heavily-backed "good thing," Sir John. Eddie Graney also ran an unsatisfactory race in the same event, and in fact, the race bore the ear-marks of a "shoo-in." After questioning both J. McIntyre and Glass, the officials reprimanded the former and ordered an indefinite vacation for Glass. The lad put over his last mount when he rode Pluvious past the judges' pagoda by a safe margin in the closing last race of the day.

The initial race brought about an upset when Saltigrade, a 20 to 1 shot, scored an easy victory over the big field of maiden two-year-olds which strove for graduation honors. Pickens had the mount on the Mazagan gelding and easily captured the brackets. Narfi, heavily played, outgamed Alamitos for the place.

* * *

In a driving finish of three, Zoroster, a 6 to 1 chance, coming from a long way back, got up in time to grab the second race by the best part of a length from Minnedocia, which was timing very badly. David Warfield, away all tangled up, closed an acre of ground to be third, with an even break could have won. The winner was a half brother to Saltigrade, which won the first, being the get of Mazagan, with a peculiar liking for the going.

* * *

The firm of Henderson & Hogan uncovered a speedy trick in Alamitos, which finished third in the juvenile race. The chestnut gelding by Hastings was slow to break, but when clear was going great guns at the finish.

VARSITY NINE TO MEET STARS

BERKELEY, Feb. 8.—Ireland's Independents, one of the fastest aggregations around the bay, will be the opponents of the Varsity nine on the old field, this afternoon at 3 o'clock. This team boasts of such stars as Dick Egan, a former player on the famous Cincinnati Reds. Egan is only one of the team of big leaguers which will play today.

In the preliminary games of last season the Independents were successful against the Blue and Gold and Coach Schaeffer is sending a team into the field today which he thinks will reverse the scores of a year ago. Allen, at third, and Forker, on the mound, will be among the veterans to take the field in the first line-up.

By far the largest squad of the season turned out for practice yesterday afternoon and went through two hours of satisfactory workout. President Wheeler was an interested onlooker during part of the practice.

Men and teams have been at work on the diamond of the old field, getting into shape for the coming games, and by the distribution of a few loads of sand and rolling, it is now in good condition.

Contrary to usual custom the contest this afternoon will be called at 3 o'clock.

The following strong line-up will take the field for California: Catcher, Stoner; pitcher, Forker; first base, Greenaw; second base, Ford; short stop, Rubke; third base, Allen; left field, Coane; center field, Salisbury; right field, Jordan.

Interclass Regatta Plan of Oarsmen of State College

BERKELEY, Feb. 8.—An interclass regatta is to be held by the rowing men this year, the first to be held in several years, and March 4 is the date set for the affair, when crews of eight oarsmen representing the four undergraduate classes will strive for victory over what will probably be a mile and a half course.

Captain Tom Davidson has selected the following men to captain their respective class crews: Seniors, D. P. Hardy; juniors, S. Malatesta; sophomores, A. Paton; freshmen, R. S. Fuller.

Professor Magee, of the physical culture department, has issued excuses to the freshman crew men which will allow them to stop gymnasium work after February 15, when they will then be able to participate daily in active rowing. As all the races cannot be run on the same day, lots may be drawn and two races run off March 4 and the winners of that day will meet March 11 in the deciding race for the college championship.

University Co-Eds to Seek Honors in Racing on Water

BERKELEY, Feb. 8.—The University co-eds are planning an interclass rowing championship on Lake Merritt on Woman's Day, February 22. Five crews will be entered in the contest, and Miss Grace Hamilton has been appointed by the executive committee of the women students to handle the regatta.

Women taking part in these races will be awarded their class numerals by the different classes they represent. Each crew will be composed of two rowers and a coxswain. The women's boating association is already in possession of a two-oared barge, but four others will be procured for the races.

New Schedule for Bay Counties Athletic League

The Bay Counties Athletic League has postponed all of its league basketball games five days on account of the interference with the Pacific Athletic Association games. The new schedule is as follows:

Monday, February 13, Fremont High vs. Berkeley High at the St. Mary's gymnasium.

Wednesday, February 15, 3:30 p. m.—Oakland High vs. Oakland Polytechnic High, same place.

Monday, February 20—Oakland Polytechnic High vs. Berkeley High, same time and place.

Wednesday, February 22—Oakland High vs. Fremont, same time and place.

Monday, February 27—Oakland Polytechnic High vs. Fremont, same time and place.

Wednesday, March 1—Oakland High vs. Berkeley High at Harmon gymnasium, 3:30 p. m.

The first P. A. A. game will be played at St. Mary's College gymnasium this evening. In the 110-pound class the San Leandro Athletic Club team vs. Oakland High. In the 120-pound, St. Mary's vs. Oakland Polytechnic High school. Oakland High draws by team.

Oakland High Wins

The Oakland High school's heavyweight basketball team defeated the lightweight 130-pound team of the First Congregational Cadet Corps by the close score of 31 to 27 last evening at the Cadet armory on Market street. The game was bitterly contested and replete with sensational plays, in which both teams showed up well.

The feature of the game was a long goal thrown from the center of the floor by Johnny Talcott of the Cadets to tie. Reynolds also made a spectacular basket for the Oakland High team. The High school team showed fine team work and accurate passing, while the Cadets were strong in goal shooting. Herbert Chase was the star foul goaler for the Cadets, while Captain Hilden and Gonzales made Oakland's foul goals.

Ferd Elvidge, at forward, played a brilliant game, scoring many baskets and Charley Allen guarded Oakland goal in a clever manner. The score at the end of the first half was 14-12 in favor of Oakland High. They players were:

Cadets—Horn, forward; H. Chase, forward; Talcott, center; R. Chase, guard; Teddy, guard; Morehouse, guard.

Oakland High—Elvidge-Curley, forward; Whitton-Gonzales, forward; Holden-Taylor, center; Hoisen, guard; Albright, guard; Allen, guard.

In order that the spectators may be better taken care of and the games better played the P. A. A. committee in charge of the basketball championship has announced that all the games will be played in the gymnasium of the St. Mary's College instead of the Cadet Armory as was formerly anounced. Many of the games are to be played in San Francisco but all the Oakland ones will be held at St. Mary's College.

KLAUS KNOCKS OUT WILLIE LEWIS IN SIX ROUNDS

String of American Boxers in Australia Are Sailing for England

NEW YORK, Feb. 8.—Frank Klaus, of Pittsburg, knocked out Willie Lewis, of New York, in the sixth round of what was scheduled to be a ten-round bout here tonight.

In the first round the Pittsburger sent Lewis to the mat for the count of nine. Only the bell saved Lewis in the fifth and in the sixth he went down twice from hard swings to the jaw.

After rising the second time he dropped to the floor without being struck and was unable to rise.

Klaus was the heavier of the two middleweights.

WOLGAST-BROWN TONIGHT.

PHILADELPHIA, Feb. 8.—In the main bout Ad Wolgast of Cadillac, Mich., meets Knockout Brown of New York, in a six-round bout at the American Athletic Club tonight. It is the first battle the champion has undertaken since he broke an arm last September.

Wolgast has been in hard training for the past three weeks at Fernwood. He was so pleased with his condition today that he omitted boxing and hard work entirely and merely took a light jaunt on the road. He weighed himself at the close of work and found himself at the 131-pound notch. Both men must weigh inside the 133 pound ringside limit. Wolgast says he will enter the ring at least two pounds under the stipulated weight.

Knockout Brown will come over from New York at noon today. The steel-limbed New Yorker with the "good night" wallop is in the best of shape.

MOORE BACKED OUT.

BOSTON, Mass., Feb. 8.—Pal Moore, of Philadelphia, claimed George Algar, of Cambridge, was overweight and refused to go on with the scheduled bout here tonight. Kid Sula of Spokane, who arrived today, was substituted and put up a game fight but lost in twelve rounds.

AT THE DENVER BOUTS.

DENVER, Feb. 8.—Preliminaries in the heavy weight, middleweight and 125-pound boxing matches and two fast wrestling bouts featured the second night's program of the Denver Athletic Club amateur championships. In both wrestling matches, Salt Lake men were successful.

In the 158-pound boxing class, Jack Carson scored the first clean knockout of the tournament, putting Frank Thratt to the floor with a hard right hook to the jaw.

In the 125-pound class, J. E. Evans, amateur champion of Wales, scored a clean cut victory over his opponent and showed the class of the tournament so far.

DENLEA COLLAPSED.

CHATANOOGA, Tenn., Feb. 8.—George Denlea, of Pittsburg, a lightweight boxer, is in a critical condition at a hospital here late tonight as the result of injuries received in a fight with James Abel of this city.

Denlea crawled from the ring after being knocked out in the fourth round, but collapsed soon afterwards and has not regained consciousness.

Wisconsin Military Men Outplay the Fast Livermore Team

LIVERMORE, Feb. 8. — Livermore team, Co. I, National Guard, went down to defeat before the husky five of Co. F, Portage, Wisconsin. The local boys put up a stiff fight and this went farther to show in the one sided score, the superior weight and team work of the Wisconsin men being too great an effort for the plucky little fellows from Company I.

The play was fast and rough, both Co. F and Co. I taking time out, but the game was clean and was marked by an utter absence of ill feeling. The fairness and excellent judgment of the Wisconsin referee, Sheppard, is to be commended.

For the local men Captain Holm and C. S. Sweet put up an excellent exhibition, the latter especially as guard outplayed his opponent and was the star of the game. The Wisconsin players were escorted to the hall by the band and Company I in full uniform. After the game there was a dance. The summary of the game was:

LINE UP.

Company F, Portage, Wis.—Hinicke, 4, R. G.; Schneider, 7, L. G.; Harper, 2, C.; Tonda, 4, R. F.; Swenholt, 7, L. F.

Company I, Livermore—Mohr, 2, R. G.; C. S. Sweet, 2, L. G.; C. C. Sweet, 1, C.; Wagner, 1, R. F.; Holm (Captain), 2, L. F.

Free throws—Tonda 2, Sweet 2. Referee—Sheppard. Umpire—Jacker. Score, 50 to 16.

The Wisconsin Stars last night defeated the All-Stars of Stockton, champions of the State, by a score of 29 to 15 or nearly two to one. The Stockton champions were clearly outplayed at all angles of the game, but they put up a good fight and never gave up trying until the whistle was blown for the end.

C. S. A. L. LEAGUE.

But one of the scheduled games in the Catholic Schools Athletic League basketball tournament was played yesterday, St. James' School defeating St. Peter's Grammar School on the Irish-American Athletic Club court, by the score of 33 to 21. The second contest, which was to have been decided between Star of the Sea and St. Joseph's grammar school was declared forfeited to St. Joseph's, Star of the Sea having decided to pull out of the competition in the 120-pound class.

GAMES TONIGHT.

SAN FRANCISCO, Feb. 8. — The first game in the unlimited class for the Pacific Coast basket ball championship will be played tonight, when the Olympic Club lines up against the Argonaut all stars at the Tamalpais court. In the 130-pound class two winners of the preliminary games, Sacred Heart and St. Peter's alumni teams, will meet. The 120-pound teams of the Cogswell Midgets and the Telegraph Hill boys' club will play off the semifinal game in this class. The first game will start at 7:30 o'clock.

COGSWELL WINNERS.

SAN FRANCISCO, Feb. 8. — The game between Cogswell and Polytechnic at the Tamalpais court last night was the most open and exciting yet pulled off. Cogswell won by a score of 48 to 25. Gilbert was the star of the winning team, shooting goals with neatness and precision. One of the best baskets of the game was made by Gilbert with a long shot from the center of the court. Mariant also did good work for Cogswell. Barnes played a hard game for Polytechnic.

LICK IS VICTOR.

The unexpected happened on the Young Men's Hebrew Association court last night when the Lick five defeated the Commercial team by a score of 45 to 24. Wood scored 22 points for Lick, while Weir accounted for 22 for Commercial.

PHOENIX TO MEET BURKE STARS SUNDAY

The most interesting topic among baseball enthusiasts just now is the game scheduled for next Sunday afternoon between St. Mary's Phoenix team and Bart Burke's Stars. The latter claim to have a team that will make the collegians extend themselves. The lineup is as follows: Meigel or Krause, pitcher; Burke, catcher; Thornton, first base; Kennedy, second base; Hallinan, third base; Burns, shortstop; Warren, Nicholson, Warren and Scherwin, outfielders.

The Phoenix team were full of ginger yesterday when they appeared for practice under Frank Hart, 1909 captain, and there was a determination to wipe out the criticisms which followed their defeat of California. Captain Ed Martin instructed 40 men in track work during the afternoon.

Brunner Behind 40 Points as Duniway Won Last Night

When R B Brunner chalks his cue tonight to win the 300 point 18.2 balkline match from Wilkie Duniway the Portland billiard crack he will have to overcome a handicap of forty points The Portland man last night ran out his block at 150 while the Oakland champion was scoring 107 The enthusiasts had but little to grow warm over as neither of the men were up to form and both of them seemed for that reason to use safety tactics The particularly cheered plays were the cushion draws of the Oakland man

Bloom is originally from Chicago but has been boxing of late in the city of Los Angeles for Tom McCarey where he made a world of friends and gained a great boost It is the opinion of his manager Joe Levy that the climate of the south did not agree with his man however and he was brought north to campaign here in the hope of getting to the top of the light weight division

McCARTHY IS IMPROVED

McCarthy is a willing fellow and that he has improved is best proven by the showing he made with Packey McFarland In one of the four round bouts Eddie Campi will be pitted against Jack Douglas This will be the first time that the Oakland fans have had the chance to see Campi in action and that he will make a hit if he wins is a foregone conclusion Eddie is the undisputed champion of the 110 pounders and his work is of such a clean cut order that the fans always take a great shine to him every place he appears

'LIL ARTHA COMING.

John Artha Johnson will arrive here tonight or tomorrow morning in company with Walter Monahan a couple of automobiles and plenty of dazzling championship glory Johnson is coming to this coast to take a long talked-of rest—that is Jack says he is We have a very different idea of what John calls a rest for it is my opinion that the champion will not make many moves from the city of San Francisco and that most of his time will be spent in riding about the city in an automobile

Johnson will deliver a few speeches about what he intends to do in the future and will keep himself in the limelight as much as possible but it would seem to me that there is little chance for the black man at this time unless he accepts the offer of the London promoters to go there to box the winner of the Bill Lang Sam Langford bout The talk of a Kaufman Johnson contest is too much of a joke to cause any serious thought among the fans at this time

TO THE SOUTHERN PACIFIC COMPANY:

The undersigned daily travelers on the ferries between Alameda, Oakland and San Francisco deprecate the efforts of the newspapers and automobile clubs to force you to allow more than four automobiles on a ferry boat at one time. We believe that such a practice would be unsafe, if not positively dangerous, and that the safety of thousands of people should have consideration in preference to the convenience and comfort of a few hundreds bent solely on pleasure. We heartily commend your Vice-President's refusal to permit such use of the ferries, and earnestly hope that his position will be steadfastly maintained.

CALIFORNIA OIL MEN WIN POINT

Relief From Yard Decision Is Obtained by Passage of Bill.

WASHINGTON, Feb. 8.—A rallying of friends to Representative Smith of California in the House today brought about the passage of his bill affording relief to California's oil men from the so-called yard decision. The measure reads as follows:

"Be it enacted that in no case shall a patent be denied to or for any lands heretofore located or claimed under the mining laws of the United States containing petroleum, mineral oil or gas solely because of any transfer or assignment thereof, or of any interest or interests therein by the original locator or locators or any of them, to any qualified person or persons, or to a corporation prior to the discovery of oil or gas therein; but if such claim is in all other respects valid and regular patent therefor not exceeding 160 acres in any one claim shall issue to the holder or holders thereof as in other cases; provided, however, that such lands were not at the time of entry into possession thereof covered by any withdrawal."

STATE'S CATTLE ARE DISEASED

What to Do With Tubercular Cows Puzzles Berkeley Board of Health.

BERKELEY, Feb. 8. What is to become of a herd of twenty cows belonging to the state, one half of which are declared to be infected with tuberculosis, and which Berkeley has on its hands? The herd is being used by the California Institute for the Blind on Warring street.

Residents living in the vicinity of the herd have protested to the board of health of Berkeley asking the removal of the animals which were recently examined and found to be partially tubercular.

City Attorney Stringham says the local board of health has no jurisdiction in the matter as the cows are on state property. Dr. Raymond Russ of the state board of health conferred with the local board regarding the nuisance, but no way out of the difficulty has yet been found.

MANY GAINS ON EARLY BOARDS

Stock Market Opens Strong, But Tone Is Irregular as Rule.

NEW YORK, Feb. 8. — Many good gains were shown at the opening of the stock market today but as a rule the tone was irregular. Canadian Pacific advanced 1½. American Hide preferred 1 and American car, Northern Pacific, Agriculture, Chemical and Erie ½. The copper shares were heavy and Union Pacific, Reading and United States Steel sold fractionally below last night's closing prices.

Professional traders were inclined to take profits on the sharp rally in the late session yesterday and the market weakened with an increasing bear pressure. Reading and American Beet Sugar declined 1½ and Great Northern preferred, Missouri Pacific, New York Central and Union Pacific 1.

The bulk of trading during the morning session was on the short side of the market and pressure was exerted almost continuously on the leaders. Sentiment was decidedly bearish and the list showed corresponding heaviness. For an interval in the second hour the market made a futile attempt at a rally, but large offerings of Reading which broke to 159¾, sent the list to the low level again. Crex Carpet improved 8 points.

The selling diminished in volume and the market became dull. There was a general hardening of prices.

The market closed irregular. The sale of a large block of Atchison convertible 4s to important banking interests explained the heavy buying of the stock, which went to 108.

Bonds were steady.

MONEY AND EXCHANGE.

NEW YORK, Feb. 8.—Money on call, steady, 2@2¾ per cent; ruling rate, 2⅝ per cent; closing bid and offered at 2 per cent.

Time loans, firm; 60 days, 3 per cent; 90 days, 3¼ per cent; six months, 3¾ per cent.

Close: Prime mercantile paper, 4 to 4½ per cent.

Sterling exchange, heavy, with actual business in bankers' bills at $4.8335@4.8350 for 60-day bills and at $4.8615 for demand.

Commercial bills, $4.82¾@4.83.

Bar silver, 51¾c.

WHEAT PRICES TUMBLE QUICKLY

Commission House Sales Give Figures Full; Support Is Poor.

CHICAGO, Feb. 8. — Selling out of wheat through commission houses gave prices a quick tumble today. Comparative strength at Liverpool led to initial firmness here, but support was poor and the pressure of liquidation so in so powerfully that the market slumped in short order.

News of favorable weather throughout Europe contributed to the weakness here. So did absence of cash demand. Another bearish factor was the continued bringing of Kansas City wheat to this market. Opening prices were a shade lower to ¼@⅜ up. May started at 94½ to 95⅜, with the same change from last night as the option list taken altogether and then declined to 93⅞.

Stop loss selling sent the market to the lowest point since November 4. There were reports of rain in Texas but short covering led to a rally. The close was steady with May at 94⅝ a net gain of a shade.

With local shorts the only buyers in light corn dragged and offerings increased; May opened unchanged to ¼ down at 49¼ to 49½ and fell to 48¾.

Corn—Short selling was a noticeable feature and caused a decided decline. The close however was steady with May at 49⅜@49½, a net loss of ⅛@¾.

Numerous small lots of oats were closed out and gave the market a tone of depression. May started a sixteenth to ⅛@⅜ off at 32 to 32¼ and dropped to 31¾@32.

Pork shipments of lard and meats combined with a larger run of hogs west made provisions turn downward. First sales were 2½ to 12½ below last night, May options going at $17.92 to $18.00 for pork; $9.60 to $9.62½ for lard and $9.60 for ribs.

The closing quotations were as follows:

Wheat—May, 94⅝c; July, 92⅞c; September, 91⅜@91½c.

Corn—May, 49⅜@49½c; July, 50⅜@50½c; September, 51⅛c.

Oats—May, 32c; July, 31⅞c; September, 31⅝c.

Pork—May, $17.85; July, $17.20.

Lard—May, $9.57½; July, $9.47½@9.50; September, $9.70.

Ribs—May, $9.60; July, $9.37½; September, $9.40.

Any One

Of the thousands of readers who are reading this page in all parts of Alameda county right now, while you are reading it, may be reading the page in hopes of finding just the offer that YOU could make. Is your offer or business represented on the page? The general public can't spend their valuable time during the busiest hours of the day looking for the Room, House or Flat to rent. Nor can they walk the streets looking for the man that sweeps chimneys, the man who builds and repairs windmills or the man who files saws. The busy people of Oakland and neighboring cities read THE TRIBUNE, because THE TRIBUNE Classified pages are brimful of good opportunities.

You're a Business Man, Answer this Question

How many people know about your business, how many know of your special line of endeavor? Like as not it's a comparatively small circle if confined to your acquaintances and those who you come in touch with in your neighborhood. Would you enlarge your circle, add to your sphere of usefulness and make your business known to greater numbers? Take advantage of THE TRIBUNE Classified Pages. You are always assured of a hearing if you employ the Wants for your publicity. There's but a minimum of expense to reach many who are interested in just what you have to offer. If you wish, THE TRIBUNE special man will call on you and tell you how to increase your business at a small cost.

LOCAL PARLORS TO SEEK SUPREMACY

Piedmont and Fruitvale N. S. G. W. to Fight It Out for Ritualistic Honors.

A contest for supremacy in ritualistic work will be started by the officers of Piedmont parlor, N. S. G. W., Monday, February 20, when they will go to Fruitvale [illegible] to start the ball rolling. Fruitvale parlor will come here February 23.

The third and deciding contest will be held in one of the large halls in Oakland, the time and place to be agreed on later.

These contests will be under the direction of the district deputy grand presidents of the Native Sons of the Golden West of Alameda county, and the results of the first two contests will be submitted to the grand officers, who will attend the final contest, when both teams will put on the work together.

Piedmont parlor's officers will have President Charles F. [illegible] as leader, while President Philip Gross of Fruitvale will show what [illegible] his parlor's officers can do.

AUSTRALIA WILL DEBAR JAPANESE

Little Brown Men Are Persona Non Grata on Island Continent.

VICTORIA, B. C., Feb. 8.—Advices were brought by the Zealandia that much excitement was occasioned in Australia and New Zealand by the report that arrangements had been made by the French nickel mining companies in New Caledonia to bring 600 Japanese to the South Pacific Islands. Mr. Fisher, in an interview, said the arrival of thousands of Japanese at Noumea was a matter of grave importance to Australia, owing to the danger of New Caledonia being made an intermediate settling ground for hordes of Japanese. No men could [illegible] enter the state [illegible] the first ship load of Japanese is causing disturbance. The landing of the [illegible] was arranged in Japan.

TALK TO YOUR DRUGGIST

He Has a Catarrh Remedy Named Hyomei That Is Highly Recommended by Thousands and Sold On

MONEY BACK PLAN

Yes, money back if HYOMEI doesn't banish catarrh.

Do you know what that means? It means no more hawking, blowing, spitting, snuffing, sneezing.

It means no more mucus sniffling up the throat in the morning. No more dry crusts filling up the nostrils. It means that foul breath and stuffed up head will be things of the past.

Then why not breathe HYOMEI? It's a simple and pleasant task and directions come with each outfit, so that you won't have any trouble getting rid of obnoxious catarrh.

HYOMEI is also guaranteed for coughs, colds, asthma, croup and catarrhal deafness. Complete outfit $1.00. If you already own an inhaler any druggist will sell you a separate bottle of HYOMEI for only 50 cents.

To break up a cold in head or chest over night try this just before retiring. Into a bowl three quarters full of boiling water pour a teaspoonful of HYOMEI, cover head and bowl with towel and breathe for five minutes the antiseptic, healing vapor that arises.

FRANK STICH IS SORT OF 'SNITCH'

Tells Bad Tales on Clothing Manufacturers Before Grand Jury.

CHICAGO, Feb. 8.—Clothing manufacturers of this city employ a prominent politician as a juror so that they may evade the factory laws, according to the testimony given yesterday before the state Senate commission investigating the garment workers' strike by Frank Stich, a former bookkeeper and stock taker for a clothing house.

The name of the politician was not disclosed by Stich, who said he was a good fellow and had done the witness favors in the past and he did not want to make any trouble for him.

He is a prominent politician, said the witness. He attends to all jury calls for the clothing manufacturers in the association, getting employes off who are called for jury service.

He tips off visits of the factory inspectors so that children under age can be hidden away while inspectors go through the building. He also procures the affidavits for children who are working under the legal age.

Is he considered a fixer? asked Senator Henson, chairman of the commission. He is generally known as that, said the witness.

Senator Henson decided that as Stich was a voluntary witness and as he was now in business for himself, he would not require him to disclose the name of the politician.

LESE MAJESTY BAD FOR 'LIBERATOR'

Firm Printing Paper Serves Notice That It Will Not Continue Job.

PARIS, Feb. 8.—A threatened British boycott has made it necessary for [illegible] James [illegible] to find another printer for the Liberator. The printing firm that has been doing the work notified him today that it had been informed by [illegible] from the British Chamber of Commerce here that if it continued the publication of the paper that libeled King George it would lose other and more important business.

As certain legal formalities must be complied with before a new printer can undertake the work, the next issue of the Liberator probably will be delayed a week.

BRAVES DEATH TO WIN SUIT AND FAILS

LOS ANGELES, Feb. 8.—Henry Christ, who underwent a dangerous abdominal operation last week to win a $50,000 malpractice suit which he instituted against Dr. Rea Smith, was informed yesterday at the hospital, where he still lies, that he had braved death for nothing. The jury rendered a verdict for the defendant physician.

Christ claimed that Dr. Smith had erred in performing an operation upon him some months ago.

Medical experts gave contradictory testimony, so Christ, to prove his point, underwent a second operation.

Parts of his interior organism were removed and shown to the jury, with the result that the physician won.

POSTLER BRANDED SUICIDE BY JURY

Coroner's Body Clears Kripp of Charge; Six Stand Out for Homicide.

SAN FRANCISCO, Feb. 8.—Seven for suicide and six for justifiable homicide was the result reached last night after four hours' deliberation by a coroner's jury called to decide the manner in which Gustave Postler, the man who was killed during his attack on a Mason street gambling house, came to his death. Such a division is said to be a record for a coroner's jury.

The question as to whether Postler was killed during a pistol duel with [illegible] Kripp or one of the frequenters of the place, or killed himself by a shot from the revolver which Kripp had borrowed from Sergeant Donovan, was discussed with much heat during that time. When the verdict was announced to Coroner Walsh he unhesitatingly approved [illegible] report of suicide. The minority report was filed for reference.

An incident of the hearing yesterday afternoon was the breaking down of Mrs. Postler, widow of the dead man, when she was called to the stand and saw the clothes worn by Postler at the time of his violent death. She begged that they be removed. They were taken [illegible] by order of Coroner Walsh.

WILSON IS WITNESS

H. M. Wilson, the reputed owner of the [illegible] club, was one of the first witnesses. He testified that Postler entered the club gun in hand and demanded [illegible] money from Goodrich, who was running one of the gaming tables. Goodrich gave him the money at his [illegible] promise not to shoot and Postler had turned to go when Kripp returned. He called Kripp into the room and ordered [illegible] Goodrich. Wilson and the rest ran from the room.

W. M. Goodrich, the manager of the club, corroborated this story, as did Paul [illegible], who declared he was there when Postler entered the room and remained until Kripp returned with the revolver, he going down the fire escape and borrowing the gun from Sergeant Donovan.

Detective Sergeant Closen and Policeman Morris [illegible] testified to occurrences after the shooting, and the revolvers used by the two men were produced.

VISITS SCENE OF TRAGEDY

The inquest was adjourned at 5 o'clock [illegible] the jury to visit the scene of the tragedy, after which Patrolman Thomas O'Connell and Detective Lambert were called to the stand. Kripp was called at [illegible] o'clock and made an excellent witness in his own behalf. He reiterated his original story of going down the fire escape and getting the revolver from Sergeant Donovan and of his return with Paul [illegible], whom he took with him in an attempt to persuade Postler to abandon his wild course.

He described his pistol duel with Postler and told of hearing a single shot as he escaped from the room and went down in the elevator. On his return with the police Postler was dead.

Dr. C. A. Clover described the course [illegible] bullets that struck Postler. Mrs. Postler again broke down and was [illegible].

The jury was then charged by Coroner Walsh, who dwelt on the fact that the gambling halls had been operating for months in open defiance of the law and requested that they should recommend that the grand jury make an investigation into the matter.

At [illegible] o'clock the jury went in to deliberate and after long argument the split verdict was announced at 9:25 o'clock.

PREDICTS SUCCESS FOR AIR SCOUTS

Wilbur Wright to Watch Experiments on Mexican Border Line.

NEW YORK, Feb. 8.—Wilbur Wright believes that the work of the aeroplane scouting, which will probably be commenced by Lieutenant Foulois of the [illegible] United States Army this week, will be one of the most important and interesting [illegible] the science of aviation. Before leaving for Dayton today Wright gave out the following statement:

Military scout work was the first [illegible] that [illegible] my brother and myself [illegible] our invention, and we presented [illegible] for such work to the War [illegible] before we made [illegible] success in [illegible] heavier than air flying machine. That was six [illegible] and [illegible] has been done with aeroplanes, but this detail of [illegible] will be the first use [illegible] as a military scout for [illegible] of armed forces in an actual state of hostilities.

MUCH IS REQUIRED

There is a great deal more required of the aviator in such work than is generally understood. He may be a master [illegible] and still practically worthless as an observer of what is going on below him. The scout aviator must be thoroughly experienced to retain his sense of distance, direction of moving bodies, topography [illegible] as well as to educate his powers of [illegible] to the many [illegible] views from far above.

There is no better equipped man in the country for such work than Lieutenant Foulois, and I shall watch his work with the greatest interest.

What is the best height for scout observation? Well, about 1000 to 2000 feet. At that height [illegible] can be seen [illegible] without much [illegible] and the extent of the observer's vision is much greater than [illegible].

FAIR DAUGHTERS OF CALIFORNIA TO GIVE A DANCE

Two members of Bahia Parlor, N. D. G. W., who are arranging for masquerade ball

Bahia Vista Parlor No. 167, N. D. G. W., will give a prize masquerade ball in Carpenters' hall, corner Twelfth and Brush streets, this evening. Although this is the initial masque ball given by this parlor it promises to be one of the successes of recent fraternal affairs. Competent committees consisting of women prominent in Bahia Vista parlor have been working for the success of the affair.

The hall has been appropriately decorated for the occasion, palms and ferns being used in abundance, together with yellow crepe paper, representing the colors of the lodge. Hand painted china will be given as prizes.

The committee of arrangements includes Mrs. Ida Thompson, chairman; May Wright, Evelyn Jordan, Pearl Chubb and Grace Connor.

On the floor committee are Mrs. Ida Thompson, Mrs. May Pratt, Miss Dell Stephens, Miss Tina Rohls, Miss Josephine Geary and Miss Ella McCarthy.

PLAN NEW HOMES FOR U. S. CONSULS

House Passes Bill Providing for Buildings; Hope Given Poor Man.

WASHINGTON, Feb. 8.—After a ten years' struggle the House passed a bill providing for the purchase and construction of embassies, legations and consular buildings abroad.

The measure was put through under a suspension of the rules by a standing vote of 131 to 39, the announcement of the result being greeted by applause.

The Senate, which on several occasions had adopted similar bills, is expected to ratify yesterday's action of the House.

Representative Lowden of Illinois, author of the bill, led the fight, seconded by Representative Longworth of Ohio. The opposition came from the Democratic side, Representatives Cullop of Indiana and Underwood of Alabama making the principal speeches.

Longworth said there were only two ways of broadening the scope of the American diplomatic corps and taking it out of the realm of the millionaire. One was to increase the salaries [illegible] enable the comparatively poor man to live on a scale with his colleagues, and the other was to provide him with a suitable house in which to live.

Longworth appealed especially to the Democrats to support the bill, claiming it had been indorsed by William J. Bryan and Samuel Gompers.

The bill limits the cost of buildings to $[illegible].

LOCAL BUSINESS FIRMS TO GIVE HOUSE WARMING

A grand exhibition [illegible] and house warming of the Interocean Stone company and the Santa [illegible] Stone and Brick company will take place Washington's birthday, February 22, at 2 p. m., at the plant at the foot of Ninth avenue, East Oakland. All stockholders, of which there are about five hundred, are invited to be present.

Besides a demonstration of the workings of the plant there will be an entertainment and refreshments. A number of prominent business men of Oakland, some of whom are known as able speakers, will give instructive talks on Oakland's manufacturing industry and the fortunate position she is in being able to encourage industries to locate here.

The chief subject for the entertainment which will be the firm's future motto, The fair is ours, let us have a fair chance for fair buildings.

A cordial invitation is also extended to the many friends of the two companies, and as a large crowd is expected it is urged that those accepting the invitation will be on hand promptly at the hour mentioned.

'Banquet' Cheese has a delicious flavor. It is a healthful, tasty dainty. 10 cents.

PURE FOOD NET CATCHES SCORES

Many California Firms Accused of Mislabeling and Adulterating.

SACRAMENTO, Feb. 8.—A list of twenty alleged violators of the California pure food law against whom complaints will be filed by order of the State Board of Health has been given out by J. F. Gardner, the board's attorney. This follows an investigation of a number of cases held by the board Saturday.

The names of the alleged offenders will be given to the district attorneys of the various counties where complaints will issue. A large number of the complaints are from Los Angeles and San Francisco. The list follows:

Botello Bros., San Rafael, charged with preserving ginger ale, sarsaparilla, lemonade and orange [illegible] with benzoate of soda not declared on the label.

B. Wagner, San Francisco, selling mislabeled and adulterated cider vinegar.

Mrs. M. F. Reed, San Francisco, mislabeling sweet pickles and chow chow.

L. B. Massey, Los Angeles, mislabeling eggs.

Lun Hing company and Yee Lung company, San Francisco, mislabeling ice cream.

W. P. Russell, Los Angeles, mislabeling syrup.

COLLEGE-BRED INDIANS TO BE GIVEN JOBS

DENVER, Colo., Feb. 8.—According to Charles E. Dagenett, supervisor of the United States Indian service at Denver, the Atchison, Topeka and Santa Fe railroad will find places in various departments of the road for as many college bred Indians as possible.

Mr. Dagenett is now on a trip to various Indian reservations in this and neighboring states to find men for the places offered. He expects to get several hundred candidates. The railroad officials declare will offer every opportunity of advancement to its Indian employes.

STOCK RAISER'S PLEA FOR MERCY GRANTED

WASHINGTON, Feb. 8.—Taking compassion on Guy Livingston, a farmer of Dunkirk, Mont., whose plea for mercy while he was in jail was that his livestock was freezing and his home being pillaged, President Taft within an hour after the receipt of the communication from the department of justice today telegraphed his pardon. Livingston was serving a sentence of sixty days, having been convicted on a technical charge of having taken whiskey into the Blackfoot Indian reservation.

S.S.S. CURES BLOOD POISON
A great many so called remedies for Contagious Blood Poison are composed almost entirely of strong mineral ingredients. They seem to be compounded with the idea that one poison will counteract another—provided the stomach and delicate portions of the system can withstand the effects of the strong treatment. These concoctions are intended to kill the poison in the system. In this article we want to tell you of S. S. S., a purely vegetable remedy for Contagious Blood Poison, a medicine that not only cures the disease but one which from the first dose has a fine tonic effect upon the stomach and the entire system. Nor does S. S. S. attempt to kill the germs within the system, but cures by REMOVING them from the blood—which is absolutely the only way to cure the disease.
It does not require any argument to establish the fact that a blood disease can be cured only by a blood purifier, every one will admit the truthfulness of this statement. The question of most importance therefore is, what medicine has proven by actual results its superiority as a blood purifier? We claim this distinction for S. S. S., and offer as proof the fact that for more than forty years it has been sold under this claim and the demand for it has steadily increased, and we have thousands of testimonials from cured patients from all parts of the country.
Contagious Blood Poison, as the name implies, is an infectious blood taint which may be communicated from one person to another. Its virus is of a most insidious nature, multiplying from an insignificant germ in the blood, until it becomes a thorough systemic poison. Its first symptom is usually a tiny sore or pimple, but it rapidly spreads, and in a short while the entire body gives evidence of the poison in the blood. The mouth and throat ulcerate, glands in the groin swell, the hair begins to come out, copper-colored splotches appear on the body, and frequently running sores and ulcers break out on the flesh.
A condition of such serious nature requires proper treatment. Not only must the disease be driven out, but the system which has been weakened by the ravages of the poison, must be built up before health can be restored. S. S. S. CURES CONTAGIOUS BLOOD POISON BY PURIFYING THE BLOOD. It goes into the circulation and removes the last trace of the infectious virus, acts with fine tonic effect on the stomach, bowels, kidneys and all portions of the system, and thus makes a perfect as well as lasting cure. S. S. S. is made entirely of roots, herbs and barks, each of which has a specific action on the system. Not a particle of mineral of any kind enters into the composition of this great medicine. S. S. S. is perfectly safe for any one to take, and instead of upsetting the stomach as mineral medicines do, it tones up this important member and makes digestion easy. Thousands have cured themselves of Contagious Blood Poison by the use of S. S. S., and if you will write and request it we will send you, without charge, a Home Treatment Book, which will give you all necessary information for curing yourself at your own home. We will also give you free any special medical advice you ask for. S. S. S. cures by making pure, healthy blood—Nature's real remedy.
S. S. S. CURED HIM.
I was afflicted with a terrible blood disease, which was in spots at first, but afterwards spread all over my body. These soon broke out into sores and it is easy to imagine the suffering I endured. Before I became convinced that the doctors could do me no good I had spent a hundred dollars, which was really thrown away. I then tried various patent medicines but they did not reach the disease. When I had finished my first bottle of S. S. S. I was greatly improved, and was delighted with the result. The large red splotches on my chest began to grow paler and smaller, and before long disappeared entirely. I regained my lost weight, became stronger and my appetite greatly improved. I was soon entirely well, and my skin as clear as a piece of glass.
